Hone Hundred and Fifty Acres Land 1/2 mile of the city limits, adjoining the Fair Grounds well located for a truck and dairy farm; 1/2 in timber, branch running through it, about 8 acres meadow. Price \$30 per acre.

Due unumproved lot 99x198 on Ninth street, between D and E streets. Price \$350.

The owners of The Crowder's Mountain Iron Works beg to call the attention of capitalists iron manufacturers, stock and dairy men, and those who wish to settle colonies, to their property, which offers inducements to the classes above named.

The property consists of Six Thousand Three incited acres of lund, located in the countles of

who wish to settle colonies, to their property, which offers inducements to the classes above named. The property consists of Six Thousand Three Hundred Acres of land, located in the counties of Gaston and Cleaveland, in the State of North Carolina, at King's Mountain Depot, on the Atlanta and Charlotte Air Line rallway, now owned by the Richmond and Danville rallway, now owned to the Richmond and Indonesia in the State of the celebrated Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic fron, and its softness and toughness. This vein of ore, which extends for two miles in length, has been worked to the dept f 147 feet, showing at that depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of metallic fron. This wein has not been worked for twenty years, but the facts set forth can be fully shown. Various other veins have been worked, and within the past two years very large deposits of iron ore have been discovered at other points. Within the past eighteen months, however, the owners have discovered deposits of ore in Crowder's Mountain, (few veins of Iron ore, are exposed), which were unknown before, and which will furnish an amount of good ore, easily worked and above water, that must make it one of the most desirable iron properties to be found. They have discovered en the planacle of this mountain, which is 1000 feet above the level land, 2200 feet above the sevel land, 2200 feet above the sevel land, 2200 feet above the level land, 2200 feet above the level land, 2200 feet above the sevel land, 200 feet of solid vein. This vein can be traced over the top of the mounta quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from Richmond to Atlanta, except Mt. Airy, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

manganese, limestone clay for making fire-proof brick, gold and other minerals. Very pure and excellent barytese has just been found in large quantity.

As a stock and dairy farm it offers fine opportualities to those who may wish to engage in such business. It has from three to four thousand acres of level or only slightly rolling land, which produces grass, grain and all kinds of farming products sinely, and it is well supplied with water by unfailing springs and branches.

The other 4,000 acres embraced in the mountain sides are productive of fine grass and herdage, and afford excellent natural pasturage for sheep and cattle. The climate is so mild that but little shelter for stock is needed in the coldest winters. The whole six thousand acres are now covered with a fine growth of timber of all kinds, such as pine, hickory, oak, walnut, cedar, etc. The land is well sulted to farming purposes, by those who wish to colonize. Cotton, corn, peas, oats, clover and grass, and fruits of all kinds are produced beautifully, and it is specially suited to grapes and small fruits. It could be divided into small farms that would give to each farm variety of soil, and level and hilly, and. It is situated in the Piedmont belt, which is noted for the salubrity of its climate, and the healthiness of its atmosphere. It is a region free from maiaria and other unhealthy influences. It is located with great convenience to rallroad facilities, being situated at from two to four miles from King's Mountain Station, on a raliway that has the most extensive connections with all parts of the country, and which offers great inducements to those who are trying to develop the country along its lines. The owners will sell the browners to those who are trying to develop the country along its lines. The owners will sell the mineral interest, or will sell one-half the

ultivation. Price \$2,250.

19 Tract of Land, 3 miles south of Charlotte, \$2 acres, known as part of the Samuel Taylor tract, on which is an undeveloped gold mine, (known in the N. C. Reports as the Sam Taylor mine), three frames tenement houses, two rooms east, good barn, good well water and good spring on the premises. Sold without reserve for \$1,750.

