CHAS. R. JONES, Editor and Proprietor.

[ENTERED AT THE POSTOFFICE IN CHARLOTTE, N. C., AS SECOND CLASS MATTER.]

SOUTHERN PIG IRON.

The manufacture of iron is destined to become one of the leading industries of the South, and one in which she will eclipse the iron sections of the North. It has already been abundantly demonstrated that iron can be mined and smelted in the iron bearing States of the South at considerably less cost than it can in the iron belt of the North, and as a consequence pig iron is now being shipped from the South to Philadelphia and New York and Boston, and sold at a less price than the Pennsylvania furnaces can supply it and make a profit that would enable them to continue business The Southern furnaces can do this because they have secured cheap transportation from steamship lines which enables them to put down their iron on Philadelphia and Boston wharves at about $16 a ton, considerably less than Northern furnaces can, and hence the Southern iron is in the lead. With experience, increased capital and better facilities for transportation the Southern mine and furnace operators will be able to do still better and will eventually drive their Northern competitors out of the market and monopolize business themselves. The iron supplies of Alabama, Georgia, Tennessee, North Carolina and Virginia are inexhaustible, and are so situated that they can be worked advantageously and cheaply. Much of these iron lands as yet are unpenetrated by railways, but the time is not far distant when but comparatively little of it will be so. From the main trunks now running through the South branch lines will be constructed leading to the mining sections, and bring them in connection with the freight highways. An additional advantage Southern iron has is its varied quality, being adapted to any and all uses to which iron is devoted. We have seen the finest kind of cutlery made direct from the pig iron of a North Carolina furnace, while for ready and cheap conversion into steel it is without a superior.

There is a bright prospect before the iron men of the South, and now that our political contest has been settled so happily the prospect is all the brighter.

REMOVALS FROM OFFICE.

In reply to a government employe, at Washington, who was probably making his calculations on being relieved when President Cleveland took his seat, Mr. George William Curtis sends the following:

WEST NEW BRIGHTON, STATEN ISLAND, Nov. 14, 1884.—*Dear Sir:* I have your letter of the 12th. There is no doubt that Mr. Cleveland will encounter a tremendous demand for a clean sweep. But I think that while changes will and ought to be made for perfectly legitimate reasons, he will respect both the letter and spirit of the reform law, and that non-political officers who have been honest and effective in the discharge of their duty, and who have not misused their positions for party or political ends, will not be arbitrarily dismissed for political reasons. Of course I have no authority to speak for Mr. Cleveland. My faith is founded upon some knowledge of his character and conviction. Truly yours, GEORGE WILLIAM CURTIS.

The Philadelphia Republicans took the official announcement of the count in New York and the lay-out of Blaine good naturedly, and showed it by illuminating their club head quarters and saluting the Democratic celebrating procession as it marched by. This was a very clever thing for them to do, and they showed themselves fellows of right good sense, good enough to be Democrats, by so doing.

The biggest fool we have read of for some time was the negro at Clinton, Mississippi, who cut his throat when he heard of the election of Cleveland and Hendricks. He was a fool, but the mean men who made him believe such nonsense have not the plea of being fools to excuse them for the lies they utter.

The inauguration of President Cleveland will be one of the grandest ever witnessed. Already Democratic clubs in various portions of the country are making rates with the railroads for transportation to Washington, to attend in bodies.

Mr. Blaine Acknowledges His Defeat.

WASHINGTON, D. C., November 17.—Mr. Walker Blaine arrived here today. His father, he says, will very probably come to Washington next week and remain here during the winter working on his book.

Mr. Walker Blaine is reported in the Evening Star to have said that his father accepts defeat "quietly and complacently," and that the morning after the election he sat up in his bed and wrote on his history.

He knew he was defeated and went to work on something else.

Mr. Blaine says his father is satisfied with the management of the campaign, and is not disposed to blame any one for mismanagement.

Cases Dismissed.

WASHINGTON, Nov. 17.—In the Supreme Court of the United States today the cases of Wm. H. Marbury, appellant from the District of Columbia, and Riggs & Co., appellant, vs. the Alexandria and Fredericksburg Railway company, appealed from the circuit court of the United States for the district of Virginia, were on motion of the counsel for the appellees docketed and dismissed with costs.

Decrease in the Death Rate.

PARIS, Nov. 17.—There were 44 deaths from cholera in Paris yesterday. In twelve hours, ending noon today, only four deaths occurred in the hospital and none outside.

THE B. & O. RAILROAD COMPANY.

Meeting of Stockholders—Report of Traffic and Progress Within the Past Year.

