LOCAL RIPPLES.

—Mr. Robert Gray has been summoned to confront the Mayor again this morning. —The Pioneer firemen, having been without a hall for some time, are becoming disheartened and talk of disbanding. —There are now one hundred and thirty guests at Cleveland Springs, and Charlotte is well represented among them. —Maxwell and Polhill, the two Southern bicycle champions, are to run off their tie at Greenville, S. C. They are both excellent wheelmen, and the race will be a fine one. —The merchants of the city are requested to make their purchase returns to the Register of Deeds, as required by law, without further delay, as the time allowed has expired. —The Southern Normal, at Lexington, L. E. Duncan, principal, is represented as being in a very prosperous condition. A systematic course of literary work under the title of "Rhetoricals" and "Drills," is one of its features. —The gold medal won by Mr. O. F. Asbury in the recent bicycle races, has been designed and is being made by Mr. John Hales, of this city. It will be a handsome thing, and when completed will be exhibited at Hales' jewelry store. —Mr. W. D. Stone has sent us a curiosity in the way of an ear of corn, or more properly speaking a combination of ears, for around the central ear, four smaller but well developed ears are growing, all from the same centre. —Policeman Joe Orr returned from a trip to Pineville yesterday, and says that crops along the road are the times that he observed is that there is not a dog in Pineville. That town was one of the seats of the late dog war. —The Salisbury Watchman this week contains a full report of the recent homicide near that place. From the Watchman's account we see that THE OBSERVER'S report was mistaken as to the place where the row originated. It was at the home of a respectable farmer named Gouley. Jarrett was the name of the man killed. The Watchman says whiskey was the cause. —An effort has been made to have all the dry goods stores in the city close at 7:30 o'clock each afternoon until September. Only three firms signed the petition, and the movement was thus defeated. It is hoped that another and more successful effort will be made. The clerks need a little rest these evenings, and trade never amounts to much after dark.

Personal Items. Miss Addie Williams and Miss Minnie Wriston returned home yesterday from Winston, where they were in attendance upon the Normal. Mrs. Parham, nee Miss Mamie Lyons, of Richmond, is in the city on a visit to her friends, of whom she has a great number. She is accompanied by her sister, Miss Agnes Lyons. —Dr. A. W. Miller, pastor of the First Presbyterian church, has gone to the mountains to spend his summer vacation. During his absence his pulpit will be supplied by visiting ministers.

EXPLOITS OF A FORGER.

Returning Christian Charity with Wicked Basality—The Englishman and the Clergymen.

Rev. Jos. Blount Cheshire, Jr., rector of the St. Peter's Episcopal church in this city, was surprised yesterday morning on being notified that somebody had been drawing on his bank account. The First National Bank had received two checks, each of \$25, one from Columbia and one from Charleston. Both checks were written on the First National's check forms. The one from Columbia was signed by Jos. B. Cheshire, Jr., and called for \$25 payable to the order of Chas. Hogg. It was endorsed by Rev. H. O. Judd, of Columbia. The one from Charleston was similar, and was endorsed by Rev. Theodore Porter, of that city. The Columbia and Charleston banks honored the checks, and Revs. Judd and Porter are out \$25 each. On seeing the checks at the bank in this city, Mr. Cheshire at once pronounced them forgeries.

About July 4th, an Englishman, half blind and sick, arrived in this city from the West and stated that he was trying to reach friends in Richmond. He had letters endorsing his character from several prominent divines, and with these he sought out Mr. Cheshire and laid his case before him. Mr. Cheshire gave the man, whose name was Hogg, a note to Maj. Moody, depot agent stating that Hogg was a railroad engineer, sick, and wanting to reach friends in Richmond, and that he had letters endorsing his character by several well known pastors. Mr. Cheshire further stated in the note that if Major Moody saw proper, to give the man a pass to Richmond. Hogg took the note and departed, but soon returned with the information that Maj. Moody was out of town. He put up a pitiful plea, and to help him along, Mr. Cheshire gave him \$4 in cash to buy a ticket to Danville. Hogg then departed with the cash, and with the belief that he had done a deed of charity, Mr. Cheshire turned to his work and dismissed the matter from his mind. He gave the man no testimonial or recommendation whatever. The poor, sick engineer, who was pining to reach his dear friends in Richmond, left Mr. Cheshire and went to the First National Bank, where he secured a few check blanks, and then he went to the depot and bought a ticket to Columbia. He doubtless retained the note Mr. Cheshire gave him to Major Moody, and with that as a guide, he drew up the checks in a handwriting very much resembling that of Mr. Cheshire. It is easy to imagine how he got the best of the Columbia and Charleston preachers, for with forged letters of recommendation from the Charlotte divine, it was an easy matter for him to get Mr. Judd and Mr. Porter to enlist their sympathy in his behalf to the extent of endorsing Mr. Cheshire's checks. Hogg is an accomplished rascal and it is to be hoped that he will be captured. Very likely he will play the same game all along the line of his travels. Mr. Cheshire is naturally greatly worried over the matter, but he is not the first good man that has been imposed upon. Hogg, we learn, is a Richmond man, and has just fled from Augusta, Ga., where he came near being captured for forgery. The press of the country should unite in an effort to head him off.

