16 The owners of The Crowder's Mountain Iron Works beg to calt the attention of capitalists from manufacturers, stock and dairy men, and those who wish to settle coionies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years past as an iron property, and has oeen worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic from, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the dept 1 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic from. This vein has not been worked, and within the past two jears very large deposits of iron ore have been discovered at other points. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 220 feet above the see level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountai

mountain is simply inexhaustible and of good quality,

Besides Crowder's Mountain the owners possess king's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, limestone clay for making fre-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dalry farm it offers fine opportualities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling hand, which produces (case, grain and all kinds of farming products anely, and it is well supplied with water by unfalling springs and branches.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle, The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from king's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. IT DIDN'T PAY.

Judge A. W. Tourgee, formerly of Ohio, subsequently a temporary resident of this State, and now a Blaine elector in New York, in a speech recently delivered, said, referring to Blaine's Little Rock transactions while Speaker in Congress, that the worst thing about them was that "they didn't pay." The general impression seems to be that they paid pretty well, but whether they did or not, this utterance is characteristic of the moral tone that governs the average Radical politician. No matter how disreputable the transaction might have been, if it "paid" it was all right, and in addition to being all right, it furnishes evidence of the smartness and ability of him who makes them pay. That's about the standard by which public servants are measured these days by Radical politicians. Their motto is "put money in your purse, honestly if you can, but if you can't put it in honestly, put it in any way." It is this idea, which has gotten such ascendancy in the Republican party, which has brought such scandal upon the country, and honey-combed that party with corruption until it has become a stench in the nostrils of honest men. It has made thieves by the hundred, who have become illustrious by the the pages of Republican administration with Credit Mobilier and Star Route infamies, and robbed the Treasury of the country out of mil-

lions upon millions of dollars. The sharp practice that does not 'pay" is to be condemned and deplored, but that which pays is all right, according to the standard which the leaders of the "God and morality party" erect. Just so. Just so. There is a bright prospect, indeed, for reform under the lead of men who proclaim such outrageous doctrine.

Denying seems to be the order of the day among Radical candidates. Blaine started it at the outset of the campaign and they all follow. If it were asserted of a Radical candidate now that he believed in the ten commandments the probabilities are that he would jump up instantly and deny it. L. C. Edwards, Radical candidate for Congress in the 5th district, fearing that it might mix him up with Prohibition, denied that he ever belonged to a temperance society, whereupon the Raleigh Chronicle produces a copy of the Friend of Temperance, date of September 24, 1867, showing that L. C. Edwards was president of Council No. 12, at

A ferrible attack has been made upon Governor Cleveland by the Albany Journal, which excoriates him for pigeon-holing until after the election the charges against Sheriff Davidson in consideration of political services. In point of fact, the Governor notified the sheriff of the filing of these charges, and required him to make answer to them within the statutory twenty days. That particular campaign gun kicked harder than it shot.

F. S. Blair, chairman of the Guilford county Prohibition committee. addresses a care to the public requesting all temperance organizations to send delegates to a meeting to be held in Raleigh on the 21st inst., to consider the question of temperance and get out an electoral ticket for St.

Mr. J. H. Gilmer, nominated for the Legislature by the Democracy of Guilford county, withdraws for the reason that he is now sheriff of the county, his term not expiring till the first Monday in December, which makes him ineligible to a seat in the Legislature if elected.

The Democrats are making it hot for Blaine in Ohio, and are following him up, distributing the Mulligan and other documents broadcast. They are determined that Blaine's express ed wish that all the voters may read them shall be gratified in Ohio at

Ex-Judge J. L. Henry, of Asheville, died in that city last Monday of Bright's disease, from which he had suffered for the past two years.

Let every Democrat feel that he has a personal interest in the success of the Democratic ticket and next November Mott, York & Co. will be buried so deep that Gabriel's trumpet will never reach them.

Gath, the newspaper correspondent, makes \$15,000 a year; but there are lots of newspaper men in the United States who do not make that

Fisher didn't burn those letters, as Blaine requested, and now he thinks it a burning shame that they are "hawked about and published."

Blaine is a man of letters, there is no doubt about that.

Jay Gould is backing Blaine. If Blaine should be elected it will be his turn to back Gould.