BALTIMORE, Nov. 17.—The stockholders of the Baltimore & Ohio Railroad met to-day and re elected all the directors with the exception of Robert Garrett, acting president, whose place was filled by I. Harrison Garrett. The directors will meet on Thursday next to elect a president. The number of shares of stock represented to day at the meeting was 91,748. The thirty-eighth annual report was submitted and approved. It shows that the earnings of the entire system during the year ended September 30, 1884, were $19,436,607.38; expenses, $11,676,307.08; net earnings, $7,760,300.38; a decrease in the gross earnings of $303,230.55 as compared with 1883. The net profits of the main stem, including the Winchester & Potomac, Winchester & Strasburg, and Harrisonburg, the Metropolitan branch, the Washington City & Point Lookout, and the Somerset & Cambria roads, show a net decrease of $121,560.23. The surplus fund of the company now amounts to $47,703,796.31.

During the year passenger cars were built at Mount Clare at a cost of $100,471, and the Buckeye Car Manufacturing Company's works at Columbus, O., were purchased. The company now owns 662 locomotives and 22,562 cars. At Mount Clare 40 engines were built last year for the company's use, costing $362,699, and 3,582 cars have been built and rebuilt. The tonnage of through merchandise from east to west aggregated 2,275,252 tons, against 2,108,325 tons in 1883. In 1874 this traffic amounted to but 752,256 tons. Rapid progress is being made on the new line between Baltimore & Philadelphia, and it is expected that the road will be in operation by the first of July next. The policy of the company in owning and operating its expresses, telegraphs, and parlor cars continues satisfactory. The results of owning its own sleeping cars have been 92 per cent. better than when under the control of the Pulman Company, and the gain to the B. & O. by operating its own express has been 61 per cent over the per cent. when the lines were controled by the Adams and other companies.

The B. & O. Telegraph system now represents 6,886 miles of poles and 47,417 miles of wire, in the acquisition of which there has been expended during the fiscal year $2,012,000.

It is believed that when the systems of the B. & O. Telegraph have been perfected the operating expenses of the telegraph department for railroad business will be further reduced. The Employes' Relief Association has now a membership of 17,798, and the payments for their benefit during the fiscal year amounted to $216,945.48.

THE CATTLE MEN.

Grand National Convention of the Boss Cow Boys.

ST. LOUIS, Mo., Nov. 17—At least 2,500 people gathered in the exposition hall to witness the opening of the first annual convention of the cattle growers. The hall was tastefully decorated with bunting. At 11 o'clock Col. R. D. Hunter, of St. Louis, rapped the gathering to order and introduced Maj. C. C. Rainwater as temporary chairman. Thos Sturgis, of Wyoming, was nominated as temporary secretary and Gen. Curries, of New York, as assistant secretary. The appointment of a committee on credentials became a subject of a number of resolutions, counter-resolutions and amendments and during their discussion a sharp tilt took place between Senator Dorsey and Judge Carey, of Wyoming. The latter in alluding to the great star router's former political experience, drew tremendous applause from the convention. It was resolved that the different delegates from each State and Territory select from their own bodies the members of the two committees; that one of these committees was to be the committee on credentials and basis of representation and another the committee on permanent organization. A recon- consideration was moved by Judge W T. Thomlon, of New Mexico, who spoke on the motion to reconsider, and was followed by a number of gentlemen who took different sides on the motion. Mr. L R. Rhodes, of Colorado, created a breeze by stating that Colorado was represented in the convention by a delegation of 150 men, while New York was represented by one. He demanded for Colorado that representation which the capital and industry represented was entitled to, and declared that Colorado would have it.

THE SWAIM COURT MARTIAL.

His Counsel Protesting Against Certain Members Sefting on the Case.

WASHINGTON, Nov. 17.—The proceedings of the Swaim court marshal today were quite sensational. Counsel for the accused protested against several members of the court. The complaint was made that General Rochester was disqualified by being an important witness against Col Morow, at the court of inquiry. This objection was sustained and General Rochester was excused. A motion was then made to relieve Gen. Schofield for the reason that he was regarded as prejudiced against Swaim on account of his severe comments upon the findings of the Fitz John Porter court, of which Gen. Schofield was the reputed author.

The counsel also objected to Gen. Schofield as prejudiced against Swaim on account of his intimate relations with President Garfield at the time of Schofield's transfer.

Gen. Schofield replied that he was not prejudiced, and could decide the case fairly, and the court declined to grant the motion for his removal.

Counsel for Swaim objected to Gen. Terry as having always been hostile to Swaim, and having expressed derogatory opinions of him at the time of his appointment.

Life Stations---Suit Against Gen. Badeau's Securities.

WASHINGTON, Nov. 17.—The general superintendent of the life saving service has arranged for the construction of life saving stations on Santa Rosa Inlet, near Pensacola, Fla., on Morris Island, near Charleston S. C., at Jupiter Inlet, on the coast of Florida.

The solicitor of the treasury has instructed the United States District Attorney for the Middle District of Alabama to bring suit against Richard Busted and Jacob Stanwood; of that State, sureties on the bond of Gen. Adam Badeau, late consul general at Havana, to recover the sum of about $1 200 received by that officer as notarial fees, and alleged to have been illegally withheld.

