One Hundred and Fifty Acres Land 1/2 mile of the city limits, adjoining the Fair Grounds well located for a truck and dairy farm; 1/2 in timber, branch running through it, about 8 acres meadow. Price \$30 per acre.

timber, branch running through it, about 8 acres meadow. Price, \$30 per acre.

15 One unimproved lot 99x198 on Ninth street, between D and E streets. Price \$350.

16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depgt, on the Atlanta and Charlotte Air Line railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness. This vein of ore, which extends for two miles in length, has been worked to the dept 1 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic iron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of iron ore, are exposed), which were unknown before, and which will Turnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2200 feet above the sevel as vein of ore eight feet wide, which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be foun

orick, goid and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportualities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces grass, grain and all kinds of farming products anely, and it is well supplied with water by unfalling springs and branches.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and allord excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from King's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including milneral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interest, parments to be one-third cash, balance in one or twy-p-arx

PLAYING DOUBLE. The Republican managers once relied upon force, proscriptive legislation and the bayonet of the Federal soldier to carry elections in the Southern States or to hold those States that were wrested from them by the ballot. But in time those resorts failed and the Southern States became Democratic from the Potomac to the Rio Grande. Force, proscriptive legisla-

tion and bayonets proved powerless against a people knowing their rights and daring to maintain them. These having failed the Blaine managers are now resorting to deception to accomplish their ends, and suddenly manifest a great friendship and interest in the people of the South They have established a branch Blaine bureau at Nashville from which they send out lying epistles to the Southern people, making all sorts of suggestions as to what may be expected if the Republican party is successful in November, and if the Southern people will pull into line and help to bring about that success. While doing this they take occasion to abuse and belie the Democratic party, representing it as the enemy of Southern progress, notwithstand the fact that since the Democratic party came into ascendency in the Southern States and drove out the plundering Radicals, they have increased over \$600,000,000 in wealth, and increased their manufacturin industries five-fold. But are they in earnest in this sud-

denly developed friendship for the South? When did this conversion of opportunity when in the House of Representatives or in the Senate to stab the South come should be stabled as the South come should be s stab the South, come about? And what potent influence caused it? Does he or his strikers fancy that the Southern people are so stupid as not to see through all this, and grasp the motive of it? We do not know that the Southern people are remarkable for any extraordinary sagacity, but they have never been accused of being the champion idiots of this continent; certainly not idiots enough to be caught by any such transparent humbuggery as this suddenly developed interest in them by the Blaineites, now in desperate quest of votes. Before they started out on this mission they should have furled John A. Logan's bloody shirt, corked Murat Halstead's mouth, and padlocked the jaws of those Radical orators now stumping Ohio, Illinois and other States, whose biggest card is sectional prejudice and abuse of the South. They love the South no better now than they ever did, but if they can capture one or more of the Southern States-which they can't do -they hope it will offset some of the Northern States which they counted upon and which the indica-

tions now are they will lose.

There is as little honesty in this pretense as there is in their professions of respect for civil service reform, while they have several hundred men who draw pay from the treasury of the United States as goverment employees doing campaign duty for the Republican party in Ohio and West Virginia, under the very eyes of Jas. G. Blame, to whom

will be intrusted, if elected, the charge of seeing the civil service laws of the State's prosperity. obeyed. The Republicans have never been characterized by anything like respect for consistency or truth in their campaigns, but they are making the present campaign conspicuous for its falsehood and hypocrisy. Gen. Charles H. Roome, president of the Manhattan Gas company, in

New York, is a prominent Republican, who, heretofore has stuck to that party in all its campaigns. He was invited by the Blaine manager to preside at a Blaine meeting Saturday night, but politely informed them that he could not conscientious ly support Mr. Blaine, and that he and his two sons were particularly anxious that Mr. Cleveland should be elected this year.

We are indebted to Messrs. Latham, Alexander & Co., of New York, for their annual resume of the cotton movement. The publication contains a review of the movement and fluctuations from 1879 to 1884 with sta- Chinese legation, repelling the French tistical reports and letters showing the probable crop at home and abroad, and the demand for the coming year. The annual letter which will be interesting to raisers of and dealers in cotton will be found published in full today.

