Benefit Concert.

A very enjoyable evening was spent by a limited number of our people at the opera house last night, the occasion being the concert for the benefit of the Home and Hospital.

Dr. Bidez, under whose direction the Dr. Bidez, under whose direction the concert was given, was assisted by of this kind known on this road for the state Board of Education contracted for the drainage of 11,000 of the 85 000 acres of the swamy of 11,000 of the 85 000 acres of the swamy of the property of the board one half the tract to go to the contractor in consideration of the drainage and a station. This is the first occurrence shall be completed within five years. concert was given, was assisted by of this kind known on this road for some of the best talent in the city, a long time, and diligent efforts are sition to make of these lands. As

The Wilmington and Ruleigh Clubs Take in Charlotte's First, Buseball Cate Money-Wilming

The first game of professional baseball in Charlotte was that played on the fair grounds yesterday between the Wilmington and Raleigh clubs, and the number of people who hand ed in their quarters at the gate and went in to see the game attested the interest which our citizens felt in the event. There were many in the large crowd who had never before witnessed a professional game, but to them, as well as to the others, the playing proved exciting. The game opened at 4.30 o'clock, with the Wilmington club in the field, but a little "out" on the first base and a handsomely fondled fly by the centrefielder, followed by a quick shut off on the second base, brought the Wilmington boys to the bat. For the first two innings neither club scored a run, but on the third inning, the Raleigh boys patted the dust on the bome base twice, scoring two well earned runs. The Wilmington boys, in the parlance of former baseball days, were "skunked" for five straight innings, but on the sixth they made one run. The Raleigh club in the meantime had run up a score of 9; and this was all they made. Before the conclusion of the game, the Wiliningtonians got in four runs, mak ditched, and it was two days before ing the game stand: Raleigh 9, Wilmington 5. The score by innings

Raleigh, 0, 0, 2, 1, 5, 1, 0, 0, 0-9 Wilm'ton, 0, 0, 0, 0, 0, 1, 0, 4, 6-5 The playing of the Raleigh club was fine, while the poor showing made by the Wilmington players gave rise to the impression that they were 'throwing off." This is hardly probable, though, from the fact that they changed their battery three on the track in racing costume, and times during the game. They missed ted the crowd to an exhibition of one easy fly and threw several wild rent that the Wilmington club is a strong team, and no one will be sur- the purposes of emory, but it is supeprised to see them redeem themselves today. The Raleigh club has a capital battery which did some pretty work. The pitching of young ures, from No. 4 to No. 60 It is Cain was excellent, and the fielding of Houseman was notably fine. He made three splendid fly catches, the ball fitting into his hands as they were a pair of moulds made for the purpose. The batting by both clubs was good, but the Wilmington boys the field. The game was not a particularly fine one, but was quite exciting and animating The Wilming ton boys will doubtless make an ef Raleigh paid them yesterday, and an excellent game may be looked for. It may be set down as certain that the crowd that will be at the grounds to -The Wilmington and Raleigh witness it, will be an unusually large

The Case of the Barbed Wire

Mr. Robert Gray, who fenced in a part of Ninth street, as described in yesterday's OBSERVER, appeared before Mayor Johnston yesterday morning on charge of obstructing the public highway. The case was removed to justice Waring's court, where the lawyers discussed the point of easement. Mr. Gray was represented by Burwell & Walker, and the city by Judge Bynum. After hearing the argument of the lawyers, Justice Waring gave judgment in favor of the city, and imposed a fine of \$1 and costs on Mr. Gray. From the judgment of this court, the defendant took an appeal to the next term of the Criminal court. Stitt served a notice upon Mr. Gray to remove the fence within six hours, but the fence still proudly holds its own. Mr. Gray claims that the city never paid for the land, and that it belongs to himself. The city claims that by its long use as a street it has become dedicated to that purpose.

sleeping, the second struck the engine cab and the third struck the Raleigh News and Observer.

How's This for a Rooster?

The carrier boys who deliver THE OBSERVER through the city, have met with a new enemy. They have long been troubled by dogs and thieves, and now they have the chick | Water Counter. en to contend against. For several days past one of our city subscribers has been roundly abusing the carrier for not delivering his paper, but yesterday the carrier was vindicated. The discovery was made that as soon as the paper was thrown into the yard, an old rooster would run out and picking up the paper in his bill would run under the house with it. There he would tear it up into small strips and place them in the nests of two wives which he is engaged in taking care of. The two nests were found to be well stocked with the latest literature of the day.

Old Time Free Rides Played.

The stockholders' train left this city yesterday morning for Greens boro, where the annual meeting was held yesterday, with a very slim crowd aboard. It used to be the occasion for an annual free ride for about twen'y people, big and little, to each stockholder's ticket, but things have changed. The last free ride was in 1881, when the conductor lost three hours schedule time in bounc ing beats from the train. The track from Charlotte to Greensboro was lined with free riders who had been they all got home. Those who were ditched on that occasion have never had the courage to try it again, and thus it was that the genuine old free ride day passed away. It is now strictly a stockholders' train, and there is one annual holiday less in these parts.

Garnet -- A New and Important Discovery.

Messrs. Brem & McDowell, of this city, yesterday exhibited a quantity garnet, in small grains, having the appearance of coarse sand. This garnet is destined to take the place of emory, as it not only answers all rior to it for many things. The garnet is mined in Burke county and is milled in all sizes, wire mesh measmined and milled in Burke by Messrs Brem & McDowell, who are the gen eral agents for its sale. The garnet is applied to rollers over which a coating of glue has been passed, and adhering to the roller makes an implement that bids fair to supercede sent some specially fine balls across emory. These garnet rollers are used by all mill men for sharpening cards and other tools, and being cheaper than emory, it proves a popular as well as a successful article. The garnet is next in hardness to corundum, which itself is next to the diamond. Brem & McDowell have made arrangements to go into the business on an extensive scale. The discovery of this use for garnet is a recent thing and is considered a very im-

portant one for mill men.

Speaking of the will of the great farmer of Georgia, a Sparta dispatch says: The greatest interest is exhibited in the will of the late David Dickthe farmer millionaire, who died leaving all his property except a small pittance to a negress named Amanda Eubanks. As Dickson gave liberal fees to several lawyers and his administrators to see that his will was enforced, they are making a strong fight. The white heirs of Dickson, who are scattered through Georgia, New York and Texas, nave also employed able counsel and hope to attack the dead man's sanity. The will is to be probated on Tuesday, when the great fight will open.

An intimate friend of Mr. Dickson has just told the inside story of the will. Amanda Eubanks, the bene ficiary is the result of an early indiscretion of Mr. Dickson with one of his slaves. It is claimed that after the birth of this child Dickson took to reading his Bible and to prayer, and declared that it took a man of grit to take care of his offspring when faced by society and prejudice. Hence his will was intended to secure to his own child, negro though she was, all that his money could accomplish. In the will the lawyers are directed not only to see that its provisions as to his property are cartially. There is no dog pound and ing occurred near Third Creek, on ried out, but to see that the woman cinzen, wherever she may choose to live. The woman is overrun with
