Daily Charlotte Observer.

VOLUME XXXII. CHARLOTTE, N. C., THURSDAY SEPTEMBER 18, 1884. PRICE FIVE CENTS.

CHARLOTTE
REAL ESTATE AGENCY.

Desiring to fill a long felt want in Charlotte, the undersigned have associated themselves as partners in a

GENERAL LAND AGENCY,

For the purpose of buying, selling, leasing and renting real estate. Their operations will not be confined to the city of Charlotte, nor to the State of North Carolina, but all property placed within our management will be rented or sold, upon such terms, commissions and payments as may be agreed upon.

We will undertake to sell, lease or rent lands houses and lots, mines, &c., make abstract of titles, collect rents, make returns and pay taxes, effect insurance, &c., &c., advertising all property placed under our management,

Free of Cost to the Seller,

For a stipulation previously agreed upon.

Particular attention will be paid to the selling or leasing of mining property, which will be sold on commission only.

We are in correspondence now with a number of parties at the North and West who are seeking homes in North Carolina, where the climate is genial and the soil remunerative. Persons having houses and lots or plantations for sale will serve their own interests by placing their business with us.

ROBT. E. COCHRANE.
CHAS. R. JONES.

The business will be under the management of R. E. COCHRANE, Manager, Charlotte, N. C.

The following described pieces of property are now offered for sale by the Charlotte Real Estate Agency, R. E. Cochrane, manager, office Trade street front Central Hotel, Charlotte, N. C.:

(CITY.)

1 One dwelling house on B street, 7 rooms, closets in each room, well of good water, lot 99x100 feet, in good neighborhood. Price, $2,000.

13 One Dwelling on West Trade street, two stories, 7 rooms, 2 room kitchen, well of water; two lots—99 on Trade 99 on Fourth street—very desirable property. Price $4,700.

14 One Hundred and Fifty Acres Land 1½ mile of the city limits, adjoining the Fair Grounds well located for a truck and dairy farm; ½ in timber, branch running through it, about 8 acres meadow. Price $30 per acre.

15 One unimproved lot 99x198 on Ninth street, between D and E streets. Price $350.

16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years past as an iron property, and has been worked at various points, but, chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the depth of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic iron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2200 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one place about 20 feet of solid vein. This vein can be traced over the top of the mountain for over a mile, and this deposit alone would afford an almost inexhaustible supply of ore, easily worked, and above the water line. In addition to this four other veins have been found on this mountain. The ore is a mottled gray ore, showing on analysis from 49 to 65 per cent. of metallic iron, with a small amount of titanic acid, and without any sulphur or phosphorus. The quantity of ore in this mountain is simply inexhaustible and of good quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportunities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces grass, grain and all kinds of farming products finely, and it is well supplied with water by unfailing springs and branches

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly land. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from King's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interest, or will sell one half the mineral interest, payments to be one-third cash, balance in one or two years.

A valuable water power, which has been used to run large rolling mills, lies adjacent to this property, and can be bought cheaply. The property is also in close proximity to the famous Alt Healing Mineral Springs, and to the widely-known Cleveland Springs.

The town of King's Mountain is also adjacent, where are good hotels, a flourishing and excellent high school, and several new and handsome churches. The owners invite the attention of all interested to this property, and ask an examination of it. Any further information regarding it will be promptly furnished by addressing R. E. Cochrane, Manager Charlotte Real Estate Agency.

The Yellow Ridge Ore Bank has been recently sold to a Pittsburg, Pa., company, and a German colonization company has recently bought 2,500 acres adjoining this property.

17 146½ acres, a well improved farm, one mile from Third Creek Station, on the Western N. C. Railroad, good dwelling, 6 rooms, with all necessary outbuildings, good orchard well, adapted for grain and grass. Stock and farming implements will be sold with the place if desired. Terms easy. Price $19 per acre.

