13 One Dweiling on West Trade street, two stories, 7 rooms, 2 room kitchen, well of water; two lots -99 on Trade 99 on Fourth street degitable property. Price \$4,750.

One Hundred and Fifty Acres Land 1/2 mile of the city limits, adjoining the Fair Grounds well located for a track and dairy larm; 1/2 in timber, branch running through it, about 8 acres meadow. Price \$30 per acre.

15 one unimproved lot 39x193 on Ninth street, between D and E streets. Price \$350.

16 Six Thousand Three Hundred Acres Land. The owners of The Crowder's Mountain Iron works beg to call the attention of capitalists fron manufacturers, stock and dairy men, and those who wish to settle cote sites, to their property, which offers inducements to the classes above named. The property consists of Six Thousand Three Hundred Acres of iand, socated in the counties of offers inducements to the classes above named.

The property consists of six Thousand Three Rundred Acres of iand, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlants and Chariotte Air hine railway, now owned by the Richmond and Danville railroad company. The property has been used for fifty years past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated Yellow Ridge Ore Bank, which has always fielded an ore noted for its richness in metallic iron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the dept f 147 feet, showing at that depth a vein or ore about to feet wide, and analyzing as high as 66 per cent. of metallic iron. This wein not been worked for twenty years, but the ficts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen mouths, however, the owners have discovered deposits of ore in trowder's Mountain, (five veins of iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered on the pinnacle of this mountain, which is 1000 feet above the level land, 2000 feet above the sea level, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one place about 20 feet of solid vein. This vein can be traced over the top of the mountain for over a mile, and this deposit alone would afford an almost inexhaustible supply of ore, easily worked and above the water line. In addition to this four other veins have been found on this mountain. The ore is a mottled gray ore, showing on analysis from 40 to 65 per cent. of metallic fron, with a small amount of titanic acid, and withou

quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose planacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also: In addition to iron ore the property has manganese, limestone clay for making lire-proof brick, gold and other minerals. Very pure and excellent parytese has just been found in large quantity.

cries, gold and other minerals. Very pure and excellent parytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportunities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces coas, grain and all kinds of farming products anely, and it is well supplied with water by unfailing springs and branches.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sineep and cattle. The climate is so mild that but little sheller for stock is needed in the coidest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, wainut, cedar, etc. The land is well suited to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and truits of all kinds are produced beautifully, and it is specially suited to grapes and small fronts. If could be divided into small farms that would give to each farm variety of soil, and level and hilly and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from malaria and other unhealthy influences. It is located with great convenience to raliroad facilities, being situated at from two to four miles from king's Mountain Station, on a raliway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will seil this property to suit purchasers, as follows: The whole tract, including mineral interests, for Sixty three Thousand Dollars, or will make favorable terms, reserving the mineral interest, payments to be one-third cash, balance in one or live.

Mineral Springs, and to the widely-known Cleve-land Springs.

The town of King's Mountain is also adjacent, where are good hotels, a flourishing and excellent high school, and several new and handsome churches. The owners invite the attention of all interested to this property, and ask an examination of it. Any further information regarding it will be promptly furnished by addressing R. R. Cochrans, Manager Chariotte Real Estate Agency.

The Tellow Ridge Ore Bank has been recently sold to a Pitteburg, Pa., company, and a German colonization company has recently bought 2,500 cres adjoining this property.

18 Tract of Land, 150 acres, located in Lincoln county, N. C., adjoining lands of Goodson & Payne and others, 6 miles from Denver, 23 from Charlotte, and 13 from Davidson College. Has on it a good dwelling. 7 rooms, all necessary outbuildings, good orchard, good water, and well adapted for grains, grasses, corn, wheat, tobacco, cotton, etc., 35 acres good bottom land. In fine state of ultivation. Price \$2,250. ultivation. Price \$2,250.

10 Tract of Land, 3 miles south of Charlotte, \$2 acres, known as part of the Samuel Taylor tract, on which is an undeveloped gold mine, (known in the N. C. Reports as the Sam Taylor mine), three frame tenement houses, two rooms each, good barn, good well water and good spring on the premises. Sold without reserve for \$1,750.

23 Two unimproved lots \$0x198, on north side of West Fifth street. Price \$200 each.

25 Farm of 193 acres, known as the "Model Farm," 114 miles from High Point, N. C.; a good frame dwelling 12 rooms, plastered, closets in searly all the rooms, a splendid frame barn 1560 feet, with basement stalls for 8 horses, 20 cows, and 5 box stalls; a good wood shed, smokehouse, brick spring house, wagon shed, granery, 9 building by the stalls of the stalls for 8 horses, 20 cows, and 5 box stalls; a good wood shed, smokehouse, brick spring house, wagon shed, granery, 9

house, brick spring house, wagon shed, grantery. 9
buildings on the farm, besides a 4-tamp bone
mill on the creek with sufficient water to run it
most of the year. The creek runs through the
plantation and has 22 acres of bottom or meadow
land under cultivation that will produce 75 bushels
corn per acre. The buildings on the place could
not be replaced for less than \$6.500. A desirable
place for any one wishing a will improved farm
Price \$8,000; one-half cash, balance on time at 6
er cent. Interest.