20 Two unimproved lots 50x198, on north side of West Fifth street. Price \$200 each.

25 Farm of 193 acres, known as the "Model Farm," by miles from High Point, N. C.; a good frame dwelling 12 rooms, plastered, closets in nearly all the rooms, a splendid frame barn \$550 feet, with basement stalls for 8 horses, \$20 cows, and 5 box stalls, a good wood shed, smokehouse, brick spring house, wagon shed, granery, 9

house, brick spring house, wagon shed, granery, 9 buildings on the farm, besides a 4-tamp bone mill on the creek, with sufficient water to run it most of the year. The creek runs through the plantation and has 22 acres of bottom or meadow land under cultivation that will produce 75 bushels corn per acre. The buildings on the place could not be replaced for less than \$5 500. A desirable place for any one wishing a well improved farm. Price \$5,000; one-half cash, balance on time at 6 er cent. Interest.

27 Seventy-five to One Hundred Acres of Land, in Steel Creek township, six miles from Charlotte. On he premises is a small dwelling and three out-buildings, 55 acres under cultivation. In a good section of the county; convenient to churches and schools. Price \$25 per acre.

28 Dwelling in Mechanicsville, 1 story 3-ro-m house, lot 92:190, fronting on C street, lot 1736, square 215, adjoining property of W. A. Sing and others. Price cash, \$200.

29 One story Brick Invalling, 4 roams, lot 47kx 40 list, in square 50, fronting on the Richmond and Danville railroad. Price cash, \$200.

21 Two unimproved lots corner Smith and 8th streets, in square 180, fronting on similar streets 51x145 and 58x145. The two lots will be sold together or separately as the parchaser may desire. Pricetor the two lots and \$500.

GOING SLOW.

The Legislature of this State is feel ing its way as it goes, and manifests a disposition to proceed cautiously in legislation proposing material changes or involving the expenditure of money. This is proper. There should be no hasty legislation, for hasty legislation is generally defec-tive. But, on the other hand, there should not be cautiousness to the extent of timidity. Measures that are meritorious should be considered, discussed and acted upon on their merits, regardless of local or political influences. The first question ought to be is the proposed measure right, will it result in promoting the interests of the people and the State? If so the brave member who wants to be right, and trust to the good sense of the people to sustain him, will support it, and take chances for himself and for his party on the hustings when the next political contest comes. The people like a brave man and admire an honest man, though they may not always agree with him in the positions he takes, while they depise the timid self-seeker who rises not above the level of the demagogue and dares not vote until he finds which way the popular current among his constituents runs. Many a legislator has fallen short of doing his duty from the fear of losing votes the next time he was a candidate, and measures of vast importance to the people have sometimes been lost for the same reason, which afterwards carried and were endorsed by

There are measures pending before the present Legislature, and measures which will be brought before it for consideration, which will doubtless be strongly championed and strongly opposed by some members, while others of the timid order, to whom we refer, will sit on the fence undecided as to which side to land upon. because they are not entirely satisfied as to the effect that the passage or defeat of these measures may have among the constituents whom they

While we do not want to see extravagance in the way of appropriwe want to see the save-a-dime-and-Carolina is moving in a new era, she has entered upon a new life, and we by the spirit of progress, keep abreast of the times, do what it can do, and do it bravely, to promote the development and prosperity of the State, and place her in the front rank, towards which she has been moving with steady pace during the past de

Emigrant tickets are now cut down to one dollar from New York to Chicago, with a prospect of a lower cut, one of the results of the fight between the trunk lines, in which the steamship companies are also taking a hand. Fourteen dollars from Liverpool to New York and one dollar from New York to Chicago makes pretty cheap travelling. There has also been a heavy cut in freight

The agitation against landlordism has spread from Ireland to England, and is really more serious there than in Ireland. At a meeting held in London Saturday last Henry George addressed 10,000 workmen. Pamphlets were circulated among the crowd headed "Blood, Bullets and Bayonets," and resolutions passed demanding ."the equal rights of man in the elements which the Creator has provided.

small remnants of Fine Embroideries will be closed out Raleigh Chronicle: Two accurate lawyers have made a calculation which shows that the Superior Court in Wake county costs ninety cents a minute during its session - \$54 an nour-to the State, the county and the people. Upon this suggestion they very pertinently ask whether petty larceny ought not to be a matter for the determination of a lower and less costly court. .

