One Dwelling on West Trade street, two stories, 7 rooms, 2 room kitchen, well of wa-ter; two lots—99 on Trade 99 on Fourth st-very desirable property. Price \$4.750.

of the city limits, adjoining the Fair Grounds well located for a truck and dairy farm; in in timber, branch running through it, about 8 acres meadow. Price \$30 per acre. well located for a truck and dairy farm; 1/2 in timber, branch running through it, about 8 acres meadow. Price \$30 per acre.

15 One unimproved lot 99x19's on Ninih street, between D and E streets. Price \$350.

16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain from Works beg to cair the attention of capitalists from manufacturers, stock and dairy men, and those who wish to settle coionies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three Hundred acres or land, located in the countles of Gaston and Creaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Chariotte Air Line railway, now owned by the Richmond and Danville railwoad company. The property has been used for lifty years past as an from property, and has been worked at various points, but chiefly at the site of the celebrated yellow Ridge ore Bank, which has always yielded an ore noted for its richness in metallic from, and its softness and toughness. This vella of ore, which extends for two miles in length, has been worked to the dept of 147 feet, she wing at that depth a vell of ore about 40 feet wide, and analyzing as high as 65 per cent. of metallic iron. This ven has not been worked for twenty years, but the facts set forth can be fully shown. Various other wens may been worked, and within the past two past sery large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of from ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2300 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mounta

mountain is simply inexhaustible and of good quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, linestone elay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportualities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces coas, grain and all kinds of farming products anely, and it is well supplied with water by unfulling springs and branches

The other 4,000 acres embraced in the mountain aldes are productive of fine grass and herdage, and afford excellent natural pasturage for sheep-and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize, Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small future. It could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from King's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including minerald interest, or will sell one half the mineral interest, parments to be one-third cash, balance in one or twya acc

Mineral Springs, and to the widely-known Cleve-land Springs.

The town of King's Mountain is also adjacent, where are good hotels, a flourishing and excellent high school, and several new and handsome churches. The owners invite the attention of all interested to this property, and ask an examination of it. Any further information regarding it will be promptly furnished by addressing R. E. Cochrane, Manager Charlotte Real Estate Agency.

The Yellow Ridge Ore Bank has been recently sold to a Pittsburg, Pa., company, and a German colonization company has recently bought 2,500 cres adjoining this property.

18 Tract of Land, 150 ncres, located in Lincoln & Payne and others, 6 miles from Denver, 25 from Charlotte, and 13 from Davidson College. Has on it a good dwelling, 7 rooms, all necessary outbuildings, good orchard, good water, and well adapted for grains, grasses, corn, wheat, tobacco, cotton, etc.; 35 acres' good bottom land. In line state of ultivation. Price \$2,250.

10 Tract of Land, 3 miles south of Charlotte, 82 acres, known as part of the Samuel Taylor tract, on which is an undeveloped gold mine, (known in the N. C. Reports as the Sam Taylor mine), three frame tenement houses, two rooms each, good barn, good well water and good spring on the premises. Sold without reserve for \$1,700.

\$12.50 up.

\$350 PER MONTH, SALARY AND COM mission, to competent business manager for this city (or State) agency. WHAT THEY HOPE TO DO. While the Radical managers in this State have put Dr. York and some other Radical speakers upon the stump, they have not attempted to make what might be called an acmore of a still hunt campaign, on which they rely for whatever of success they may hope to achieve with tricks and money. They are always most dangerous in the dark, for it is in the dark they do most of their devilment. As to their methods they are thoroughly unscrupulous, and in their political operations act upon the maxim that the "end justi-

fies the means." They would doubtless like to elect York, for if they elect him they will use him. They have made him, and he belongs to them, and he would dance to their piping as Governor as he has danced to their piping on the stump But they do not hope to elect York, or the State ticket, and will consequently be willing to swap the State ticket for votes for Blaine electors, members of Congress and members of the Legislature. On these they are laying their plans and centering their efforts now. They hope to be able through their money to buy some Democratic votes, and to influence some not to vote against them. Through their organization and these methods they think they can change six votes at each ballot Which we have just opened, and are satisfied we box which in the total would overcome the Democratic majority in the State and give them the victory. We don't believe the honest voters of BOOTS AND SHOES

recognize the fact that the Radical managers in this State are thoroughly unscrupulous and desperately in earnest, and that where either the venal or wavering may be found they will not fail to resort to any means that will capture the one or the other. They have a thorough organization, they have the negroes almost solid with them, and they have in every county active, tireless workers, many of whom are paid out

The Democrats are not as well organized, nor have an army of government paid officials and employees in the field, and hence what is done must be done by the people who want good government and take interest enough in the prosperity of the country and the State to work for it. The Democratic party relies upon every Democrat to do his duty, and calls upon him, as he values his free suffrage, his own prosperity and the welfare of his fellow citizens, to exercise that suffrage in the cause of honest government, and thus help to foil the plans of the Radical leaders who are endeavoring by corrupt and desperate means to hold possession of the Federal Government, and steal

of the treasury of the United States.

