One Hundred and Fifty Acres Land 1/2 mile of the city limits, adjoining the Fair Grounds well located for a truck and dairy farm; 1/2 in tenter, branch running through it, about 8 acres meadow. Price \$30 per acre.

timber, branch running through it, about 8 acres meadow. Price \$30 per acre.

10 One unimproved lot 99x198 on Ninth street, between D and E streets. Price \$360.

11 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Atres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years pust as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the dej 12 f 147 feet, showing at that depta a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic iron. This wein has not been worked, and within the past two jears very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of iron ore, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 220 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showling in one place about 20 feet of solid vein. This vain can be a supplied to a solid vein.

eight feet wide, which crops out af various points from the top to the bottom of the mountain, show-hig in one place about 20 feet of solid vein. This vain can be traced over the top of the mountain for over a mile, and this deposit alone would afford an almost inexhaustible supply of ore, easily worked, and above the water line. In addition to this four other veins have been found on this mountain. The ore is a mottled gray ore, showing on analysis from 4; to 65 per cent. of metallic from, with a small amount of titanic acid, and without any subplur or phosphorus. The quantity of ore in this mountain is simply inexhaustible and of good quality.

Besides Crowder's Mountain the owners possess king's Mountain, for about seven miles, whose planacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and allored excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, wahnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthness of its atmosphere. It is a region free from maiaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from cling's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to hose who are trying to develop the country along is lines. The owners will sell this property to suit surchasers, as follows: The whole tract, including almeral interests, for Sixty three Thousand Dollars, r will make favorable terms, reserving the minral interest, payments to be one-third cash, balance in nee or twy-ar-

orings.

Lown of King's Mountain is also adjacent are good hotels, a flourishing and excellent school, and several new and handsom hes. The owners invite the attention of a local transfer or arguments.

PUPULAR EDUCATION ..

Dr. York poses as the champion of popular education, and tries to make the people to whom he talks believe that the Republican party is the friend of education, and that the Democratic party is its enemy. Dr. York is imitating Jas. G. Blaine, and

is playing the role of audacity when he knows that the statements he makes are without foundation and without a particle of truth in them. The Republican party was in power in this State from 1865 until 1872, and in those years what did they do for popular education? Nothing. They talked about it then as they do now, and while talking about it, and pretending to be very anxious that the children of the State should be supplied with schools, they stole the taxes levied for school purposes, and sold the school lands for special tax bonds and stole them. The greatest amount the Republican party ever gave to the public schools was \$38,000. while the Democratic party last year expended \$725,000, which sum will be increased each succeeding year. The school system of North Carolina has been put upon a permanent basis, and is growing in popular favor every year. All the larger towns and cities of North Carolina are under Democratic government, and in many of them graded schools have been established, supported by taxation, and open to the children of poor and rich carefully fostered by the State, and these are training the teachers of the future. It is false, ridiculous and absurd for Dr. York or any other Radical at this day, with the recorded

But Dr. York, ignoring the facts as far as North Carolina is concerned. bases his assertion on the failure of the House of Representatives to pass the Blair bill, appropriating \$77,000,-000 of the surplus funds in the United States treasury to public schools, to be used in installments per capita each year until the total amount had been exhausted. This bill was under discussion for a long time in the Senate, opposed and supported by Senators irrespective of party connections, some of its warmest and ablest supporters being Democratic Senators from the South, without whose advocacy and votes it could not have passed. It went to the House of Representatives in May, when other bills took precedence of it on the calendar, and it did not come up for discussion at all. There was no hostility to it, nor any indication of hostility to warrant Dr. York in charging the Democratic majority with hostility, and with not desiring to pass it. There are three hundred and twenty-five members in the House, and Dr. York tries to make capital out of the fact that they did not take up and pass, on the spur of the moment, a bill that it took the Republican Senate, with only seventy six members, several weeks to disdiscuss. It is too thin. Dr. York must strike on some more plausible artifice of demagoguery than to thus try to put the Democratic party in the attitude of hostility to popular

VALISES. The facts give the lie to these asser-

A stringency in money from one end of this republic to the other. Hard times, hard hying, low wages. But there is \$412,000,000 in cash lock ed up in the government vaults. There's the financial policy of the Republican party for you. Cease this excessive taxation and let these millions of locked up money remain in circulation among the people. This is what the Democratic party de-

"Would your friends in Maine be satisfied if they knew the facts?" writes Mr. Fisher to Mr. Blaine. Imagine such an interrogatory, in regard to a business transaction, addressed to Mr. Thomas Bayard, or Mr. Thurman, or Mr. Edmunds, or Mr. Hamilton Fish, or Mr. Rockwood Hoar, and imagine the blazing wrath of the answer! But Mr. Blaine writes to Dear Mr. Fisher without wincing

The PROTECTION afforded by our system of FREE TRADING guarantees our ANTI-MONOPOLIST principles, and every GREENBACK spent here is conprinciples, and every GREENBACK spent here is conaccording to his own account, remarkably innocent. But he has de markably innocent. But he has de veloped a good deal of shrewdness since then, and has made it pay. But the shrewdest of men sometimes overreach themselves when they go in the ways of crookedness, as is illustrated by those Fisher letters.

