The send of the celebrated fellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the dept of 147 feet, shuwing at that depth a vein of ore about 40 feet wide, and ananyzing as high as on per cent. of metallic iron. This is a high as one per cent. of metallic iron. This is have been worked, and within the past two pears very large deposits of iron ore have been allscovered at other points. Within the past eighteen mounts however, the owners have discovered deposits of ore in Crowder's Mountain, (ive yeins of iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above wates, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level and, 200 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from th Ladies' Neckwear.

mountain is simply inexhaustible and of good quality.

Besides Crowder's Mountain the owners possess king's Mountain, for about seven miles, whose pinnacie is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to Iron ore the property has manganese, limestone clay for making tire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity. One of our firm has just returned from As a stock and dairy farm it offers fine opportuables to those who may wish to engage in such busiless. It has from three to four thousand acres of level or onis slightly rolling land, which produces gass, grain and all kinds of farming products shelf, and it is well supplied with water by unfalling springs and branches.

The other 4,000 acres embraced in the mountain slates are productive of fine grass and herdinge, and afford excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coidest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickor, oak, walnut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and nilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the bealthness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to railroad facilities, being situated at from two to four miles from King's Mountain Station, on a railway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell this property to suit purchasers, as follows: The whole tract, including mileral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interest, payments to be one-third cash, balance in one or twy. the Northern markets, where he purchased a second stock of goods for this season, Christmas and Holiday Goods will be one of the chief attractions, and we hope our friends will remember that we will display a nice stock of these goods. ### THEY WILL LIE.

Not satisfied with lying broadcast during the campaign the Radical papers still keep it up. Within the past week they have varied the programme by dropping the solid South long enough to manufacture and regale their readers with a sensation al story about an ill feeling that has sprung up between Messrs Cleveland and Hendricks culminating in a positive break during the visit of the latter to the forme; after his visit to Brooklyn. They allege that Mr. Cleveland became incensed at the letter Mr. Hendricks wrote to a gentle man in Dubuque when the scandals against Cleveland were being so extensively circulated, and that he has treasured it up. On the visit referred to these veracious scribblers in form us that Mr. Hendricks volun teered some advice as to the presiden tial policy and as to the managemen of presidential patronage, when Mr. Cleveland informed him that (Cleveland) was President and that he felt fully competent to run the

machine without any advice from Vice Presidential quarters, whereup on Mr. Hendricks took his leave in high dudgeon. The interesting part of all this is that it is a colossal invention out of the whole cloth, there being not one word of foundation for During that visit politics was not mentioned, nor any allusion made to the administrative policy. It was purely social, in which the gentlemen met each other cordially, had a pleasent time during the brief interview and parted on the most cordial rela-

tions. What these scribblers expect to accomplish by the circulation of such stupid lies is one of the things past finding out. It must be that they lie from sheer force of habit.

Philadelphia Record: There is last an end of sectionalism in this country, but some party organs, in constantly babbling about the 'South" and the "rebels," pitifully betray the fact that they do not know it.

According to the census, San Fran cisco has the largest (44.5 per cent.) foreign born pepulation of any city in the United States Next in order comes Chicago 40 8 per cent.; Milwaukee, 39.9; New York, 39 5; De troit, 39.3; and so on down through Cleveland, Buffalo, Jersey City, Boston, Brooklyn, St. Louis, Newark, Pittsburg, Cincinnati, Providence Philadelphia, New Orleans, Louis ville, Baltimore, (16.9), to Washington, with only 9.4 per cent.

Philadelphia Record: The negroes of Atlanta, Ga., in mass meeting as sembled, have been cheering for Cleveland, and at New Orleans, in the annual parade of the Labor and Trades Assembly, white and black laborers marched and fraternized together.