Sporting Men on Obio --- Republican Senators Cold on Blaine --- Logar

Washington, Oct. 8.—The Ohio election is the leading topic of discussion among politicians Men who one week ago offered to bet their property and personal effects that the Republicans will carry the State by from 10,000 to 15,000 majority today will not bet a dollar that the Republicans elect their ticket. Several sporting men who have already bet on a Republican majority are now trying to "hedge." Several Democrats who have placed their money on Ohio today refused offers to draw down the

A prominent Massachusetts Republican here stated today that although all kinds of efforts had been made to get the President, Secretary Frelinghuysen and Senator Edmunds, as well as some other Republican Sena tors, to interest themselves in the campaign, they are without avail. He says of the twenty-two Republican Senators who went to Chicago to fight the nomination of Blaine, but six of them have since consented to support the ticket. In regard to the letter alleged to have been written by Senator Edmunds, in which he is quoted as saying that Blaine in all railroad matters when in the Senate "always though uses other forms of expres sion, this gentleman says at least fifty well known Republicans, personal friends of Senator Edmunds, were prevailed upon to write him letters arging him to deny the authorship of both letters, but that Senator Edmunds has refused to do so. He says that Senator Edmunds has made one answer to all such appeals, that he is 'out of politics this campaign," and that this statement was injuring Mr.

Blaine's prospect very much, especially in the Eastern States. A friend of Gen. Logan says that Gen. Logan is not at all pleased with the part that he has had to play so far in the campaign in being required to go to all the small cross road towns, while Mr. Blaine only had to "do" the larger cities, and that the reception given Logan in Philadelphia tonight was only arranged so as to disabuse his mind of the impression that he was being made use of as a second-rate attraction to work small places.

Why Gould Supports Blaine.

ondence Philadelphia Times. It is for reasons explained that Jay Gould is for Blaine. In times past Gould has said that he was neither a Republican or a Democrat and gave both sides money. That was before he had such interests at stake. His every interest now is in the direction of hoisting the price of Western Union stock, of which he owns 300,000 shares; Missouri Pacific, of which he owns 120,000 shares or more; Union Pacific, of which he holds 30,000 shares or more; Manhattan Elevated, Kansas and Texas, Wabash, St. Louis and San Francisco and the various issues of bonds of these achemes. Little cares Gould who is President, provided he gets a market for his shares and his patent mouse traps generally. Vanderbilt is in the same boat. These two richest men in America have seen their fortunes shrink millions of dollars each since that fatal discharge of the Guiteau

An intelligent writer in the Boston Herald showed not long ago that Gould is not worth within \$24,000,000 what he was in 1881 and for every dollar lost by him through this great shrinkage in values Vanderbilt must have suffered dollar for dollar. It has been a shrinkage that has wiped out such millionaires as Villard and Garrison and Baldwin, of the Louis-ville and Nashville road, and George . Seney. Gould and Vanderbilt have hung on because of the magnitude of their wealth. Any considerable further shrinkage must cripple them. No wonder then that they grasp at the straws of Republican victory. Gould has given the Republican committee \$50,000 already and has promsed as much more if needed.

His Tender Hearted Wife.

He had failed for half a million, and his assets would not pay two cents on the dollar. He gave up everything he had to satisfy his creditors, not even reserving the watch in his pocket. And yet they growled. An old friend called to see him. He met old friend called to see him. He met him at the depot with a \$5,000 span of horses and conveyed him to a \$200,000 residence, where he dined and wined him like a prince on the finest of china and costliest of plate.

"Why, Jones," said his old friend, "I thought you had failed!"

"So I have-given up everything, absolutely everything, to my creditors, as an honest man should," replied the bankrupt in a tone of self-abne-

"Why, you appear to be living pretty well," remarked the old friend.

"Ah, my dear sir, how mistaken you are," returned the two cents on the dollar failure. "Everything you see is my wife's, absolutely everything. But she is too tender hearted to deprive me of their use on account of my misfortunes."

The Editors Say 8,000.

Raleigh Ch onicle. You hear a good deal of wonder expressed by Democrats who do not get out of town or away from their homes about the probable result of the State election.

But it is noteworthy, that men who go about the State and who have met the people, especially well informed men who come from the different parts of the State, express no wonder about it.

The Chronicle took occasion yesterday to ask very nearly every editor that attended the press convention what majority he and his people thought Mr. Scales would receive. The answers ran nearly enough together to warrant the average opin ion of 8,000 majority. In every part of the State, especially in the Democratic part, the outlook is as cheerful as anyone could wish.
