timber, branch running through it, about 8 acres meadow. Price \$30 per acre.

One unimproved lot 99x198 on Ninth street, between D and E streets. Price \$350.

Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of caston and Cleaveland, in the State of North Car odina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the kienmond and Danville railroad company. The property has been used for fifty years past as an iron property, and has oeen worked at various points, but chiefly at the site of the celebrated fellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic fron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, shewing at that depth a vein of ore about 40 feet wide, and analyzing as high as 56 per cent, of metallic fron. This vein has not been worked, and within the past two pass very large deposits of fron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of fron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2200 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one place about 20 feet of solid vein. This vein can be traced over the top of the mountain for over a mile, and this deposit aione woul other veins here been found on this mountain.

The ore is a mottled gray ore, showing on analysis from 45 to 65 per cent. of metallic iron, with a small amount of titanic acid, and without any sul-

quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to from one the property has manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent harytese has just been found in large quantity.

cellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportualities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces crass, grain and all kinds of farming products shely, and it is well supplied with water by unfailing springs and branches.

The other 4,000 acres embraced in the mountain slies are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pline, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthlness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to rallroad facilities, being situated at from two to four miles from King's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will sell one half the mineral interest, or will sell one half the mineral interest, or will sell one half the mineral interest, or will sell one half the mineral interest.

Our New Goods

Are daily arriving, and when our stock is complete we will show you a stock comprising all the new goods and styles, and at prices that will convince all that we will give you value received for your money. A FALSE PRETENSE. This is eminently a campaign-aside from slander-of false pretenses on the part of the Republicans. In their National platform and in the letters of acceptance of Messrs, Blaine and Logan pretense is the distinguishing feature; pretended interest in the laboring men, opposition to the importation of cheap pauper labor, civil service reform, free and fair elections, respect for the rights of the States, for individual liberty in social customs, honest expenditure of the public money, opposition to monopolies, saving the public domain from the clutches of syndicates of land grabbers, reduction of; revenue taxes and reform in the tariff, respect for the rights of American citizens abroad, and other things which they now pretend to favor and take a lively interest, while the record of the party for the past twenty-four years

is dead against them.

In keeping with this programme of pretense the Republican managers in this State try to make people believe they are in favor of abolishing the internal revenue system, when there is not a man within the borders of the State with two grains of sense who believes any such thing. Why, it is simply absurd on the fact of it, If they announced themselves in favor of hari kari, or personal annihilation, it would be about as reasonable and as readily believed. The internal revthe milk and the meat of the Republican party in this State ever since its organization, without it it would have died long ago, without it now it would not exist to the end of the present campaign. What would the party be without Dr. Mott, Col. Cooper, Col. Young, Dr. Wheeler and other lights, and where would they be as political factors and bosses also non est, and the machine known as the grand old party, with all its devilment in the past and its contemplated devilment in the future would also be non est. The following figures, showing the collections and expenses in the district presided over by Dr. Mott for the years mentioned, will

give some idea of that system as a \$252,288 499,455

1881 The increased collections in 1881 were \$43,998, while the increased expenses were \$63,551. The increased expenses were \$20,000 more than the increased receipts. It took more than 50 cents to collect every dollar of that internal revenue. In campaign years the expenses

generally run up in all the districts ecause a number of specials are put on, whose chief, and generally whose only business is to look after election matters, help to get up meetings, do miscellaneous compaign work, and to use whatever of influence they may have to secure votes for the party, in consideration of which they receive from four to five dollars a day. An act passed by the last session of Congress will prevent the appointment of an indiscriminate number of these

specials as heretofore. Abolish the internal revenue? No indeed. That is about the last thing the Republican bosses in this State will want to see abolished, notwithstanding their hypocritical pretense.

Senator Plumb, who has recently risited this State on a mission to heal up old sores, and inquire into the advisability of distributing soap, reports on his return North that the Republicans will carry this State by 2,000. Mr. Plumb must have figured close, and if he has actually figured this way he will be a very much surprised individual when he reads the returns.

A report comes from New York that Mr. Geo. C. Gorham, for several years editor of the Nacional Republicrn, the Republican organ at the capital, and one of the most prominent Republicans in this country, is coming out in support of Cleveland. He had a half hour's interview with Cleveland last Tuesday.

a change in the Republican State ticket, putting G. W. Staunton, who at daylight a drizzling rain set in Treasurer, and naming Wm. G. Candler, of Buncombe, for Secretary of State in place of Staunton.