18 Tract of Land, 150 acres, located in Lincoln county, N. C., adjoining lands of Goodson & Payne and others, 6 miles from Denver, 23 from Charlotte, and 13 from Davidson College. Has on it a good dwelling, 7 rooms, all necessary outbuildings, good orchard, good water, and well adapted for grains, grasses, corn, wheat, tobacco, cotton, etc.; 35 acres good bottom land. In fine state of cultivation. Price $2,250.

19 Tract of Land, 3 miles south of Charlotte, 92 acres, known as part of the Sammel Taylor tract, on which is an undeveloped gold mine, (known in the N. C. Reports as the Sam Taylor mine), three frame tenement houses, two rooms each, good barn, good well water and good spring on the premises. Sold without reserve for $1,750.

20 One Dwelling, 6 rooms, two-room kitchen; well of water, lot 80x215 on west side of Myers street, near Fourth. Price $1,200.

21 One unimproved lot, 80x214 feet, on corner of Myers and Fourth streets. Price $350.

22 One Dwelling, 4 rooms, on Fourth street, near Myers, lot 75x198. Price $350.

23 Two unimproved lots 50x198, on north side of West Fifth street. Price $300 each.

24 Sold.

PLAYING THE DEMAGOGUE.

Since the opening of the gubernatorial campaign Dr. York has played the role of the demagogue. His appeals have been to the poor white man and the "nigger," as he calls his colored supporters, generally classing the poor white man and the "nigger" together. He has tried to impress them with the belief that he is their especial friend and champion, that he has tried to do much for them and that he intends to be their friend through thick and through thin. He demonstrated his interest in the poor white man and the colored man when he opposed the building of the Western insane asylum at Morganton, and the building of the colored insane asylum at Goldsboro, both of which were completed in spite of his votes, his opposition and his influence. Until he became a candidate for office he never manifested any special interest in the poor white man, and until he became the Republican candidate for Governor he never manifested any interest in the "nigger." But with out colored votes he would not stand the ghost of a chance in the election and hence his suddenly developed friendship for the colored man and the groveling appeals he makes from the stump. In the mountain section where the internal revenue system is particularly odious he pretends to be the enemy of the internal revenue system and says he desires its abolition. This is humbug. He don't desire any such thing. He says he endorses the Republican National platform in full, but he goes further than the Republican platform which utterly ignores mention of the internal revenue system. That party don't propose to abolish it if Dr. York does, and Dr. York does not boss the party by a long shot. He is not even a fourth rate man among the bosses. But suppose he was in earnest and that he really does desire to see the revenue machine abolished, what has that to do with the governorship of North Carolina? As governor he would not have any power to abolish it nor anything to do with it. As a member of Congress he can introduce bills and vote on bills to abolish, but as a governor on that question he would have no more influence than a toad on a log would have in increasing or diminishing the light of the moon. If the people believe what York says on this subject, and desire his assistance in getting rid of the revenue machine, they had better keep him out of Raleigh, and let him spend the balance of time allotted to him in public life pegging away in Congress. When Cleveland is elected there will not be any further use for him there, as the Democratic party will make short work of the internal revenue machine.

Gen. Clingman's tobacco remedy seems to be attracting widespread attention. His article on the medicinal properties of the plant have been published in many papers throughout the country, thus being placed before millions of readers. Mr. J. M. Gudger, of Asheville, in a communication in the Advance, states that in speaking of tobacco in this connection among a party of six gentlemen three of them said they had tried it, one for an inflamed eye, one for a bruised hand and the other for a sprained ankle, all with good effect. He adds that afterwards in a visit to the country he found a child suffering with sore throat, some miles away from any physician. He gave its mother some tobacco to apply to the throat as suggested by Gen. Clingman, and on returning in the evening found the child better. He knew more than twenty persons who had applied the remedy successfully, for various ailments.

Mr. C. A. Reynolds, of Winston, replies to the charges of the editor of the Republican with having charged the government with his expenses as Presidential Elector on the Republican ticket in 1880, in a lengthy letter which he energetically concludes thus: "Every word you have written, either in the Reidsville letter, or in the publication of the facts, show you to be a cowardly, contemptible liar, beneath the notice of a gentleman."