Price \$3,000; one-half cash, balance of cent. interest.

27 Seventy-five to One Hundred Acres of Land
27 in Steel Creek township, six miles from the Charlotte. On the premises is a small dwelling and three out-buildings, 55 acres under cultivation. In a good section of the country convenient to churches and schools. Price \$25 per acre. Dwelling in Mechanicsville, 1 story 8-room house, lot 99x190, fronting on C street, lot 1/36. Square 215, adjoining property of W. A. Sing and others. Price cash, \$800.

29 One story Brick Dwelling, 4 rooms, lot 47\forall x 198, in square 58, fronting on the Richmond and Danville railroad. Price cash, \$800.

30 Two unimproved lots corner Smith and 8th streets, in square 190, fronting on Smith street, in square 190, fronting on Smith street of 1x145 and 50x145. The two lots will be sold logether or separately as the purchaser may desire.

Price for the two lots cash \$508. CHARLOTTE, N. C., TUESDAY DECEMBER 2, 1884.

PRESIDENT'S MESSAGE. THE LAST FROM THE REPUBLI-

Oa a Friendly Footing with all the Nathe Border ... A Review of Our Condition and Suggestions as to Desired

To the Congress of the United States: Since the close of your last session the American people, in the exercise of their highest right of suffrage, have chosen their chief magistrate for the four years ensuing. When it is remembered that at ne period in the country's history has the long political contests which customarily precede the day of a national elecprecede the day of a national elec-tion been waged with greater fervor and intensity, it is a subject of gen eral congratulation that after the controversy at the polls was over, and while the slight preponderance by which the issue had been deter-mined was as yet unascertained, the public peace suffered no disturbance, but the people everywhere patiently and quietly awaited the result. No-thing could more strikingly illus trate the temper of the American citizen, his love of order and his loy-

alty to law; nothing could more sig-nally demonstrate the strength and wisdom of our political institutions. Eight years have passed since a controversy concerning the result of a national election sharply called the attention of the country to the necessity of providing more precise and definite regulations for counting the electoral vote. It is of the greatest importance that this question be importance that this question be solved before conflicting claims to the country, and I am persuaded that by the people at large any of the measures of relief thus far proposed

Our relations with all foreign powers continue to be amicable. With Belgium a convention has been signed whereby the scope of the present treaties has been so enlarged as to secure to citizens of either country within the jurisdiction of the other equal rights and privileges in the acquisition and alienation of property. A trade marks treaty has also been concluded.

would be preferred to continued in-

The war between Chili and Peru is at an end. For the arbitration of the claims of American citizens who during its continuance suffered through the acts of the Chilian authorities, a convention will soon be negotiated.

The state of the hostilities between France and China continues to be an embarrassing feature of our eastern

The Chinese government has promptly adjusted and paid the claims of American citizens whose property was destroyed in the recent riots at Canton. I renew the recommendation of my last annual message that the Canton indemnity be refunded to China. The true interpreation of the recent treaty with that country, permitting the restriction of Chinese immigration, is likely to be again the subject of your deliberaa second stock of goods for this season, whether the statute passed at the last session does not violate the treaty rights of certain Chinese who left this country with return certificates valid under the old law, and who now seem to be debarred from relanding for lack of the certificates required by the new.

The recent purchase by citizens of the United States of a large trading fleet heretofore under the Chinese dag, has considerably enhanced our commercial importance in the east. In view of the large number of vessels built or purchased by American citizens in other countries, and exclusively employed in legitimate traffic between foreign ports under the recognized protection of our flag, it might be well to provide a uniform rule for their registration and documentation, so that the bona fide property rights of our citizens therein shall be duly evidenced and properly guarded. Pursuant to the advice of the Senate at the last session, I recognized the flag of the international association of the Congo as that of a friendly government, averting in so doing any of the conflicting territorial claims in that region. Sub sequently, in execution of the expres-sed wish of Congress, I appointed a commercial agent for the Congo basin. The importance of the rich prospective trade of the Congo valley has led to the general conviction that it should be open to all nations upon equal terms. At an international conference for the consideration of this subject, called by the Emperor

on behalf of the United States. Of the results of the conference you will be duly advised.

