DR. J. BRADFIELD: Dear Sir—I have taken several bottles of your Female Regulator for falling of the womb and other diseases combined, of sixteen years standing, and I really believe I am cured entirely, for which please accept my heartfelt thanks and most profound gratitude. I know your medicine saved my life, so you see I cannot speak too highly in its favor. I have recommended it to several of my friends who are suffering as I was.

Yours very respectfully, MRS, W. E. STEBBINS, TESTED A QUARTER CENTURY It Stands Unrivaled.

LAGRANGE, GA. DR. J. BRADFIELD, Atlanta, Ga-Dear Sir: I take pleasure in stating that I have used for the last twenty years, the medicine you are now putting up, known as Dr. Bradfield's Female Regulator, and consider it the best combination ever gotten together for the diseases for which it is recommend ed. With kindest regards, I am, respectfully, W. B. FERRELL, M. D.

ATLANTA, GA. DR. J. BRADFIELD-Dear Sir: Some fifteen year ago I examined the recipe of Female Regu and carefully studied authorities in regard to its components, and then (as well as now) pronounce t to be the most scientific and skillful combinatio of the really reliable remedial agents known to science, to act directly on the womb and uterine organs, and the organs and parts sympathizing diect'y with these; and, therefore, providing a specific remedy for all diseases of the womb and of the adjacent organs and parts. Yours truly, JESSE BORING, M. D., D. D.

#### A KISS BY MOONLIGHT,

Box 28, Atlanta, Ga.

From time immemorial, no one will pretend to deny the fact that kisses have been held in high repute by both sexes-whether active or passive. It has been decided that a LEGAL KISS implies ACTION on both parties; but when a lady simply consents to be kissed without action of her lips, it constitutes only a PASSIVE kiss—a sweet deprived

Snugly ensconced within a moss-embowered and vine-clad verandah, and almost hid from view amid sweet-scented honersuckles, was seated a fair atlanta nymph, whose beautiful dark eyes, alabaster complex on and voluptuous contour, seemed to DAZE the young gent by her side, who ever and anon, while circumnavigating her stender waist, gave her a BUSS and then a RE-BUSS, to the amazement of a pedestrian who happened to be passing that beautiful moonlight night. At that moment the lover was heard to ask, "My dear darling Sarah Jane, you are becoming more beautiful every day: your eyes sparkle with more brilliancy, your once pale cheeks have been painted by the roscate hues of nature, and you seem to have entirely regained your health. Will you tell me the cause of the change ?" "I have simply used that wonderfully effective blood remedy known as B. B. B."

Senators. The New York genealogical society met at their sixteenth annual meeting Monday night. A paper was read by General James Grant Wilson, the subject being Colonel John Bayard, who was born in 1788. The subject of the paper was the twin brother of James Ashton Bayard, who was the great grandfather of the present senator Thomas F. Bayard. The fact was cited that four Bayards have occupied seats in the United States senate almost continuously during the present century, being the largest and longest representation of one family in that body. This family has been connected by marriage with the Washingtons, of Virginia; the Bassetts, Carrolls, Howards and Wirts, of Maryland; the Knobles, Kirkpatricks, Stevenses and Stock tons, of New Jersey, and with the De Lanceys, Jays, Livingstons, Pintards, Schuylers, Stuyvesants and Van Renssaelers, of New York, and the Bowdoins and Winthrops of Massachusettes. A portrait of Colonel John S. One unimproved lot 39x135 on Ninh street, between D and E streets. Price \$350. 16 Six Thousand Three Hundred acres Land.
The owners of The Crowder's Mountain from Works beg to call the attention of capitalists from nanutacturers, stock and dairy men, and those who wish to settle colonies, to their property which offers inducements to the classes above named.
The property consists of six Thousand Three Hundred Acres of land, located in the commessive teaston and Cleaveland. In the Sister of New Yorks. Gaston and Cleaveland, in the State of North or olina, at King's Mountain Deput, on the Atlanta and Charlette Air Line rallway, now owned by the Richmond and Danville railroad company. The property has been used for lifty years past as an points, but chiefly at the site of the celebrate Yellow Ridge Ore Bank, which has always yielded an ore noted for its richness in metallic from an its softness and toughness. This vein of one which extends for two miles in length, has been

which extends for two innes in length, has been worked to the dept 1 147 feet, showing at hat depth a vein of ore about 40 feet wide, and analyzing as high as 66 per cent. of neetallic ron. This yein has not been worked for twenty years, but the facts set forth can be fully shown. Various other reins have been worked, and within the past two years very large deposits of iron ore have been dis-covered at other points. Within the past representations, however, the owners have discovered de-posits of ore in Crowder's Mountain, (five veins of iron ore, are exposed), which were unknown be-fore, and which will turnish an amount of good ore, easily worked and above water, that must make it one of the most destrable iron properties to be found. They have discovered on the pinnacle

to be found. They have discovered on the planacle of this mountain, which is 1000 feet above the level land, 2200 feet above the sea level, a vain of ore eight feet wide, which crops out at various points from the top to the bottom of the mountain, showing in one place about 20 feet of solid vein. This vein can be traced over the top of the mountain for over a mite, and this deposit alone would afford an almost inexhaustible supply of ore, easily worked, and above the water line. In addition to this four other veins have been found on this mountain. The cre is a mottled gray ore, showing on analysis from 49 to 65 per cent. of metalic from, with a small amount of titanic acid, and without any supplier or phosphorus. The quantity of ore in this mountain is simply inexhaustible and of good quality. quality.

Besides Crowder's Mountain the owners possess King's Mountain, for about seven miles, whose pinnacle is the highest point of land from kich-mond to Atlanta, except Mt. Airr, in Georgia, and they have reason to believe this mountain is full of ore also. In addition to iron ore the property has manganese, limestone clay for making fire-profi brick, gold and other minerals. Very pure and ex-cellent barytese has just been found in large quan-
