LEADING CLOTHES, CENTRAL HOTEL CORNER.

In rummaging among some plunder in his garret just before the campaign Ben Butler found a drinking cup made out of the timber of the old frigate Constitution, and which was presented to Hon Henry A. Wise by Commodore Percival in 1847. It was among the plunder which fell into the hands of the Federal soldiers when Henry A. Wise's residence was sacked in 1862, and was found by the General when he took command at Fortress Monroe. How it got among his household effects he does not know but supposed it was packed with other things by his servant. Just before the campaign he presented the cup to Gen. Mahone to be delivered to John S. Wise.

The rapid increase in population in Texas is illustrated by the vote at the last election, being 85,298 over the election of 1880. And yet not a full vote was cast, as the result was a foregone conclusion, and the voting a mere matter of formality. Her full vote would reach probably 400,000, which would indicate a population of 2,000,000. But Texas could easily furnish homes for 20,000,000 and have considerable room left.

B. F. Jones, chairman of the Republican National committee, is a very large iron manufacturer in Pittsburg, Pa., employing one thousand men. He was tapped pretty freely to help Blaine in the campaign, and of course sunk his money. He is now trying to get it back by making a ten per cent cut in the wages of his workmen.

A Baltimore Merchant's Hopeful View. Mr. W. S. Powell, president of the Brown Chemical Company of Baltimore, was in Savannah, Ga., a few days ago, and in response to an inquiry as to what he had gathered from the business outlook generally, replied: "There was a scare some time ago—an uneasiness which was unwarranted. It had no cause for existence. That has died away. Confidence in business and financial circles has been restored and capitalists with money are eager to loan it. There is no disturbance in the market and all unite in saying that never has the South had such a favorable outlook. Manufacturers who might be expected to be affected by the tariff have no real disturbances in their legislation. I have travelled in the South extensively, and I have never seen so much cotton being shipped. Why, you see it is every little state, that is now a source of renewed prosperity seems to be dawning upon you on every side down here."

A Washington correspondent says: "I cannot refrain from allusion to the sons of the late James Wormley. Their father's property is valued at \$100,000. The only will found was a few lines on a sheet of paper, which he evidently wrote before going to Boston. He said he gave all his possessions to his wife. The paper was not signed nor witnessed, and therefore valueless as a legal document. His sons have taken the paper and asked that it should be recorded as a will, as they regarded it as such, and would be bound by it. How few hearts are in this way!"