The managers of the Republican canvass in New York, alarmed at the agathy that prevails, have made another effort to get Mr. Blaine to come into that State, and it is said he has consented and he will make several

speeches there. The Republicans of the 9th district have nominated H. G. Ewart for Congress, and R. M. Henry for dis-

The Democratic convention of Wake county last Saturday nominated the following ticket, which is said to be a very strong one: Senate, Maj. John Gatling; House, Herbert E. Norris, J. Walter Myatt, J. B. Allen and C. M. Busbee; sheriff, J. Robert Nowell: register of deeds, Capt. Mack W. Page; treasurer, A. D. Jones; coroner, Dr. L. B. Sorrell. Vigorous speeches were made by sev eral of the candidates.

According to the Charleston News and Courier opium eaters are increasing in numbers to a frightful extent in that city.

ABOUT THE STATE.

Dr. Eugene Grissom has been ap-pointed Surgeon General of the State There were nine deaths in Wil-

mington last week, of which eight were colored people. Charlotte had only ten deaths in August. Concord Register: St. John's Fair will be held next Wednesday and Thursday. Hon. Fab. Busbee, of Raleigh, will deliver the annual ad

dress on Wednesday, and Gen. Rufus Barringer will address the association and the audience on Thursday. Wilmington Star: At Baltimore, a few days since, Messrs Ross & Lara and G. Z. French were awarded the contract for supplying stone for the further closing of what is known as "Corncake Inlet," at the mouth of the river, the former to furnish 9,000 tons and the latter 21,000. These gentlemen are already delivering upon their contract, and the work of

closing the ir let will go on expedi-Newberne Journal: We boast, not without cause, that the revolving pistol, ascribed to Colt, and by which he made a colossal fortune, was invented by a North Carolinian, and by a Newbernian too, but we lost both the money and the honor of the invention.—Mr. J. L. Kinsey informs us that William Fordham, col ored, while working in a new ground with other hands on the land of Mr. Thos. Harrison last Tuesday, was struck by a limb of a falling tree and

killed almost instantly. Wilmington Review: A photograph of the interior of the new market house was taken this morning under the direction of Fish Commissioner Worth, who designs it for the State enue system has been the bread and exposition.—Capt. Rod. McRae, entaught school in Kentucky, and at gineer in charge of the experimental the time met Miss Harriet Stanwood. survey of a railroad line between this city and Fayetteville, having completed the work assigned him, returned to the city last night. He has not yet made his report, nor will he be able to do so for several days. The entire route surveyed by him is a fraction more than 82 miles although he says that a line might be adopted which would make the distance something less than 80 miles. The without this nourishing fountain to draw from for their political supplies? If that were non est, they would be something less than 80 miles. The line through would be much better than he expected, and the people along the entire route are enthusiastic for its early completion.

Asheville Citizen: Mr. Kitchin informs us that in his speech at Brevard Mr. Trull publicly relieved the Democrats from the responsibility of the disturbance at Hendersonville and took all the blame upon himself. -Mr. C. D. Smith, of Franklin, has shown us a very handsome some collection of gem stones which he has had cut by a skilful Lapidary in Philadelphia. Among these stones is a set of Rutilated quartz (Sagenite). This is a rare stone which possesses many attractions. There were also a few small but elegant garnets of a rich rose color. The chief stones of

interest were, however, a lot of twenty five or thirty Beryl's obtained from a mine in Macon county, owned and operated by Mr. Smith and Gov. Robinson. — Mr. Thos. Neal informs us that in the fall of 1882 he received from Gen. Vance at Washington one pound of a Pennsylvania variety of wheat, known as rice wheat, which he sowed on a piece of carefully prepared ground. The yield the next season was 40 pounds. This he seeded on a piece of common fresh land. From this seeding he cut 18 dozen and 9 bundles, from which he thresh

ed 11 bushels. Trouble in Brussels.