Who has Cold Feet?

The poor fellow whose blood does not circulate vigorously, whose liver is half asleep, whose stomach is in poor order, and whose digestive apparatus has gone back on him, can never make his feet warm until he puts stomach, blood, liver and digestion into good condition. He can do this by the aid of Brown's Iron Bitters. If this prince of tonics Mr. W. C. Fuller, of Montgomery, Ala., says "I took Brown's Iron Bitters for general debility, and am greatly improved."

BURNED PALATKA.

Lying Telegrams Indignantly Denied by Northern Residents.

NEW YORK, Nov. 17.—The following address received here refers to special dispatches regarding the recent conflagration at Palatka, Fla.:

PALATKA, FLA.

To Hon. A. V. Mount, Mayor of the City of Palatka.

DEAR SIR: We, the undersigned, former residents of Northern States, but for the last year or so making our homes in your city, feeling an honest abhorrence at the false statement of affairs during and since the election that have been circulated through telegrams said to have been sent from here to New York city, and published there in several papers, do hereby wish to state that we have been present and taken part in municipal and national elections when residing in our northern homes but never have seen a more quiet, orderly and well conducted election in our lives.

Since the 4th inst., the absence of the usual hearty enthusiasm of a victorious party being in our particular case shadowed by a fearful visit of the fire fiend, laying waste the greater portion of our city caused sorrow enough without the incorrect reports made apparently with the intention of injuring our fair city's future prospects. We hope the rebuilding will be pushed rapidly and lessen as much as possible the loss and suffering to those thrown out of employment.

Sir, it reflects great credit on the municipal authorities of whom you have the honor to be the head, that during both elections and the fearful night so soon following there was not the semblance of trouble. All true Democrats will do what is in their power to lift and remove the effects of the unfair and unjust statement made against the colored portion of our population. They deserve great praise for the peaceful and quiet manner in which they acted under such excitement and disappointment to their hopes and we do hereby tender our thanks to the many who assisted us in time of our need.

We are, dear sir, respectfully,

Sam'l. C. Burland, M. D., Chester, Pa.; R. S. Priddy, Detroit, Mich.; C. H. West, Washington, D. C.; C. T. Sulzner, San Fancisco; Geo. F. Peck, Yonkers, N. Y.; J. H. Hilliard, Philadelphia, Pa.; Marcus Loche, Indiana; D. E. Cooper, Peoria, Ill.; W. J. Zumwalt, Bowling Green, Me.; Wm. Husson, New York; C. Y Josephs, New York; W. C. Snow, postmaster; T. H. Canlan, clerk in postoffice, New York; Bryce C. Smith, Denver, Col., and many others.

THE MAN THAT HAD NO REGRETS

Mr. Blaine's Household in no Very Hilarious Mood Over the Result of the Election.

AUGUSTA, ME., Nov. 16.—Mr. Blaine has at last realized the bitterness of defeat. He had some faint hope all along that he would be counted in, but the truth seems to be that he was so greatly stunned by the conflicting reports that came from New York the very day after the election that he never fully recovered himself and felt all the time that the tide was against him. He has acted all along like a man completely unnerved, and displayed none of that spirit and dash that was expected of him by his friends in case of an emergency. The chilling apprehension of defeat that seized him the day after the election has now grown into the full realization of the actual disaster. Both he and his family are suffering the most burning agony. This information comes straight from their own house. Mr. Blaine is today more an object of pity than resentment and abuse. The female part of his family are in tears most of the time, while his son Walker curses the very air. If Mr. Blaine had fears of defent, his family did not share them His conceited and impertinent son, Walker, was as confident of his father's triumph as he was of his elevated shirt collar. The single daughter looked forward with fond expectations to her social reign at the White House, as every girl might be expected to do under the circumstances, and many were the rosy pictures she drew before her intimate young lady associates here. Mr. Blaine is more than ever convinced that his friend Elkins was the wrong man to place in the management of the national committee. He thinks he was not equal to the requirements of the place; that he was too easily deceived; that he spent too much money trying to carry Southern States, and that he relied too much upon hurrah. The Blaine strikers about the postoffice are a pretty good reflex of what Mr. Blaine himself thinks, and they are open and violent in their denunciation of Jones and Elkins. Joe Manly, the postmaster of Augusta, thinks he, himself, could have done better than Elkins Mr. Blaine and his family evidently feel that he has lost the presidency through mismanagement, and the man whom he holds guilty of that mismanagement he will never forgive.

Oil Wells.

Philadelphia Record.

