Keely, the inventor of the Keely motor, who has denied himself to all interviewers for four years, explained at length today the wonderful expe-riments with his new motor gun, which were made at Sandy Hook on Saturday at the expense of the gov-ernment. "Stripping the process of all technical terms," said the inventor, "the motor gun is simply this: I take water and air, two mediums of differ-ent specific gravitation and produce from them by generation an effect under vibration that liberates from the air and water an inter-atomic ether. The energy of this ether is boundless and can hardly be compre-hended. The specific gravity of the ether is about four times lighter than that of hydrogen gas, the lightest gas so in the under the total to the

It was four feet long and had a four inch bore. On Wednesday last I charged my tube, a five gallon reservoir of wrought iron, one and a half inches thick, with etheric vapor. Then I boxed it up, and did not even test it, so certain was I of its power. For three hours before the experi-For three hours before the experi-ment it remained untouched in my shop.
