11 one where of The Crowder's Mountain Iron works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

10 The property consists of Six Taousand Three finadred acres of land, located in the counties of daston and Cleaveland, in the State of North Caronna, at King's Mountain Depot, on the Atlanta and Charlotte air Line rallway, now owned by the Richmond and Fanville railroad company. The property has been used for lifty fears past as an iron property, and has oeen worked at various points, but chiefly at the site of the celebrated fellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its settness and toughness. This vein of ore, which extends for two miles in length, has been worked to the dept of 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic iron. This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other welns have been worked, and within the past eighteen mentils, however, the owners have discovered derears rear large deposits of iron ore have been discovered at other points. Within the past eighteen muths, however, the owners have discovered deposits of ore in trowder's Mountain, (five veins of iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 220 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one place about 20 feet of solid vein. This reincan be traced over the top of the mountain for over a mile, and this deposit alone would afford an almost inexthaustible supply of ore, easily worked, and above the water line. In addition to this four other veins heve been found on this mountain. The ore is a mottled gray ore, showing on analysis from \$2\$ to \$6\$ per cent. of metallic iron, with a small amount of titante acid, and without any sulphur or phosphorus. The quantity of ore in this mountain is simply inexhaustible and of good quality.

Besides Crowder's Mountain the owners no sees.

quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to tron ore the property has manganese, limestone clay for making hre-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

celient barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportualities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces acrass, grain and all kinds of farming products snely, and it is well supplied with water by unfailing springs and branches

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle, The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from king's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suif purchasers, as follows: The whole tract, including mineral interest, or will sell one half the mineral interest, or will sell one half the mineral interest payments to be one-third each, balance in one or two are treather to the other transporting and the states.

A valuable water power, which has been used to but large rolling mills, lies adjacent to this prop-rty, and can be bought cheaply. The property is also in close proximity to the famous All Healing Mineral Springs, and to the widely-known Cleve-and Springs. Alineral Springs, and to the widely-known Cleve-land Springs.

The town of King's Mountain is also adjacent, where are good hotels, a flourishing and excellent high school, and several new and handsome churches. The owners invite the attention of all interested to this property, and ask an examination of it. Any further information regarding it will be promptly furnished by addressing R. E. Cochrane, kianager Charlotte Real Estate Agency.

The Yellow Ridge Ore Bank has been recently sold to a Pittsburg, Pa., company, and a German colonization company has recently bought 2,500 cres adjoining this property.

18 Tract of Land, 150 acres, located in Lincoln

18 Tract of Land, 150 acres, located in Lincoln county, N. C., adjoining lands of Geodson & Payne and others, 6 miles from Denver, 23 from Charlette, and the control of th harlotte, and 13 from Davidson College. MISDIRECTED THANKS. The Statesville American feels so relieved at the escape of its party from annihilation in Ohio that it fell into a pious mood and returned

thanks thus: "The people of Ohio have done well their part to shape the history of the next twenty years. Thanks to God, who hath again given the victory to justice and right. Thanks to the true men of Ohio, who have not forgotten the sacred graves on their soil, or the cause for which many heroes, from the martyred President to the private soldiers who died of wounds in war, willingly gave their lives. Thanks to the men of other States who have met the forces of Democracy, concentrated on this its chosen battle field, and have helped, in the argument before the people, to win the glorious triumph which the Nation now hails with joy."

It is well to be thankful, it is well to recognize the interposition of Providence in bringing about beneficent results in worldly affairs, but this thing of mixing up God with deputy marshals, repeaters, roughs and corruptionists with their pockets filled with money, with Blaine's hippodrome, Dudley's gang of workers and peculiar methods, is a little profane, to say the least of it.

Did God inspire or co-operate with the gangs of deputy marshals that surrounded the polls on election day in Cincinnati, shot down the people in Cincinnati, shot down the people house. Winston, on Saturday night.

that they would remain closed indefinitely if the State went against the to vote the Republican ticket?