the government of North Carolina. Let no Democrat fail to respond to this call on the 4th day of November, for upon his yote may depend the destiny of North Carolina, and upon the vote of North Carolina, and upon the vote of North Carolina may de-pend the destiny of this Republic. As you love your country and your State, rally to the standard of Democracy and honesty next Tues-

Perhaps it was Mr. Blaine's bloody shirt summerset that made Dr. York sick, and then perhaps it was the painful absence of white men at his meetings in the east, aud perhaps it was the realization of the fact that he had, as the phraze goes, "bit off more than he could chaw." We trust, whatever it may be, that it is nothing more than campaign sickness, and that he may rally and still be useful to his fellow men as a healer of diseases, a better and nobler calling than that of a tumble-bug politi-

Jas G. Blaine will henceforth be in favor of cremation. Had these letters beeu cremated as James requested of Fisher, it would have saved the gentleman from Maine a vast amount of tribulation.

The sole reliance of the Blaineites in this campaign is the bloody shirt those who are in need of a Suit or Overcoat to call on us

While Blaine flaunts the b. s., Jack Logan writes "soft sawder" to those three hundred mythical ex Confeder ate soldiers who wanted him to come down to Virginia and tell 'em how to

Joy will remember Beecher as long as he lives, and it will not be a joyful

It is said it was the night air in the eastern part of the State that made York sick. It is more likely that it is simply a case of over-exertion in trying to ride two horses at the same

It is reported in Raleigh that the Republican managers expect Johnny Davencort, the ballot box manipulator from New York, to help them fix up things in this State.

If the South was solid for Blaine there would be no bloody shirt in this campaign. But it is not, and that's what's the matter with the gentleman from Maine.

The Blaineites have abandoned the hope of carrying New York, and are now concentrating their efforts on Indiana, New Jersey and Connecti-

elector down to coroner. A WILD WAIL.

Blaine Organ Unturis the Blood

Shirt in this Style. The following wild effusion, which is without a word of truth to base it upon, is from the Washington Critic: Intelligence has reached this city from Mississippi of the most alarming character. It seems, from what has been communicated to gentlemen in this city, who have correspondents in Mississippi in a position to know what is going on, that a general crusade has been entered upon against Republican nominees for Congress and all who support them, and bloodshed and massacre may be looked for at used as money in the United States don't believe they can do this. We don't believe the honest voters of North Carolina can either be bought or humbugged in this style, but we ing bulldozers openly declare that if Blaine and Logan are elected they shall be confronted by a Democratic House, made so peaceably if it can be done, but forcibly if it must be so. Colored Republicans all through the State are quaking for their lives, and a veritable reign of terror pervades the entire State. People in the free States have no conception of the condition of affairs down there, and what the result is to be no one knows. One thing is certain: The present condi-tion of affairs in that State cannot

last. Either the South will enter upon a period of chaotic anarchy, such as the world never saw, or there must be a return to peaceful, legal and constitutional methods. Otherwise our boasted Republic is a failure, and we might as well choose a dictator who will enforce the law and tor, who will enforce the law and protect the helpless at all hazards and to the last extremity. If we must have killing, let us have it done legally and with due reverence to the forms and ceremonies of all civilized We know that it is idle to threaten

brave men, and we concede that Southern men are as braye as any the sun shines on; but it must be apparent to the most obtuse that the Nation cannot permit its faithful adherents to be murdered and disfranchised without intervening in their behalf. If it does, it is worthy only of the contempt of mankind. It is, then, no longer a nation—a government, but it is a chaotic mass of people in a chronic condition of insurrection. And insurrection must be put down and peace restored at all hazards and at every cost. The law-abiding States cannot permit the present condition of affairs to continue, for it may involve them in woes unutterable Peace and justice must be secured at every cost.

A \$50,000 VERDICT.

Case in Which a Juror Changed his Mind. NEW YORK, Oct. 29.-In the Kings

county Supreme Court there has been on trial for some days, a suit been on trial for some days, a suit brought by Wm. Brady against C. P. Huntington, to recover \$50,000 commission, claimed to be due for effecting a sale of railroads in Texas and Louisiana, and several steamships of the Morgan steamship line belonging to Morgan & Tate. The jury to day returned a verdict for the plaintiff for the full amount claimed. When the jury was polled each one announced that that was his decision until the name of the tenth juror was called. He said he did not agree with the others. On did not agree with the others. On questioning him he said he had agreed with them in the jury room but he had changed his mind.

The Vatican Disapproves. LONDON, Oct, 29.-The Rome correspondent of the Times states that the Vatican disapproves and deplores the new movement of the Irish Bishops in favor of Parnell.