The war in steerage rates between the steamship lines having agencies in New York city has reached such a point that a person can now go to Europe for \$14. The price, it is stated, is a dead loss on every passenger carried, but it is regarded as not at all unlikely that a further reduction will follow.

According to "Poor's Manual," four thousand millions of fictitious watered stock is represented in the stocks and bonds of our railroads. This is the statement made by Mr. Van Wyck in the United States Senate in the debate of the interstate commerce

The war between Evarts and Morton for the New York United States Senatorship is waxing fierce. Each side accuses the other of gross corruption in the use of money to secure the election. At present Morton apparently has the inside track.

asylum at Worcester, Mass., the 64 50 other day, a negro girl, aged thirteen, who labors under the hallucination that she is a white-skinned Caucasian, though she is as black as ebony.

A Washington dispatch, speaking of Ben Butler, who was there in attendance upon the Supreme Court, says the old man seems to have all

IT WONT WORK. A Washington letter to the Balti more Sun says:

It is asserted by Virginian's here that the late resignation of the post-master at Richmond is the forerunner of similar resignations on the part of the principal federal officials in that State whose commissions expire next year. The scheme, so it is said, is to fill the place during the incumbency of Mr. Arthur, and the occupants, having then in their pockets commiscerned are certainly ignorant of the law. During the interval between March and December the Senate will not be in session, and the President has absolute power at any time to suspend any officer who holds the executive commission and make a room and was refused. He then comappointment which will be valid until

This would be in keeping with the This would be in keeping with the trickery of Billy Mahone, but it won't work for, Mr. Cleveland has ample power under the law, as suggested by the correspondent to checkmate any little moves of that sort. The Market of the searched the company of the searched th little moves of that sort. The Mahone gang and their kind must go. That's one of the first steps that must be taken in civil service re-

Mrs. E. H. Green, of New York, is the richest women in America, being worth about \$40,000,000, which she inherited from her father.

Will the Earth Grow as big as Jupiter! The following letter was addressed to the New York Sun: The astro-nomical savants tell us that in about nomical savants tell us that in about five million years the sun will be reduced to one half its present volume, and, consequently, our earth will be frozen up. So says Prof. Newcomb in his "Popular Astronomy" and Mrs. G. D. Hiscox repeats it in a paper read before the Astronomical Society, lan 5

This predicted result is based on the generally accepted hypothesis that all worlds are cooling and contracting from an original state of fiery fluidity. Now let me submit a problem to

these misguided savants:

The maximum thickness of the earth's fossiliferous strata is 15 miles ating the people's money, neither do uncovered by later formations contains fossil animals and plants which lose a-dollar policy prevail. North must have lived in a mild temperature. But it is certain that our silu rian rocks, containing the same spe-cies of animals and plants, are now want to see the Legislature, inspired | buried many miles deep under later deposits. Say it is only ten miles at the lowest. Now, what is the tem-perature at that depth? About 1,000 degrees Farenheit.

So, then, we have this result : Those palæozoic creatures which never could have lived in a climate whose mean temperature was much over 100 degrees are now in their fossil state heated up to I,000 degrees. And this your cooling

This cooling hypothesis allows on-ly 18,000,000 years for the sun to contract to its present size, and only 10,000,000 years for past life on our planet Does not every practical geologist know that life must have existed here many times 10,000,000 years? Forty-eight million at least, says Prof. Dana; 100,000,000, says Sir William Thompson; 200,000,000, says Haughton; thousands of millions say others.

The Laplace theory is a baseless assumption. There is no proof that the sun or the earth is contracting. All worlds are growing by meteori ecretion, and the only source of internal heat is the pressure of gravity Not one-sixteenth of a degree of Fa renheit radiates from the melted core of our earth to its surface. When the earth has grown to the size of Jupiter it will be red hot at the surface like that planet, and when it at tains the size of our sun it will shine like the sun. Our solar system has but one sur ; others have two and, some probably more. W. H. B.

Another Libel Suit.