Did God have anything to do with taking Pension Commissioner Dudley as orderly as could be, and gathering up his portfolio of political lies, startedfice with his corps of clerks and ed to leave the hall, but was presented to leave the hall to leave strikers, to work for the Republican party in Ohio while they were drawing pay from the people for work which they ought to be doing else-

Finally, if God was taking a hand on the Republican side in Ohio, why did He let that majority be cut down to about one-half what it was four

And again, we ask this exultant giver of thanks if God did actually help the Republicans in Ohio, why He so tyed argument they all use emphatically overlooked them in West Virginia, where Stephe Elkins was so prayerfully laboring and distributing his cash, and where the Blaine and Logan hippodromes both

It is well to be thankful and prayerful, but at the same time it is well to be respectful to Omnipotence, whose name should not be irreverently mixed up in partisan enthusiasm with election contests marked by such disreputable and disgraceful methods.

We publish elsewhere the address to the people of the United States by the Democratic National Committee, on the political situation and on the methods employed by the Republicans in Ohio and West Virginia. What they did in those States they will do in all other doubtful States where they can. Their only hope of electing Blaine is by force and corruption, both of which were signally conspicuous in the late election, especially in Ohio. If the American people would preserve their liberties, and protect the ballot box from the domination of the partisan bulldozer in the person of the United States deputy marshal, and the corruptionist with his money, they must rebuke these flagrant operations of the Blaine managers in Ohio and West Virginia.

Governor Abbett, of New Jersey,

"Governor Cleveland is a man of powerful frame, with a massive head and honest, strong face. He gives you a cordial, warm grasp of the hand when introduced and looks you favorably. He looks like an honest man, acts like a great man, and talks like a man of brains. He will make the very kind of a President this country wants in these corrupt days.

Editor Dana, of the New York Sun. endorses Tilden, and Tilden endorses Cleveland. But still the Sun pegs away in a lonely fashion for Ben Butler, the hard handed son of toil who smokes fifteen twenty cent cigars a day, and travels around the country in a special palace car.

President Arthur is preparing to nd his administration and vacate the White House, with a brilliant se-ries of social festivities, before Mr. Uteveland moves in.

THE RADICAL RELIANCE. A correspondent of the Statesville

American, (now published in Raleigh) Dr. Mott's organ, writing from Charlotte, informs that journal that the woods are full of independents up in this section, and says "we have an independent candidate for sheriff and register of deeds, and what is better. the independent candidate for sheriff has driven the Democratic candidate from the field." If that sanguine scribbler had held up his dish of bosh for a day or so he might have informed Dr. Mett's organ that the independent candidate for sheriff had withdrawn from the canvass and would support the Democratic candidate. The woods are full of 'em, are they? It would take a search warrant and a magnifying glass to find a dozen independents in the county.

It will be noted that this correspondent says "we have independent candidates," showing the trick and the hope of the Radical managers in trying to humbug the people by falling

in behind the independents. He confesses, however, that there s some dissension among the Republicans and Liberals in the county Well, we should think so. A dissen sion which from the start prevented the nomination of a county ticket, and finally resulted in bursting the ticket patched up all to pieces, and leaving them practically without any ticket. Oh, yes; there's just a little dissension among 'em.

Col. Wm. C. Beecher, a son Henry Ward Beecher, has taken the stump for Cleveland and ref .rm.

The season of fires has commenced It is in order to look out for foul chimneys, ash barrels, &c.

FROM FORSYTH.

Reid and Edwards at Winston -- Edwards Hacked --- Local and Persona Dots. Correspondence of THE OBSERVER.

SALEM, N.-C., Oct. 20.-James W.

Reid, Democratic candidate for Conlike dogs, arrested and dragged off citizens to prison, and caused one of the bloodiest, most lawless and discussion commenced. Mr. Edwards graceful elections ever witnessed in took the stand first, and from the nervous condition he was in it was Did God inspire the closing up of have preferred being somewhere else factories, with the announcement just then. He began his speech by that they would remain closed indefiitor would tell them, drifting from that to "county government," taking Republican party, to intimidate the workmen thrown out of employment ing that amounted to nothing when the most the Republican ticket? talk he was interrupted by a negro Did God inspire the sending of a in the audience who began to apmillion dollar corruption fund into plaud, which started a few noisy little boys who were in the hall, to applaud also. This he attributed as vented from doing so by a few friend who urged him to remain and finish so that his competitor could proceed with his remarks. Every Democrat in the large hall, and it was packed with them, was anxious to hear Mr. Edwards' speech, and listened atten-tively to it from beginning to end although there was nothing to be learned from it by either Democrat or Republican. His argument on the tariff was the same old stereo