The new and extraordinary oil developments in Butler county have given a lift to the value of land in the vicinity of the wells that is amazing. The Marshal farm of 352 acres, on which two or three large oil wells are now pouring out oil, is leased for one-fourth of the production. It would sell, subject to the lease, for $350,000 or $400.000. The farm could have been bought a year ago for $3000. The Bartley farm of seventy-five acres, on which the two Phillips wells and the great Christie wells are situated, paying a royalty of one-eighth of the oil to the land owner, is worth $75,000. Surrounding undeveloped properties can now be sold for fabulous prices. A correspondent of the Pittsburg Commercial Gazette says that in the centre of the developed field stands a schoolhouse, with an acre of ground attached, belonging to the school district. "The gushing wells surrounding it at its very doors furnishing conclusive proof that the oil pool extended under the school property Parties went to the school committeemen and offered as high as $50,000 for that acre of ground. Under ordinary circumstances the insignificant acre would have sold for a few hundred dollars at the utmost. With the magnificent remmeration of $50,000 the committeemen would have been enabled to build an imposing building that would have done credit to the much slandered Butler county. But, surprising to state, the committeemen stubbornly refused to sell even for $50,000, and today the wanderer in the oil-saturated woods will be shown the little red building as one of the few things in the world that has not been swept away before the resistless tide of petroleum discovery and production. Certainly it is a curiosity." The stories of sudden wealth which men have cudgeled their brains to invent to tickle the fancy of the curious or credulous reader hardly exceed the strangeness this Butler county narrative. The spouting oil pours a river of wealth into unaccustomed hands with as prodigal a flow as if it were dispensed from the store of that Midas at whose touch everything turned to gold.

The New York State Canvassing Board

ALBANY, N. Y., Nov. 17.—The State board of canvassers will meet at the capital this week, Wednesday. The official returns have been received from only about 40 of the 60 counties in the State, and the board will probably take a recess for a day in order to allow further returns to be received before proceeding with the canvass. If all the returns are in in time, the result in the State may be officially declared Wednesday. No protests have been filed.

Done in Six Months.

The coil of hair on the back of your head, dear lady. It is better than nothing, and deceives nobody. In six months or less from to-day you may dispense with it if you are inclined to give Parker's Hair Balsam a fair trial. Cleanses the scalp, restores color, a delicious dressing. Not a dye, not oily, elegantly perfumed.

Cuticura

A POSITIVE CURE

For Every Form of Skin and Blood Diseases, from Pimples to Scrofula.

I have had the Psoriasis for nine months. About five months ago I applied to a doctor near Boston, who helped me, but unfortunately I had to leave, but continued taking his medicine for nearly three months, but the disease did not leave. I saw Mr Carpenter's letter in the Philadelphia Record, and his case perfectly described mine. I tried the Cuticura Remedies, using two bottles Resolvent, and Cuticura and Cuticura soap in proportion, and call myself completely cured. L. P. BARNARD. Waterford, N. J.

ECZEMA TWENTY YEARS

CURED. NOT A SIGN OF ITS REAPPEARANCE.

Your Cuticura has done a wonderful cure for me more than two years ago. Not a sign of its reappearance since. It cured me of a very bad Eczema which had troubled me for more than twenty years. I shall always speak well of Cuticura. I sell a great deal of it. FRANK C. SWAN, Druggist. Haverhill, Mass.

BEST FOR ANYTHING.

Having used your Cuticura Remedies for eighteen months for Tetter, and finally cured it, I am anxious to get it to sell on commission. I can recommend it beyond any remedies I have ever used for Tetter, Burns, Cuts, etc. In fact, it is the best medicine I have ever tried for anything. R. S. HORTON. Myrtle, Miss.

SCROFULOUS SORES.

I had a dozen bad sores upon my body, and tried all remedies I could hear of, and at last tried your Cuticura Remedies and they have cured me. JNO. GASKILL. Hebron, Thayer county, Penn.

Every species of Itching, Scaly, Pimply Scrofulous, Inherited and Contagious Humors, with Loss of Hair, cured by Cuticura Resolvent the new Blood Purifier internally, and Cuticura and Cuticura Soap the great Skin Cures externally.

Sold everywhere. Price, CUTICURA, 50 cents; SOAP, 25 cents; RESOLVENT, $1.

Potter Drug and Chemical Co., BOSTON.

BEAUTY For Chapped and Oily Skin, Cuticura Soap.

W W A A N NN T ERR DD

We will pay 18 cents per bushel of 30 pounds for good sound cotton seed, delivered at our mill by wagon. Will pay 18 cents per bushel for seed delivered at any station on railroads running in Charlotte, for car loads of ten tons and over, by paying freight on same. Parties shipping less than ten tons will be called on to pay half the freight, as the railroads charge as much and in some cases more for part that for full car load.

Or we will give one ton of meal in exchange for two tons of seed. This exchange being of great value to the farmer should be taken advantage of, one ton of meal being worth much more for feeding or fertilizing than two tons of seed.