For Fall and Winter Suits of New and Beautiful Designs in Men's, Boys', Youths' and Children's Clothing are the best ever exhibited anywhere, and we call special attention of those who are in need of a Suit or Operant to call anywhere it will do the most good."

and money, the first of which they flaunt in the faces of the public, the latter of which they stealthily put "where it will do the most good."

The second of a Suit or Operant to call anywhere it will do the most good." of the State's prosperity, and hence I cannot support York,

> Dr. Grissom's Opinion of York. As a North Carolinian I cannot look at the facts before me without per-ceiving that all the material interests of the State, her financial condition, her charitable and educational institutions, her progress at home and rep-utation in the eyes of the country will be jeopardized by the election of a man of his antecedents.

A CARD.

GOLD AND SILVER.

Report of the Director at the Minter Gold and Silver Produced and Corned and the Money in Circulation.

Washington, October 28.—The director of the mint has submitted to the Secretary of the Treasury his annual report for the fiscal year 1884. The report shows that the deposits of gold during the year amounted to \$46,326,679, of which over \$29,000,000 were of domestic production. Silver purchased for coinage and deposited for bars amounted at its coinage value to \$36,520,290, of which over \$31,000,000 was of domestic production. The total value of gold and silver deposited and purchased, including re-deposits was \$37,955,155, being about the same as during the previous year.

being about the same as during the previous year.

The coinage amounted to \$57,880,~921, of which \$27,932,824 were gold, and \$28,773,389 silver. The latter, except about \$6,703,000 in silver dollars, coinage of gold, was about \$8,000,000 less than in the previous year. In addition to the coinage executed for the government, \$1,000,000 in silver was struck out at the San Francisco mint for the Hawiian government.

ernment.

The profits of the year on the coin age of silver dollars amounted to \$3,966,722; the profits on the coinage of silver from the first of July 1877 to the close of the fiscal year ending June 30, 1884, amounted to \$20,972, 293, which with the balance of \$424, 725 on hand at the date first mentioned have after paying expenses of tioned, have after paying expenses of distribution and losses and wastages incurred, been deposited in the treasury of the United States. The number of silver dollars dis-

tributed during the year amounted to over \$17,000,000. The total amount estimated to be in active circulation on the first of October, 1884, was over

on the first of October, 1884, was over \$40,000,000, being an increase of \$5,-000,000. The total earnings and gains from all sources amounted to \$5,433,-102 and the total expenditures of all kinds amounted to \$1,676,002.

The director estimates the production of the mines of the United States for the calendar year of 1884 of gold, \$29,000,000; silver \$48,000,000, which is about \$1,000,000 less in gold, and not quite \$2,000,000 more in silver than for the previous year.

Replies received to circular letters sent to persons and firms engaged in

sent to persons and firms engaged in the manufacture and repair of articles of ornamentation in the United States show an annual consumption of precious metals for those purpose of over \$20,000,000 of which \$14,500, 000 were gold, and \$5,500,000 silver. He estimates the amount of coin in country on October 1st, 1884 to have been gold, \$557,000,000; silver, \$257,on the 1st of October, 1884, the dicountry at the same date of the pre-vious year. Of this amount over \$502,000,000 was fn the treasury and \$1,304,000,000 in the banks and general circulation. Deducting the amount held by the national banks leaves about \$1,094,000,000 in the hands of the general public and banks other than national.

THE TREASURY.

The New Secretary Awaiting the Return of His Commission. WASHINGTON, October 29.-The

commission of Hon. Hugh McCullough as Secretary of the Treasury was signed by the President yester-day afternoon and mailed to Raritan, N. J., to be countersigned by the Secretary of State. Consequently it can hardly be received by McCullough before this evening or tomorrow morning, and as he cannot qualify before he receives his commission he will not enter upon the charge of

his duties as Secretary before tomor row. He paid a short visit to the treasury department this morning and conferred with Secretary Gresham on the affairs of the department. While Judge Gresham is nominally secretary of the treasury today he is not acting as such. The mail is being signed by assistant secretary French, as acting secretary. General Gresh-am will remain in Washington for a few days to close up his private affairs and will take his seat upon the bench in Chicago about the middle of next week.

Dr. Grissom's Opinion of York.

This is an unusual crisis, and while am not ambitious to any claim to consistency, save in a love for North Carolina and the interests of all her people, I am especially devoted to the unfortunate afflicted among whom the best years of my life have been passed, and hence I cannot support York.

The Testimony of a Physician. James Beecher, M. D., of Sigourney, Iowa, says:
"For several years I have been using a Cough Balsam called Dr. Wm. Hall's Balsam for the Lungs,
and in almost every case throughout my practice I
have had entire succes. I have used and prescribed
hundreds of bottles since the days of my army practice (1863), when was surgeon of Hospital No. 7
Louisville, Ky." For sale by T. C. Smith & Co., Charlotte, N. C.