The government of Corea has generously aided the United States are sensitively as a sensitive to secure suitable premises for the use of the legation. As the condition of diplomatic intercourse with eastern nations, demands that the legation premises be owned that the legation premises be owned that an appropriation be made for the acquisition of the property by the government. The United States already possess valuable premises at Tongier, as a gift from the Sultan of Morocco, as is stated hereafter. They have lately received a similar gift from the Siamese government. The govready possess valuable premises at Tongier, as a gift from the Sultan of Morocco, as is stated hereafter. They have lately received a similar gift from the Siamese government. The government of Japan stands ready to present to the United States extensive grounds at Tokio, whereon to erect a suitable building for the legation, court's use and jail, and a similar privilege can probably be secured in China and Persia. The owning of such premises would not only effect a large saving of the present rentals but would permit of the due association of extra territorial rights in those countries, and would the better serve to maintain the dignity of the United States.

The sacred righ s of hospitality which our territory afforded, the officers of this government have been instructed by prevent infranction of our neutrality laws at Key West and at other points near the Cuban coast. I am happy to say that in the only instance where these precausionary measures were successfully eluded the offenders when found in our territory were subsequently tried and convicted.

There was shipped from Philadelphia a few days ago for the New Orleans Exposition a large case filled with specimens of work done by the with specimens of work done by the least specimens of work done by the specimens of work done by the least specimens of work done by the soldiers' Orphan Institute of the Soldiers' Orphan Institute of the former city, all of whom are under sixteen years of age. The specimens include work in both wood and chipping, filling and screw-cutting in iron. There were also sent two albums of a commercial agreement looking to the adoption in January last of a commercial agreement has since the file of the former city, all of whom are under sixteen years of age. The specimens of work done by the subject of the Soldiers' Orphan Institute of the Soldiers' Orphan Institute

of Germany, and now in session at

Berlin, delegates are in attendance on behalf of the United States. Of

at the autonomous Court of the Khedive has proved a serious embar-Khedive has proved a serious embarrassment in our intercourse with
Egypt and in view of the necessary
of diplomatic relationship due to the
participation of this government as
one of the treaty powers in all matters of administration thero affecting
the rights of foreigners, I advise the
restoration of the agency and consulate general at Cairo on its former
basis. I do not conceive it to be the
wish of Congress that the United
States should withdraw altogether
from the honorable position they have from the honorable position they have hitherto held with respect to the Khedive, or that citizens of this Republic residing or sojourning in Egypt should hereafter be without the aid and protection of a competent repre-

with France, the traditional cordial relationship continues. The colossal statue of "Liberty Enlighten ing the World," the generous gift of the people of France, is expected to reach New York in May next. I suggest that congressional action be taken in recognition of the spirit which has prompted this gift and in aid of the timely completion of the pedestal upon which it is to be placed.

Our relations with Germany, a Our relations with Germany, a country which contributes to our own ome of the best elements of citizenship, continue to be cordial The United States have extradition treaties with several of the German States but by reason of the confederation of those States under the imperial rule the application of such treaties is not as uniform and comprehensive as the interests of the two countries require I propose there-fore to open negotiations for a single convention of extradition to embrace all the territory of the empire. It affords me pleasure to say that our intercourse with Great Britain continues to be of a most friendly

character. The government of Hawaii has indicated its willingness to continue for seven years the provisions of the existing reciprocacy treaty, Such con-tinuance, in view of the relations of that country to the American system of States, should, in my judgment, be favored. The revolution in Hayti against the established government has terminated. While it was in progress it became necessary to en-force our neutrality laws by institu-ting proceedings against individuals and vessels charged with their infringement. These prosecutions were in all cases successful.

Much anxiety has lately been displayed by various European governments, and especially by the government of Italy. for the abolition of our through one hundred and eighty deimport daties upon works of art. It | grees eastward and westward, and well to consider whether the pres- upon the adoption for all pu ent discrimination in favor of the production of American artists abroad of a universal day, which shall begin is not likely to result, as they them at midnight in the initial meridian, selves generally believe it may, in the practical exclusion of our painters and sculptors from the rich fields for port of the transactions of this conobservation, study and labor which they have hitherto enjoyed.

There is a prospect that the long pending revision of the foreign reaties of Japan may be concluded at a new conference to be held at Tokio. While this government fully recognizes the equal and independent status of Japan in the community of nations, it would not oppose the general adoption of such terms of compromise as Japan may be disposed to offer in furtherance of a western nations.

During the past year the increas-ing good will between our own gov-ernment and that of Mexico has been variously manifested. The treaty of commercial reciprocacy concluded January 20, 1883, has been ratified and awaits the necessary tariff legis-lation of Congress to become effect-ive This legislation bill, I doubt not, will be among the first measures to claim your attention. A full treaty of commerce, navigation and consular rights is much to be desired, and such a treaty, I have reason to be lieve the Mexican government stands ready to conclude.

