BAD FOR BLAINE: The result of the vote on the prohibitory amendment in Maine, which, it is now estimated, will reach 40,000 majority, notwithstanding Blaine's double shuffling, and playing fast and loose with Neal Dow and the prohibitionists, will be bad for the "Plumed Knight" in other States, but especially in the West, where the large German element prevails. The emphasis with which the Republican party of Maine, for whose actions Blaine, as its acknowledged leader, will be held responsible, will intensify the German opposition to him, and will drive over to the Democracy thousands who, if that measure had been defeated, or only carried by a small majority, might still have voted for him.

The amendment absolutely prohibits the manufacture of intoxicating beverages within the State, exceptation being made in favor of cider, because the apple crop of Maine is large, and these good people, with an eye to business, like to squeeze out the juice and traffic in it. In a few liberal quaffs of hard cider there is about as much first class drunk as in the same quantity of pure whiskey, and more than in the same quantity of beer or ale. But they don't make beer or ale up in Mr. Blaine's State. Mr. Emil Shandien, a prominent German leader in Milwaukee, in an interview just before the Maine election, says the Germans in the Western States are solidifying on this question, and that they will support the Democratic nominees and support the Democratic party, which is opposed to summary legislation. Associations of Germans, he says, are being formed in all the Western States with this view, and they are numerous enough to make their power felt, and probably to turn the scales in several of these States. He is confident that this movement will decide the result in November, and adds: "Let Maine give Blaine 30,000 majority, or 50,000 majority next Monday. The more the better for the Democratic party and the liberty of the nation."

There were no internal revenue machine behind him where would Dr. York be in this canvass? Where is the anyhow?

An Oil Tank Struck by Lightning: SUFFIELD, N. Y., Sept. 11.—During a terrible thunder storm at Ocean Lake, a tank containing 35,000 gallons of oil belonging to the National Transit Company, was struck by lightning.

China Has Not Declared War: Peking, Sept. 11.—The government declares that China has not declared war, and that the bond was given by Howgate while discharging agent of the civil service bureau. No suit has been instituted hereafter to recover from Howgate's bondsmen.

WORSE AND WORSE.

A Distressing State of Affairs in Naples.

NAPLES, Sept. 11.—The situation here continues of the most distressing character. The dreadful epidemic increases hourly in its ravages. A feeling of the deepest gloom pervades the city, and the misery and suffering among the poor are simply appalling. King Humbert was yesterday prevented from visiting the poorer quarters of the city.

In this city during the last 24 hours ending at 9 o'clock this evening there have been 966 fresh cases and 328 deaths from cholera. In the previous 24 hours there have been 19 fresh cases and 14 deaths. The following is the record in other parts of Italy:

Table with columns: Fresh Cases, Deaths. Locations include Avellino, Bergamo, Campobasso, Caserta, Cremona, etc.

OTHER POINTS: BERNE, Sept. 11.—The Swiss authorities have established a regular quarantine along the Italian frontier.

ROME, Sept. 11.—Another death ascribed to have been caused by cholera has occurred in this city.

MADRID, Sept. 11.—There have been 27 deaths, all told, from cholera at Montforte since September 1.

Pyrenees state that there were 21 deaths from cholera on Wednesday, including 14 very sudden at Estabero.

ROME, Sept. 11.—One death is reported here today of Asiatic cholera.

GOVERNOR TO CLEVELAND: Way a Large German Organization Supports the Democratic Ticket.

Cleveland (O.) Dispatch to New York Sun: The Independent German Club, which has a membership of 3,200, held a meeting here tonight and ratified the Democratic ticket.

Ex-Lieut. Gov. Frederick Conrad, Republican leader, made a long address, in which he said: Grover Cleveland will use his best endeavors to bring nearer to a conclusion the solution of the labor problem.

His modest proposals prove that higher purposes in life have guided him than the acquisition of riches, and Blaine is here again Cleveland's opposite.

Who ever has heard of Blaine that has he ever used one of his influential positions in public life in thinking of or promoting the well being of the laboring masses; that he has ever shown any sympathy or charity, or carried out a measure in order to better the lot of the laboring and producing people? He has better understood how to plunder them, as the jobbing business or his letters to "My dear Mr. E. B. show."

"Senator Blaine's violent opposition to the Thurman anti-monopoly bill and his vote against this just measure is enough to brand him as a kool in the basis of the Pacific Railway monopolies. Indeed, his Republican colleague, Senator Edmunds, publicly charged him in consequence of the way he took on the Thurman bill with being a traitor and attorney of Jay Gould."

HENDRICKS AT TOLEDO: He Addresses the Farmers, and Makes a Speech at Night to a Rousing Democratic Mass Meeting.

TOLEDO, Sept. 11.—Gov. Hendricks arrived in this city yesterday morning as the special train of the Erie and Toledo. In the afternoon he spoke on the fair grounds to a large audience, estimated at 4,000 or 5,000. His speech on that occasion was entirely non-political, and was an address on the importance of agriculture, the mechanical arts, on the improvements of the century, and in this country, and on those elements of citizenship which go to make up good government. In the evening Gov. Hendricks spoke to a Democratic mass meeting in 5th ward, an audience numbering fully 3,000 being present.

LOGAN WAS THERE TOO: TOLEDO, Sept. 11.—Gen. John A. Logan was present this morning on the ground of the State Fair, and made a speech to an audience numbering 7,000 or 8,000 people. He spoke about half an hour upon commercial manufacturing, and the agricultural interests of Ohio and their wonderful growth. He was presented by ex-Gov. Chas. Foster. Gen. Logan was received by the fair committee and the committee of the local Republican organization on arriving in this city this morning. He will address an open air political meeting this evening at League Park.