Daniel McSweeney, the Irish patriot who spent nearly a year in a British jail because Mr. Blaine refused to demand a trial for him, arrived in New York Saturday, from England, and will take the stump and tell the people of New York, Ohio and other States what he-knows about Blaine as a champion of the rights of American citizens abroad and how he loves the Irish.

Dr. Grissom's repudiation of York s a blow from the shoulder right between the eyes.

The Philadelphia Prohibitionists gave St. John a big reception Friday night. The Academy of music was crowded, and those present very en-

The total registration in New York City in 1880 was 217,000. There is a considerable increase, and the estimate is that it will run up to 230,000 this year. The Democrats claim that an increased registration means an increased Democratic majority.

The Republicans must carry Ohio by at least 20,000 majority today, to give Blaine a fighting chance in November. A smaller majority than this will be a practical defeat, and Mr. Blaine might as well break up his hippodrome and return to Augusta, Bar Harber or some other quiet

The present Mayor of the city of Philadelphia is a Republican. Before he was elected he made splendid promises of the non partisan manner in which he would conduct affairs. Now the police are being assessed for campaign purposes, and it is estimated \$20,000 will be squeezed out of

The Raleigh Chronicle informs us that arrangements have been made for an excursion the latter part of this week of about thirty editors representing the daily papers of Massachusetts, Pennsylvania, New York, and Maryland, to see our State Exposition. This is a good move and will do much to acquaint the people of those and other States with the resources of North Carolina. ---

THE KEENEST CUT OF ALL. Dr. Grissom Repudiates York and Gives the Reasons Why -- An Unfit

Raleigh News and Observer. RALEIGH, N. C., Oct. 10, 1884.

My attention has been called to an editorial in the Asheville Citizen of October 8th, in reference to my refusal to support Dr. York for Gov-While a conversation of the tenor of the one referred to did occur. it was with no view of its going to the public. But as the fact has been published, and as I have no concealment about the matter, I deem it just to

has been my duty to look after the legislation affecting the interest of the insane of the State, and because of this fact I know who have been the friend of the insane, ever ready to work for them. leave these poor unfortunate people to remain in confinement in the counties and who have been unwilling to give a decent support to those who were fortunate enough to find room in the

inadequate accommodation which has hitherto existed. I do not think Dr. York a fit man for the Governor's chair. I do not mean anything personally discourte-ous to him, for our relations are not in any sense unfriendly, but in my judgment he has not the qualifica tions for the high office he seeks. Nor do I think that his qualifications or his antecedents are such as to entitle him to the support, even of Republicans. I am satisfied from my long familiarity with his public course that neither the charitable nor educational interests of the State would be safe

under such policy as has always characterized his public career.

As a North Carolinian I cannot look at the facts before me without perceiving that all the material interests of the State, her financial condition, her charitable and educational institutions, her progress at home and reputation in the eyes of the country will be jeopardized by the election of a

man of his antecedents. This is an unusual crisis, and while I am not ambitious of any claim to consistency, save in a love for North Carolina and the interests of all her people, I am especially devoted to the unfortunate afflicted among whom the best years of my life have been pass-

Parties and policies have no value in my eyes save as they may protect, not despoil the people; save as they may guide and not mislead in the path

A Mob After the Councillors.

BRUSSELS, Oct. 14 .- A mob at Seinzielles, Belgium, in retaliation of the action of the communal council in having closed the girls' school there, entered the council chamber, and drove out the councillors. They afterwards pillaged the house of the priests. The gen de arms succeeded in restoring order.

Way the United States Refused to Act as Mediator.

Paris, Oct. 14 .- A note of Tsing Li Yamen of August 14th, to the foreign minister at Pekin, has been published. It shows that the United States re-It shows that the United States re-fused to act as a mediator in the diffi-culty between France and China, unless it was shown that the Chinese government had not violated the Tien Tsin treaty. Intelligence from China states that the viceroy, Quay Si, has been ordered to send reinforce-ments to the Chinese army at Ton-
