The property consists of six Thousand Three Hundred Acres of 180d, consist in the counties of Gaston and Cleaveland, in the State of North Carolina, at king's sicunion Bepot, on the atlanta and Charlotte Air Lime railway, now owned by the Eachmond and Danville railroad company. The property has been used for lifty rears past as an iron property, and has been worked at various points, but chiefly at the site of the celebrated variant being the cales, which exists the celebrated variant being the cales, which exists and toughness. This wein of ore, which extends for two mines in length, has been worked to the dept of 114 feet, showing at that depth a vein of ore about 10 set wide, and analyzing as high as 66 per cent, of metallic iron, This vein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (five veins of Iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must raise it me if the mist deal rable iron properties to be louded. This have discovered on the primacie of this mountain, which is not feet above the level and, 200 feet above the set ievel, a vein of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one piace about 20 feet of solid vein. This vein can be traced over the top of the mountain, showing in one piace about 20 feet of solid vein. This vein can be traced over the top of the mountain, showing the veins beye been found on this mountain is simply inexhaustable and of good quality.

A BRIGHT IDEA.

A bright idea has struck one of the Republican editorial brethren in the North to recover the States in the North which voted against Blaine, and thus have a solid North again. He thinks this can be done by imporcing negroes from the South. It would take several thousand of them to answer the purpose, but he thinks it would pay and be cheaper than spending the large sums of money that are required at every Presidential election. It would doubtless be cheaper if they could prevail on the colored men to immigrate, and provided the colored men after they had immigrated did not come to the conclusion to vote the Democratic ticket. In that event it would be a bad investment. And then again the col ored men invited to change quarters might ask for some guarantee that they wouldn't run the risk of starving to death, or be cut down to short rations, as so many of the laborers up in those States now are, or of freezing to death in the winter time. There are, it is true, many colored people in those States who manage to get along and not freeze to death in the winter time, but they get snug berths that those imported voters could not expect to secure until they had learned the ropes.

special inducements being offered to Democrats to immigrate and take up their residences in Dixie. In that effort we would do all we could to help them, would offer the immigrants the best we had in the shop, and be really glad to see them come. We wouldn't be prevented by the contingency of losing a few States, because we think that by the time the Democratic party has run the government for four years there will be Democratic majorities in so many Northern and Western States that we could spare a half a dozen or so. Otherwise we might not incline to this plan, and would rather be dis posed to see the former method adopted. They have tried the colored colonizing plan in the border States with some success, but not on the extensive scale here proposed.

One thing is evident, our Republican friends are very much worried over how they are going to recover lost ground, and go into another race with the solid South and four North era States against them, and several others very uncertain. About the best thing they can do is to dissolve the old concern and build up a new party, which may stand a chance a quarter of a century hence.

The Union League of Philadelphia seems to be somewhat troubled over the question whether we have a Republican form of government in some of the Southern States. The South sampled the Republican form of gov ernment most approved by the Union League several years ago, and as it didn't pan out satisfactorally she concluded she would try the Demo eratic form, and since then she has been getting along very nicely. If it suits the South it ought to suit the Union League,

The managers of the New Orleans Exposition want to borrow the old Independence bell that hangs in Philadelphia, but the Philadelphians are fearful that something might happen it and don't want to let it go so far

In a recent interview with Mr. Blaine he expressed the opinion that his defeat was due to the hostility of Conkling, who draw away from him the votes in New York which would have elected him. Probably Conkling agrees with him in this opinion.

What Col. Ingeragti Thinks. Colonel Robert G. Ingersoll, who is in Cincinnati on a lecturing tour, said, in an interview Monday, regarding what might be expected of Cleveland's administration; "The Democrats are as anxious for good times as the Republicans. They want good money Responsibility want good money. Responsibility makes them conservative. They have success in 1888 in view. That will make them prudent, and there is no doubt Cleveland will do his level best to make his administration a good one, and the probability is he will succeed. I don't think that putting the Republican party out of office will send the world to wreck. There are as many Republicans now as before the election. They will have an influence that the Democratic ic party will be compelled to respect.

If Cleveland does well, as he probably will do, it will show that the country is safe in the hands of either

LOT WRIGHT'S MANY DEPUTIES.

What the Government is Asked to Pay for Election Onirages in Cincinnati. Washington, Dec. 9 .- The correspondence between Lot Wright, mar-shal of Ohio, and Attorney General Brewster, concerning the employment of supervisors and marshals in the October election at Cincinnati, was sent today to Mr. Springer, chairman of the committee on expenditures in the Department of Jusice, which is investigating the marshal's course.

The correspondence opens with a letter from Marshal Wright, under date of September 24, in which he makes a requisition for \$8,235 for the payment of marshals and their expenses. He estimates that 612 mar shals and 126 supervisors will be needed for different periods, and that the sum would be needed for their payment at the compensation fixed by law, together with other expenses, which he enumerates. He admits that this is a large demand, but that he will endeaver to make the bill as much smaller as possible. The marshal then enters upon an elaborate statement of the grounds for demanding so much money, by alleging that fraud in elections at Cincinnati is the rule, and protests that it is his earnest desire to break it up. He expresses the opinion that, large as the sum appears, it is small in comparison

with the object to be attained.
On the following day, September 25, Marshal Wright wrote to the Attorney General elaborating his demand at great length, in which he alleges that the last four elections have been carried by fraud. In addi tion to the number of marshals set cation Marshal Wright asked the privilege of employing at least thirty men as detectives for about nineteen days before the election.

On the 20th of September acting Attorney General Phillips, in reply to Marshal Wright's requisition for money, said that it could not be hon ored, because it was against the law and the practice of the department to advance funds until the service had been rendered, but assured him that when such accounts were furnished they would be audited and paid if they had no objectionable features.

The correspondence closes with a letter written by Marshal Wright un-der date of October 29, in which he renders the following bills and makes

requisition for money with which to pay them: I employed for this city special deputy marshals as follows: Seven men, 10 days each; four men 5 days each; sixteen men, 4 days each; thirteen men, 3 days each; sixteen hundred men, 2 days each; in all, 3,572 days, for the payment of which it will require \$17,860. I had to expend for transportation (absolute) necessary), horses and buggies, \$76; street car tickets, \$3; 1.300 metallic badges, \$162.50; for ribbon badges, (2,000), \$51; for printing, \$169.50; total, \$18,321.

An Editor's Testimonial. A. M. Vaughan, editor of the Greenwich Review, Greenwich, O., writes: "Last January I met with a very severe accident, caused by a runaway horse. I used almost every kind of salve to heal the wounds, which turned to running sores, but found nothing to do me any good till I was recommended Henry's Carbolic Salve. I bought a box, and it helped me at once, and at the end of two months I was completely well. It is the best salve in the market, and I never fail of telling my friends about it, and urge them to use it whenever in need.