Col. A. K. McClure, editor of the Philadelphia Times, and his party arrived at New Orleans Saturday evening. Before the train reache the depot a United States marshal entered the car and served a writ upon Mr. McClure, issued at the suit of Maximilian A. Dauphin, who de-mands the sum of \$100,000, with interest and costs, in atonement fo terest and costs, in atonement for alleged injury done by the editor of the Times to Maximilian's Louisiana lottery business. It is a civil action in the United States Circuit Court against Mr. McClure individually, and is substantially the same action brought in Philadelphia against the Times Publishing Company a year ago. That was dismissed by Judges McKennan and Butler because there could be no actionable injury to a could be no actionable injury to a lawless business.

Murder Statistics.

Statistics show that Ohio heads the murder list for 1884 with 189. Texas s a good second with 184. Texas we may account for, but Ohio is one of unaccountables any way and in everything, from politics to pigkilling. Illinois makes the best showing in proportion to population, having on-ly 63 murders last year, not withstanding the fact that she makes more whiskey than any State in the Union. This seems inconsistency i explained away by the logical conclusion that, knowing all about how whiskey is made, her people know better than to drink it.

Strange pets.

a deadly hate. For as soon as they were turned loose in the office they inaugurated an energetic campaign against the black and tan long tail varments with which the express office is infested. Is was war to the death, and the ordinary rats marchthe starch taken out of him, and that he has never rallied from the walloping he got in November.

Edmond Francois Valentin About, the well known French author, died in Paris last Saturday, aged 57.

death, and the ordinary rats marched out of the establishment by battalions, with the white ones in hot pursuit Mayor King says that his white pets are better than a dozen cats for getting rid of rats. They are as gentle as dogs, and allow you to pat them on the back and feed them.

A COUNTERFEITER'S DEN.

A Raid on a Gang to Active Operation

A colored individual by the name of Ben Allen, hailing from Jackson ville, Fla., was arrested here yester-day on the charge of counterfeiting. It seems that Officer N Carr received information in reference to the counterfeiting and had a warrant issued of Mr. Arthur, and the occupants, having then in their pockets commissions of several years to run, would have it in their power to use the federal patronage to help elect a Legislature next November to return Mahone. It is highly probable that there is nothing at all in this idea, but if it has been entertained those concerned are certainly ignorant of the dent of the city and no relation to Ben Allen. Mr. Carr made a raid upon the premises and found the door

between the front room and shed

room and was refused. He then commanded the door to be opened, and December. There need be no fear that President Cleveland will permit the federal patronage of Virginia to be worked for the party of repudiain the act of throwing bars of metal together with bogus coin of various

The officers next searched the house, and between the mattresses where the woman slept was found about ten dollars in bogus coin tied up in a handkerchief, while amongst a lot of old rags was found another betch consisting of 5 cent pieces 10. batch, consisting of 5 cent pieces, 10 cent pieces, and 50 cent pieces. Up stairs was found the hot moulds used

stairs was found the hot moulds used by the counterfeiter, with the coin still remaining in them. The moulds were made of plaster of paris.

Ben Allen and Louisa Allen were both taken to the office of U. S. Com-missioner Gardner, where they were placed under bonds in the sum of \$1,000 for their appearance before him on Tuesday, falling to furnish which they were lodged in jail. Dis-trict Attorney Robinson, we undertrict Attorney Robinson, we under-stand has been notified and will be here to prosecute the offenders. We hear that the spurious coin turned out by Allen is scattered all over the city. We know of some who have been victimized, but to no

serious extent. Jailor Nichols found some of the bogus coin on Allen's person when searching him. Altogether about fifty dellars in counterfeit money moulded by Allen has been secured.

Men are often heard saying that their aspiration are nigh, but every time they cough their noses go towards the earth, with indications that they will follow them soon, unless they are wise enough to take Dr. Bull's Cough Syrup in time.

Positive Cure for Piles. To the people of this county we would say we have been given the agency of Dr. Marchisi's Italian Pile Gintment—emphatically guaranteed to cure or money refunded—Internal, external, blind, bleed ng or itching piles. Price 50c. a box, No cure, no pay. For sale by L. R. Wriston, druggist.
