16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron Morks beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of faston and Cleaveland, in the State of North Car olina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danyille railroad company. The property has been used for fifty years past as an iron property, and has oeen worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the dept of 147 feet, showing at that depth a vein of ore about 40 feet wide, and unalyzing as high as 66 per cent. of metallic iron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of Iron ore have been discovered deposits of ore in Crowder's Mountain, (five veins of iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2300 feet above the sevel evel, a vein of ore elight feet wide, which crops out at various points.

YORK'S DEFECTIVE MEMORY. One of the striking defects in Dr. York's makup is his defective memory. He has apparently forgotten more than he knows, and between

trying to remember and dodging what he can't help admitting, he has what he can't help admitting, he has a lively time on the stump. Records are stubborn things. If it was not for the records the Doctor's defective memory might be both convenient and useful, for then he could squarely deny what he now only can't remem-ber, or only makes grotesque attempts to dodge. He started out on the campaign by trying to dodge his record on the county government question, on the Western railroad, on the Western and Eastern insane asylums, on the compromise of the State debt, on the normal schools, and when the record was produced on

him, his speeches shown and his votes exhibited, he put up specious pleas to deceive the people and make them believe that he was actuated in his opposition to all these measures by a desire to save the money of the peo-ple.

In the brief biography which he standard and sale asserted, or maintained, or against whom any such denial shall be made on the ground aforesaid, shall be thereupon entitled In the brief biography which he furnished to the Congressional Record, he says he was a Union man

during the war, but towards the end of the war became a surgeon in the Home Guards. But previous to that he was a candidate for the captaincy of a company, and when it was alleged against him that he was tainted with Unionism he declared that it of Union blood in his veins he would take a lance and let it out. He forgot this when he was protesting his devotion to the Union on the stump, and could not remember it after it was certified to by three responsible wit-

into full fellowship with the mongrels, when a candidate before his county convention it was alleged by his opponents that he had independent proclivities, which he indignantly denied and solemnly exclaimed that he hoped his right arm would wither at his side if he ever deserted the old Democratic party. He has

forgotten this. He has been alleging on the stump that he went before a House committee on the 11th of December to argue in favor of a bill for the abolition of the internal revenue system, but forgot until reminded of it that no committees were announced until the 24th of December, and that consequently it was impossible for him to go be-

fore that committee on the 11th. At Greensboro he said that Capt. Odell told him at Concord that he intended to vote for Blaine, Logan and York. When a telegram from Capt. Odell emphatically denying this and adding that in his opinion "Dr. York was a very great demagogue," came in response to an inquiry, he couldn't remember whether it was Capt. Odell or some one else whom he took for Capt. Odell, although Capt. Odell is one of the best known men in Cabarrus county.

We do not charge these as deliberate instances of trifling with the truth, but as simple but striking illus trations of Dr. York's defective nemory, It can hardly be expected that a man who thas shuffled around so in his politics, and is so fond of performing in public and in wagging his jaws before an admiring populace, could remember all the occurrences of his eventful career, though his autobiography is short, nor all the eloquent utterances that came bubbling up from his ardent "inards." We venture the opinion that after this campaign is over and he is laid out, guoernatorially speaking, as cold as a wedge, and he picks himself up and hunts around for some political organization to take him in, he will forget a great many declarations that he has made since he began the canvass for Governor.

The Bill Which Mr. Edmands Proposes

to Fasten upon the Country. The following is the Edmunds civil rights bill now on the calendar of the Senate, and which Dr. York and his party supports. It is entitled a

Whereas, such rights of all such citizens are protected by the Constitution of the United States against such cruel and unjust distinctions;

that the public interest or safety requires it. Sec. 4. That no law, usage, or custom, and no practice, decision, or rule of any department of the government of any State which may now cr hereafter exist which shall in any manner discriminate between the rights of person or of property upon the grounds of race, color, or previous condition of servitude shall de deemed valid; and it shall be the duty of every court, whether of a State or of the United States, in which ary such mat-ter or ground shall be drawn in question to proceed to determine the matter in controversy in the same man-ner and with the same effect as if such law, usage, custom, rule, practice, or decision did not exist.

"They All Do Li" in Politics. r. Schurz's Speech at Detroit. Do you know what it means when

Several of the most distinguished German speakers in the State addressed the meeting, the last speech being made by Carl Schurz. Participating in the meeting were many Germans who have heretofore voted the Republicon ticket.

Lemon Evens was tried and convicted at Greenville, Pitt county of man-slaughter, there not being evidence sufficient to convict of murder. Judge Avery's sentence on Lemon was five years imprisonment in the penitenti-ary. The verdict of manslaughter which was brought in by the jury seemed to have incensed some person or persons very much, who evidently thought according to their opinion that Evans ought to have been convicted of murder. So when Irvin Lang was tried and convicted of murder, which was last Saturday night, the verdict being brought by the jury at a little after 12 o'clock, these same individuals posted up notices and placards of threats at the Court House door and conspicuous places around town, and a note was pushed under Solicitor Galloway's room door threatening to mob him and Judge Avery for not finding Evans guilty of murder. The citizens of Greenville and surrounding count ry are very indignant indeed at the way that the Judge and Solicitor have been treated. They held a meeting this (Monday) morning in the Court juror in such case, and the decision of such court shall be adverse to such person upon any of the grounds or matter- aforesaid by reason of his

House for the purpose of taking steps for ferreting out, if they can, the perpetrators and bring them to justice.