on civil rights it was ditto, on the Blair school bill ditto, and so on to the end, which was a great re-lief to him when it came, for never did a man want to leave a place as Edwards did Brown's opera house on Saturday night, not that he was not shown respect, for with the exception of the slight interruption caused by the negro and a few noisy little boys applauding, he was treated with more respect than Mr. Reid, for the crowd could not resist interrupting him with applause, so sensible, broad-minded and eloquent was his speech. At the conclusion of his speech, and just as Mr. Reid, began his, Mr. Ed-wards stepped up to him and asked permission to retire from the hall as he was indisposed. His request was granted and he retired. Mr. Reid spoke his allotted time, and such a speech as he made is seldom equaled. He explained the issues that are now being discussed before the people everywhere, in such a straightforward and truthful manner that every had a white and black could fully body, white and black, could fully

understand them.
At the time that Edwards started to bolt from the discussion, loud cries were made for Reid, a section of were made for Reid, a section of scenery opened and displayed to the audience in large letters, on a white back ground, bordered with flags, "Our Next Congressman, Jas. W. Reid" It was the shout that went up from the multitude when they saw that which caused Mr. Reid to saw that which caused Mr. Reid to step forward and ask the audience to be quiet so that his competitor should proceed with his remarks.

That Mr. Reid will be the next Con-gressman from the fifth district there is not the least doubt, and if the other

counties in the district go for him as old Forsyth is going to go for him, he will get such a rousing majority that Edwards will have to join the old man York in saying: "Oh, I am so sick! so sick!"

On Saturday afternoon about 3 o'clock the fire alarm was sounded in Winston, when it was discovered that a tenement house occupied by some negroes, near H. H. Reynolds' to-bacco factory, was on fire. The steam fire company responded promptly to the alarm, and succeeded in saving a

portion of the building.

Mr. M. M. Stein, the inimitable "Mose," of the "Baltimore Clothing House," Winston, will have a grand opening of fall and winter goods in that temple of fashion on the 25th Brown's new large tobacco ware-house will be opened about the middle

of November.
On Saturday night there came near being a fire at the residence of Mr. C. A. Winkler, in Salem, by some dried grasses which caught on fire by a lamp being set too close to where they were hanging. The burning grasses fell to the floor, igniting the carpet and a curtain, but the flames were extinguished before much damage

improvements to his residence in

Mr. Pleas. Hanes, of Winston, has four as fine hogs, of the Berkshire variety, as can be found anywhere. Uncle Davy Leak, who is a judge of big things, says that by killing time the four will weigh 2,000 pounds, and I don't think Uncle Davy will miss their weight for their weight far.

A gentleman from the country was in town the other day and told about the unfortunate end of a young 'possum dog belonging to one of his neighbors. His neighbor, he says, is a Republican, one of the kind who always names his children after Presidents or Congressmen belonging to his party. One evening his Republican neighbor swapped two ducks and a guinea fowl for a young hound pup, and after casting about for a name for the pup concluded to name for the pup concluded to christen it "York." The pup stood the infliction at the time, but its tail, it was noticed, began to drop between its hind legs, and next morning when the owner os the pup went out to look at his pup he found that he was minus two ducks and a guinea fowl and that he had a dead "York" on his hands—the same as the Republican party of North Carolina will find next morning after November 3th. SALEM.

Dr. Grissom's Opinion of York.
Parties and policies have no value in my eyes save as they may protect not despoil the people; save as they may guide and not mislead in the path of the State's prosperity, and hence I cannot support York.

Dr. Grissom's Opinion of York. I do not think Dr. York a fit man for the Governor's chair. I do not mean anything personally discourte-ous to him, for our relations are not in any sense unfriendly, but in my judgment he has not the qualifications for the high office he seeks. Nor do I think that his qualifications or his antecedents are such as to entitle him to the support even of Republi-

All of One Mind.