Some embarrassment has been occasioned by the failure of Congress at its last session to provide means for the due execution of the treaty of July 29, 1882, for the resurvey of the Mexican boundary and the re erection of boundary monuments with the Republic of Nicaragua.

A treaty has been concluded which

authorizes the construction by the United States of a canal, railway and elegraph line across the Nicaraguan territory. By the terms of this treaty, sixty miles of the river San Juan, as well as Lake Nicaragua, an inland sea, forty miles in width, are to constitute a part of the projected enterprise. This leaves for actual canal construction seventeen miles on the Pacific side and thirty six miles on the Atlantic. To the United States whose rich territory on the Pacific is for the ordinary pur poses of commerce, practically cut off from communication by water with the Atlantic ports, the commer cial advantages of such a project can scarcely be overestimated. It is be lieved that when the treaty is laid before you, the justice and liberality of its previsions will command universal approval at home and abroad.

The death of our representative at Russia while at his post at St. Peters-burg afforded me to the Imperial government a renewed opportunity to testify its sympathy in a manner be fitting the intimate friendliness which has ever marked the intercourse of the two countries. The course of this government in raising its representa-tion at Bangkok to the diplomatic rank has evoked evidences of warm friendship and argues well for our enlarged intercourse.

The Siamese government has pre-sented to the United States a commo-

The failure of Congress to make framed and comprehensive conven-

The negotiations of this convention has for a time postponed the prose-cution of certain claims of our citizens which were declared to be without the jurisdiction of the late Spanish-American claims commission, and which are therefore remitted to diplo macy channels for adjustment. The speedy settlement of these claims will now be urged by this government.

Certain questions between the United States and the Ottoman Em-

pire still remain unsettled. Com-plaints on behalf of our citizens are not satisfactorily adjusted. The porte has sought to withhold from our com-merce the right of favored treatment The final disposition of the pending questions with Venezuela has not been reached, but I have good reason to expect an early settlement, which will provide the means of re examining the caracas awards, in conformity with the expressed desire of Congress, and which will recognize the justice of certain claims preferred against Venezuela.

The Central and South American commission, appointed by authority of the act of July 7, 1884, will soon proceed to Mexico. It has been furnished with instructions which will be laid before you. They contain a statement of the general policy of the government for enlarging its commercial intercourse with American States. The commissioners have been actively preparing for their responsible task by holding conferences in the principal cities with merchants and others interested in Central and South The Central and South American others interested in Central and South American trade.

The international meridial conference lately convened in Washington, upon the invitation of the government of the United States, was com posed of representatives from twenty five nations. The conference concluded its labors on the 1st of No-vember, having with substantial unanimity, agreed upon the meridian of Greenwich as the starting point for which it may be found convenient from zero up to 24. The formal reference will hereafter be transmitted to the Congress.

This government is in frequent receipt of invitations from foreign states to participate in international exhibitions, often of great interes and importance. Occupying, as we do, an advanced position in the world's production, and aiming to secure a profitable share for our industries in the general competitive markets, it is a matter of serious concern that the want of means for paruniform policy of intercourse with ticipation in these exhibition should so often exclude our producers from advantages enjoyed by those of other countries.

During the past year the attention of Congress was drawn to the formal invitations in this regard tendered by the governments of England, Holland, Belgium, Germany and Austria. The executive has in some instances appointed honery commissioners This is, however, a most unsatisfac tory expedient, for without some provision to meet the necessary working expenses of a commission it can effect little or nothing in behalf of exhibitors. An international international inventors convention is to held in London next may. This will cover a field of special importance in which our country holds a foremost rank, but the executive is at present powerless to organize a proper representatson of our vast national interests in this direction. I have in several previous messages referred to this subject. It seems to me that a statute giving giving to the executive a general discretionary authority to accept such invitations and to appoint honorary commissioners without salary and placing at the disposal of the Secretary of State a small fund for defraying their reasonable ex-penses would be of great public

This government has received official notice that the revised international regulations for preventing collisions at sea have been adopted by all the leading maritime powers except the United States, and came into force on the 1st of September last. For the due protection of our shipping interest, the provisions of our statutes should at once be brought into conformity with these egulations.

The question of securing to authors, con:posers and artists copyright priv ileges in this country in return for reciprocal rights abroad is one that may justly challenge your attention. It is true that conventions will be necessary for fully accomplishing this result, but until Congress shall by statute fix the extent to which foreign holders of copyright shall be here privileged, it has been deemed inadvisable to necessary because of copyright. visable to ne otiate such conventions.
For this reason the United States
were not represented at the recent
conference at Berne.

I recommend that the scope of the neutrality laws of the United States