The prospect looks so bad for Blaine that his managers have at last prevailed upon him to swing round the circle and see if he can't stir up a little enthusiasm. He will strike out in New York this week, go thence to Pennsylvania and then turn his head Westward for Ohio where the animals need arousing. He will make some speeches.

Warren Fisher refused to give Blaine the certificate of character which Blaine wrote and sent to him to sign. Fisher didn't burn the letter making the request as Blaine asked him to do. He put it in his safe and locked it up with the rest of Blaine's extraordinary epistles.

SENSIBLE VIEWS OF A COLORED ORGAN.

The News is the title of a paper published at Wilson, in this State, as an organ of the colored people of that section. It supports the National Republican presidential ticket but refuses to support York and the Mongrel combination which it pronounces an insult to the Republican voters of the State. In commenting upon the report that Captain Kitchin, one of the Democratic presidential electors at large, said in one of his speeches that he bid not expect nor want the colored vote, after some severe strictures on Captain Kitchin, the editor remarks that if he did say so he did not reflect the sentiments of the Democratic party and sensibly adds:

If the Democratic party does not want the colored vote, what do you think they meant by establishing an Asylum and good schools for us? What did they mean by appointing negro Magistrates in many of the Eastern counties? Do you think the leaders of the party were not sensible enough to know what they were doing? The party believes that the race should be educated, and the better educated the better citizens they will make, and any voluntary act upon their part favorable to the Democratic party will be duly appreciated. Of course it is not party policy for the Democratic party, under present circumstances, to give the colored man office; but, there are other ways in which they can help the race, and in which they do.

In 1875 the State was carried by the Democratic party supported by one of the most prominent colored men we have; after which followed the inauguration of the State Normal School.

Colored men, watch the signs of the times, and *don't be deceived!*

Boston Globe: Bob Burdette: One of those summer school philosophers who know everything says, "There are no classes and no cast distinctions in this country." Oh, there aren't, isn't there? Just let the philosopher put on a last winter's suit and a straw hat, and ask the hotel clerk for a nice room on the parlor floor. He'll learn something about the illimitable infinity of distance to the mansard roof that never occurred to him before.

Stephe Dorsey has been heard from. He is for Blaine. Now if Blaine can entice him away from his New Mexico ranche to superintend the "soap" department he will render valuable assistance. As a soap manipulator Dorsey is fully posted.

Mr. Conkling laconically remarks that "if Mr. Cleveland was a good enough man for Blaine to help make Governor of New York, he is good enough to be President of the United States." That's correct.

The New York Independent which first supported Cleveland, but re treated when the Ball scandals were published, now supports St. John. It couldn't go Blaine.

James Mulligan, of Boston, is a very modest, unpretending kind of a man, but he is cutting quite a conspicuous and important figure in this campaign.

The Blaine organs were studiously silent on James Mulligan, but now that he has turned that last batch of letters loose, the onslaught of abuse may be expected.

Since the last batch of Blaine's letters has been published it is about time for them to start some other scandal on Cleveland.

The orange industry of Florida is growing rapidly. The estimated crop this year is 1,000,000 boxes, 350,000 more than last year.

The Richmond Whig asks: "Have you heard from Maine, Bourbons?" Yes, Have you heard from Arkansaw?

THE SITUATION IN NAPLES.

The Epidemic Abating—Difficulties Increased by Ignorant and Superstitious People.

NAPLES, September 17.—The cholera epidemic continues to abate. There is a marked decrease in the number of fresh cases and deaths. Great quantities of sulphur are still burnt with a view of purifying the atmosphere. Considerable apprehension is felt lest the epidemic may gain renewed force from excesses which are likely to attend the feast of San Gennaro on the 19th inst. The poet Calvoloti has arrived here with four squadrons of men from Milan and Tuscanoy, mostly Garabaldine to assist in caring for the sick. Calvoloti is himstlf at Madalena hospital where he is putting forth every effort in aid of the sufferers. The police disperse religious proceedings in the efficiency of which the lower classes so devotedly believe, but shrines are still placed in various parts of the town and are frequented by throngs of supplicants. Outbreaks of violence on the part of the ignorant rabble still occur. At Giffoni a mob opened the Lazaretto, liberated the people who were there for treatment and threw the beds into the streets.