Class Factory Burned: CINCINNATI, O., Sept. 11.—At 11:30 last night a large building No. 47 Walnut street, occupied as a cigar factory by B. W. Bishop & Co., was discovered to be on fire. Before an alarm was given the fire spread with great rapidity and the whole building was destroyed. The workmen in the factory are on a strike, and last night they had an impromptu demonstration in front of the factory. Bishop's loss is estimated at \$20,000. The building, which is owned by August Becker, is fully insured.

Factory Burned: BALTIMORE, Sept. 11.—The factory of the Eagle Furniture Works, D. Wilson & Son, proprietors, on Cross and Ridley streets, South Baltimore, took fire shortly after two o'clock this afternoon.

Before the flames were subdued a row of twelve or fourteen small dwelling houses near the factory took fire and were destroyed, causing damages of about \$40,000. The walls of the factory fell, making the destruction complete. The building, besides machinery contained a large quantity of finished and unfinished furniture and lumber, none of which was saved. The fire was given by Howgate while discharging agent of the civil service bureau. No suit has been instituted hereafter to recover from Howgate's bondsmen.

A Rumor as to Mr. Foiger's Successor: BALTIMORE, Sept. 11.—It was rumored here today that the President had decided to appoint George H. Sharpe, Secretary of the Treasury. Gen. Sharpe was recently appointed a member of the commission to visit South America. Solicitor Neal, of the Treasury department, has determined to institute suit to recover \$1,200 from the bondsmen of the fugitive Capt. Howgate. The bondsmen are Rogers, of New York, and Moses, of this city, and the bond was given by Howgate while discharging agent of the civil service bureau. No suit has been instituted hereafter to recover from Howgate's bondsmen.

A LAWSUIT IN THE CHURCH.

The Lutheran Synod of South Carolina and Certain Church Property.

New Orleans Times Democrat: Contested on Sept. 7.—An interesting legal ecclesiastical question involving the ownership of church property valued at several hundred thousand dollars is being argued before a special referee in this city. In 1837 the Lutheran Synod of South Carolina and adjacent States expelled Rev. Godfrey Dreher from its membership for heresy. A majority of the incorporators and members of the Synod saved themselves on the side of Mr. Dreher, and with him became associated with the Tennessee Synod and held possession of the church property in this State. Those who adhered to the South Carolina Synod instituted suit for the purpose of obtaining possession of the church temporalities before Chancellor John Johnson. In 1841 Chancellor Johnson filed his decree, and has since that adherents of the South Carolina Synod were the proper custodians of the church property, and those who seceded or were expelled lost all right in the same. Mr. Dreher and his followers failed to give notice to Mr. Dreher and his followers of the action of the Synod in reference to the expulsion, Rev. Godfrey Dreher and the seceders were permitted to hold possession of the church property, and the bill in equity was dismissed. Counsel for the South Carolina Synod have recently given the notice required in the decree of Chancellor Johnson, and demand for relief. Eminent counsel are engaged on both sides, and the proceedings of the reference are of unusual interest, as the form of baptism, the administration of the Lord's Supper and other matters of Lutheran Church government and doctrine are being inquired into and argued.

RESTRICTING PRODUCTION: The Latest Move Among the Pig Iron Men.

PITTSBURG, Pa., Sept. 11th.—The proposition to shut down all pig iron furnaces four weeks in the next two months having been abandoned as unworkable, the Western Iron Association have decided upon a new plan for restricting production. Instead of four weeks stoppage, they have decided to restrict production to be fixed by each operator. A circular mailed from their office in this city today says: "We ask each firm of the country to join in a movement looking to the restriction of production on an plan that shall be so broad as to take in the peculiar circumstances of each. The only terms laid down as to the restriction are that it shall take place within the next six months, and that the restriction shall be in such a way and at such a time as shall suit the convenience of the furnaces, either by banking for one long period or several shorter periods within this time, or by blowing out earlier and starting later than contemplated, or where a concern has several furnaces by putting one or more of them out of blast, or by running the furnaces at reduced capacity."

In addition to this it is contemplated in the plan that if the restriction of production should result in the price advancing to \$9.00, or the stock of the furnaces being reduced to 500 tons, then the agreement will no longer be binding.

The Last Spike Driven: VICKSBURG, Sept. 11.—The last spike on the Louisville, New Orleans & Texas Railroad, connecting Memphis and New Orleans, was driven yesterday at a point 120 miles here this city. The train which left here this morning proceeded to Memphis. The workmen here, men of this city will leave by an excursion train on the same road for New Orleans tomorrow.

Close States in "Eighty": New Orleans Times-Democrat: Among the close States in 1880, California went Democratic by 78; Connecticut went Republican 2,059; Indiana went Republican by 6,442; New Jersey went Democratic by 2,010; and New York went Republican by 24,033. In 1852 these States went Democratic by the following majorities: California, 23,519; Connecticut, 4,161; Indiana, 10,416; New Jersey, 2,113; and New York, 192,854. Kansas, Massachusetts and Michigan also went Democratic in 1852.

In Round Figures: "And so, Patrick, you think Blaine will not get much of an Irish vote?" "Faith, and that's what I think."

"You're wrong, in round figures, let me show you how many you will get."

"In round figures, is it?" "Yes."

"Well, then, I think he'll get about 600,000. This ain't about the roughest figures I know any thing about."
