PUBLIIC PLUNDER. The reports of the Springer committee on the star route frauds and plundering of the United States marshals and supervisors which have been given to the public within the past few days give a startling exhibit \$25, in consideration of which sum of how the government has been they are permitted to carry on their fleeced out of millions of dollars by these persistent and ingenius plunderers with the knowledge and connivance of officials in high place.

The estimate is that during Hayes' administration the star route contractors and their official silent partners robbed the government out of at least \$4,000,000 and while there was a pretense at prosecution of some of the guilty parties, all escaped save of the guilty parties, all escaped save | manhood, poverty, heartache, crime a couple of subordinates, and to this day no attempt has been made to disgraceful business should be suppressed, and the enormous sum of institute givil action for the recovery of any of this money. The attempt at criminal prosecution cost the govment several hundred thousands of dollars, fees for lawyers, witnesses, court expenses, &c., and all amount-

The report on the methods of the marshals and supervisors shows what a fearful amount of corruption exist. ed in these departments, and how persistent and systematically the gov-ernment was plunderered and the people oppressed, to make fees for grasping officials. This thing has been going on for years, be it remembered, and there never was an attempt to investigate or check it until a Democratic Congress took hold of

it an exposed its enormity. If all the money Republican rings and officials have stolen from the treasury were returned to it there would be enough to pay the public debt. "MY SON OLIVER."

After a large amount of serious pondering, cogitation, deliberation and a protracted incubation, the Republican Congressional egg was hatched at Rockingham Tuesday and "my son Oliver" is the chicken that comes from the shell. There was an effort made previous to the convention by some of Mr. Darby's Wilmington friends to put him to the front, but the bosses sat down on this, as they had concluded that they had already paid to much for the Liberal whistle in putting York up at the head of the State ticket. It was perhaps about the best thing they could do, for Dockery can probably poll as many votes as any man they have, and while not being a man of any remarkable brilliancy, being an old line Republican, though an endorser of the coalition movement, he can command the support of his party. Of course he must depend mostly on the colored vote for whatever of strength he may have, and the style of his campaign will be pretty much after the fashion of Dr. York, the main features of which are humbug-

says he will give his reasons in full to the people from the stump. All his reasons could be boiled down into "I want to go to Congress."

BELLEFORTE, PA., Oct. 1.—The result of the evening session of the Greenback convention was the adoption of a resolution to fuse with the Democrats, with the understanding that no fusion or combination will be made for less a number than half of the electors. Eight gentlemen were appointed as a committee to carry out the purpose of the resolution. When Dr. York wants to become really impressive, and wants to give special emphasis to some point in his speeches he exclaims "by the yetar-

oal," and looks solemn. Dr. York only went to school three sessions "to a dirt deb school house," a id although he has had many advantages since he does not seem to have improved them much.

THE IOWA LIQUOR LAW.

A Charge of a Judge that Mixes Matter MUSCATINE, IOWA, September 30. Judge Hays delivered a charge to the Judge Hays delivered a charge to the grand jury today in the master of indictments under the new prohibitory liquor law. He charged the jury that, while selling liquor is indictable, buying is equally a violation of the law, that all persons testifying to having purchased liquor are subject to indictment, and that, refershall be forever suppressed. Thus an issue is presented to the people in which is involved the protection of every home in the land. It is not a mere local issue, either, but it is a ring, as is supposed, to the Temper ance Alliance, in the case of any persons being induced or encouraged by any organization or body to buy iquor for the purpose of criminating the seller, such buyer would be indictable, and such body will be guilty of concessory, and subject to indictment.