The cordon about Spezia has been relaxed. Persons are now allowed to leave by sea after quarantine of a fortnight.

Will be Appointed German Ambassador.

LONDON, Sept. 17.—The Berlin correspondent of the Standard says Count Henbert Bismarck, if not immediately, will certainly, within 12 months, be appointed to succeed Count Von Munster as German ambassador at London.

Another French Victory.

SHANGHAI, Sept. 17.—Two thousand French troops landed today at Kinpai pass, on Min river, below Foo Chow, and attacked the Chinese. The latter were defeated with heavy loss and are in full retreat.

Democratic-Greenback Fusion.

ST. JOHNS, MICH., Sept. 17.—The Democrats and Greenbackers of the sixth district united their forces yesterday and renominated Hon. E. B. Williams for Congress.

ABOUT THE STATE.

The Daily Greensboro Patriot is to be revived.

John Smith has been arrested and put in Stokes county jail, charged with fourteen violations of the law.

The State Chronicle will come out this week in the shape of an evening daily, and promises to be a good one.

State Chronicle: Prof. Winston has returned to Chapel Hill from his European tour, looking bronzed and well. During his absence the Professor visited England, Scotland, France, Italy, Switzerland and Germany, and has much to say of the people, places and objects seen in his travels.

Wilmington Star: On Sunday afternoon, at 3 o'clock, quite a large congregation assembled at the Front Street M. E. church, where interesting services were held in memory of the late Bishop Geo. F. Pierce, of the M. E. Church South. The services were opened with singing, reading of a portion of Scripture and prayer by Rev. Dr. Yates, after which resolutions were read.

Fayetteville Sun: On Sunday night, the 14th inst., at about 8 o'clock, the residence of Hon. Geo. M. Rose, on Haymount, was discovered to be in flames, and was entirely consumed. The fire had fastened too well upon it before it was observed. The origin of the fire is supposed to have been from a defective flue in the chimney, as the house caught on the top. The furniture was about all saved. The property was insured for $2,850.

This from the Wilmington Review: It is rumored here that one of the clerks in the postoffice in this city has been discharged, and that the salaries of those who remain have been cut down $25 each. This, it is said, has been rendered necessary by the exigencies of the campaign. Mr. Steve Elkins must have soap, and as the moneyed men of the North will not pony up, the poor clerks throughout the country must be levied upon to help elect Mr. Mulligan Blaine, the author of the "Dear Fisher" letters, to the Presidency of this great country.

Shelby Aurora: Cleveland county, so rich in minerals, steps again to the front and claims the largest mica mines in the South. Mr. Putnam has recently found on his place a valuable mica mine, from which J. L. Upton and W. D. Proctor brought to us for exhibition two beautiful and large specimens nearly two feet square. They weighed 14 pounds and 12 ounces, and squared free from flaws 21x23 inches. This mica is worth about $6 per pound, and if found in large quantities, is worth more than a gold mine. Mica is found in forty places in Cleveland, which is one of the most progressive and best counties of North Carolina.

Fast Time Across the Atlantic.

QUEENSTOWN, Sept. 17.—The National Line steamer America, from New York September 10, for this port and Liverpool arrived off Kinsale at noon today, the time of passage being six days, 20 hours and four minutes.

Positive Cure for Piles.

To the people of this county we would say we have been given the agency of Dr. Marchisi's Italian Pile Ointment—emphatically guaranteed to cure or money refunded—Internal, external, blind, bleeding or itching piles. Price 50c. a box. No cure, no pay. For sale by L. R. Wriston, druggist.