> Blaine is swinging round the circle, But he does not seem to be setting things in a blaze as he goes. Thus far there has been a remarkable amount of coolness and indifference in his receptions, the principal persons greeting him being second and third rate politicians.

It would have been a very easy matter for Mr. Blaine, in his letter to Mr. Phelps in reference to his marriages, to have furnished the names of the clergymen or justices who officiated and the names of the few friends who were present at each of his marriages. This would have been to the point. And it would be an easy matter also, since letter writing has begun upon the subject, for some of those "friends," if they are still living, to write a simple statement of the fact as to their presence. We have no doubt that such a statement entrusted to William Walter Phelps,

Dr. York takes credit to himself that the House of Representatives did not pass a bill giving each member a clerk, as the Senate had done The House had no more intention of trying to pass that bill than they did of damming the Potomac.

of New Jersey, would quickly find its

way to the public through the associ-

Dr. York is improving somewhat in his language when speaking of the bulk of his party. In his speech here he did not refer to them as "niggers," but as colored men. This is proper.

SOME CAMPAIGN POINTS.

What is Going On in the Buckeye State Columbus (O.) Dispatch to New York Herald. In the State canvass the Democrats have every prospect of holding their own. They have all the State ad-ministration. The Irish defection threatens to assume in some quarters break to the Republicans on the Presidential ticket, but in no place will it effect the State election. The Germans and liquor dealers are al-most as solid for the Democrats as they have been for the last two years. About the only place in which the Republicans will make gains lies with the wool growers, and this will not be very large. Both sides will have out their full vote in October. While the Republicans claim that they will get an old time majority from the Western Reserve, the Democrats also have figures to show, from their poll ust completed, that they have thirty housand votes in the State that were not out last year and that will be gotten out this year. This will make up for any losses that may occur from the disaffection of wool growers and from Germans and others going back to their old party lines. While the alike. Normal schools for white and contest in the State is warming up to a bitter stage of feeling there is no tendency on either side to claim the State with confidence. Both parties recognize that they have to fight and watch to carry the State, and they are doing it with all the energy they possess. The general opinion is that the majority either way will not ex-ceed ten thousand, while the total facts of the past and present before him, to assert that the Democratic vote will approximate very closely to eight hundred thousand. party is hostile to popular education.

While courtesy required that Dr. York, whose appointments General Scales is now filling, should attend these announced for the latter after the 20th at Charlotte, still, as he refuses to do so, the Democratic committee, by consent of Gen. Scales, have determined to waive the discourtesy and let Gen. Scales follow Dr. York. So Gen. Scales and Dr. York will speak as follows:

Troy, Tuesday, Sept. 23. Ashboro, Wednesday, Sept. 24. Lexington, Thursday, Sept. 25. Winston, Friday, Sept. 26. Greensboro, Saturday, Sept. 27. Graham, Monday, Sept. 29. Hillsboro, Tuesday, Sept. 30. Durham, Wednesday, Oct. 1. Raleigh, Thursday, Oct. 2.

FRANCE AND CHINA. New Complications --- An Apparent Al-

hance Between France and Russia.

London, Sept. 22.—A dispatch from Shanghai to the Times says a new complication has arisen in the Fran-co-Chinese difficulty. The blocking of the bar at the mouth of the Wasing river, has been ordered by the Chinese authorities although the passage for ships of neutrals is to be left. This action is due to the Chinese disbelief in the promises of the French.
A veritable panic prevails in Shanghai
and merchants of neutral powers
have asked the naval commaders of these powers to take some action. The British consuls have advised the Chinese authorities to obtain skilled Chinese authorities to obtain skilled foreign assistance and keep the traffic open. The Russian consuls have been ordered to protect French interests whenever the French consuls leave. The Russian fleet in the Chinese waters comprises one iron clad three externs comprises one iron clade externs comprises one i clad, three crusiers, two corvettes and six gunboats. Three other ironclads are expected to arrive. This strength, in view of the smallness of the Russian interests in China, is considered significant.

Cholera in China --- Hostility to Foreigners.

London, Sept. 22.—A dispatch to the Times from Foo Chow says the cholera has decimated a village near that city. The Times correspondent at Foo Chow also says the Chinese are be-ginning to refuse to discriminate between French and other foreign residents. The dislike grows daily. In the event of an outbreak the native Christians will be the first to suffer, and after them the foreigners.

A Fair Offer. THE VOLTAIC BRIT Co., of Marshall, Mich., offer to send Dr. Dye's Voltaic Belt and Appliances on trial, for thirty days, to men, young or old, afflicted with nervous debility, lost vitality and kindred troubles. See advertisement in this paper.