BRUSSELS. Sept. 8.—All is quiet in this city today. Fully one hundred persons were wounded in the conflict between the clerical and anti-clericals. Several persons were wounded seriously, but nobody killed. As the clericals whocame from the Provinces to take part in the procession were returning to their homes last night they were assaulted by members of the opposite party at many of the provincial railway stations. A large mob at Antwerp today hooted and yelled as the clericals arrived. The Gens D'Armes charged repeated ly on the crowd and wounded several persons before they succeeded in dis-

Col. Folk Disgusted.

We are reliably informed that Col G. N. Folk, who was two years ago the Liberal candidate for Supreme Court Judge, after seeing how York behaved at Lenoir, wrote Gen. Scales a letter condemning the course pursued by York, and saying that he would not support York at the polls. Col. Folk was one of those who assisted in restoring order. who assisted in restoring order, and after order was restored he insisted on York's proceeding with his speech. York, however, preferred to take counsel from his revenue brethren—hence Col. Folk's disgust.

Frost in Maine.

Winnipeg, Me., Sept. 8.—Specials report slight frosts at various points The Republican bosses have made on the Canadian Pacific Railway was on the ticket for Secretary of averting all possible damage, though State, in place of Duke, declined, for under any circumstances the injury

Mrs. Winslow's Soothing Syrup

A DANGEROUS MAN.

What Governor Hendricks Thinks of Ben. Butler's Candidacy.

Indianapolis, Ind., Sept. 6 .- In an interview this afternoon with a News reporter Governor Hendricks was asked: "What do you think will be the re-sult of the Butler canvass?"

"That is very difficult to answer. Mr. Butler is unquestionably a very dangerous man before an audience, and he will attract large audiences, and were the election to occur today I should be inclined to concede him a considerable vote. But the weakening process is going on steadily. The people do not like to throw their votes away. It is certain that his election is impossible under any circumstances, and this will deter many of his admirers from voting for him. It is also impossible for him to affect as perfect an organization as is necessary

perfect an organization as is possessed by either of the old parties. But Mr. Butler is a remarkable man, and those who know him best admit that he is a very good one."
"If the Chicago convention had placed your name at the head of the ticket don't you think that you would have had his support?"
"I know it," said Hendricks warm
ly, "I know it."

HE CUT HIS THROAT.

Bank President Follows the Cashier

and Seeks a Suicide's Grave. New Brunswick, N. J., Sept. 8.—
President Mahlone Runyon cut his
threat in the water closet of the
National Bank with a small knife this
morning. He was implicated in the
thievery with Cashier Hill. LATER.-The excitement over the

double suicide of the president and cashier of the National Bank of New Jersey has become intense. The state-ment furnished by these officials in June of the current year showed the paid up capital to be \$250,000; surplus \$125,000, and undivided profits \$78,-180. There has been nothing in the public history of the bank since that date to cause any uneasiness to the stockholders. The suicide of President Runyon, while strengthening the testimony of the giant frauds in the management, causes unbounded astonishment to the general public.

Friendly Explanation of the Blaine Scandal. Rochester Post-Express (Rep.)

The circumstances on which the libel is based are very simple, and, beyond a plain statement of them, nced no explanation. Mr. Blaine, as is well known, when a young man his present wife, who was engaged in the same profession at the same place. It was here that the attachment began which resulted in their marriage. They were married during term time of their respective schools, but because it was thought that pubication of the fact might affect their relations with their employers the marriage was kept private. At the close of the term they went together to the home of Miss Stanwood in Maine on a visit to her relatives, and there for the first time the notice of the marriage was published. Instead of returning to Kentucky, as he had intended, Mr. Blaine was induced by his wife's brothers to remain and en-gage in business at the East. Some six or seven months after the publi cation of the marriage their first child was born. In Maine, where all the circumstances were known, it occasioned no remark, but when the news reached the small rural community in Kentucky where they had taught school and were both well known, it set loose the tongues of the gossipe, and, as usual, the worst construction was put upon the transaction. This

however, shortly passed away and was forgotten. Trade Paralyzed by the Cholera. NAPLES, Sept. 8.—The cholera epi

lemic has had the effect of paralyzing trade in this city. Five thousand ishermen and large numbers of work men are out of employment, and most all kinds of business are at a stand still. The municipal authorities of Majori, a town not far from Salema, have sent a present of 5,000 lemons for the use of cholera sufferers in Naples. This is no insignificant gift, as lemons now cost half a franc apiece