Shipwreck at Walker's Ferry.

A Charlotte man who came in on the Walker's ferry road yesterday, reports that a bad state of affairs exists at that ferry. The boat, an excellent one, measuring sixty feet in length, was swamped by the recent floods, and the proprietor has been unable so far to get it up. It sunk just below the mouth of Paw Creek, and lodged in such a manner that the mud emptied into the Catawba by the creek lodged on and around it completely burying the boat. A large number of hands were at work yesterday, removing the mud from the boat, and it is expected that the boat will be raised this afternoon. This is a wire cable ferry and is a very important one. City Real Estate. Real estate in Charlotte has been in great demand lately, and a tract of forty acres, very conveniently located, is advertised for sale by Mrs. H. M. Irwin. In itself it is a beautiful piece of property, elevated, and commanding fine views of the surrounding country, and with no unsightly buildings to mar its attractiveness. It is entered from Fifth street, near Wilkes' Iron Works, and is located in the vicinity of the Air-Line depot. The property is suitable for building lots, or it would be a good location for milling or manufacturing enterprises. Mrs. Irwin will dispose of the property upon reasonable terms.

A Sharp Game.

The police yesterday afternoon found an old colored woman lying on Second street, evidently in a dying condition. She was removed to a place of shelter and Dr. Bratton, the county physician, was summoned to attend her. On seeing the woman Dr. Bratton recognized her as an inmate of the county poor house, and further discovered that she was merely 'cooning.' She had run off from the poor house, and not fancying the long, hot walk from the city back to that institution she had concluded to play sick, in the hope that the city would hire a wagon and send her back. She had played this same game successfully once before, but on finding that it wouldn't work yesterday, she suddenly regained her health and commenced tramping back 'over the hills to the poor house.'

Mr. Sondley's Downfall.

G. B. Sondley, a former insurance man of this city, whose arrest in Atlanta for forging railroad tickets was noticed yesterday, has been sent to jail in that city under a bond of \$1,000 for future trial. The Constitution says: 'Sondley's case is a sad one. He is a young man, a fine printer and a good railroad man. He was a conductor on the East Tennessee road a long time, and although he had been discharged, he was in a fair way to recover his position in a few days. While he was running on the East Tennessee he became acquainted with a young lady at Indian Springs. The young lady is well known in Butts county, and she and Sondley were to have been married next month.'

Thermometer Pointers.

At nine o'clock yesterday morning the signal office thermometer registered 89 degrees, and the mercury rose steadily until in the afternoon, when a breeze sprang up which had a slight effect on the temperature. The highest point reached by the mercury was at 2 p. m., when it registered 95 degrees in the shade. The day was believed to be the hottest of the summer, though it was cool here compared to some places north of us. The mercury was 95 degrees in Washington City at 9 a. m., and by noon it reached 101. We have the consolation of knowing that Charlotte is not the only place where it was slightly calorific yesterday.

A WILLING "GOD BLESS YOU"

An Extraordinary Case of Cure by the Mrs. Joe Person Remedy. The following letter, dated January 14, 1885, has just been received, and will be shown to any person who is interested in the subject. Names and dates are withheld for obvious reasons: "Mrs. JOE PERSON: "Madam—On the 29th of last May a boy child well developed in every respect was born in this city, but the "King of Terrors" began to chisel about his little heart, and notwithstanding his plump and vigorous constitution the poison in the blood soon began to manifest itself in what the medical men term "Eczema," "Pupura," or "Hereditary Taint." Some old "mothers" concluded the child had the "yellow thrash." Yet whatever the disease it was certainly a stubborn master for the doctors. The mother took the little sufferer to the country, hoping that the pure fresh air might be beneficial, and Dr. —, of Lumberton, was called to treat the case. He pronounced it Eczema, and did all he could for it, but to no purpose, any more than to check the fever to which the disease subjected the boy. "At the first frost the victim was again removed to the city, and immediately Dr. — was called and he pronounced the disease "Pupura," and prescribed accordingly, feeding up the disease on iron and other minerals until the babe's mouth became so sore that for two weeks it did not nurse. A friend suggested as a last hope and resort "MRS. JOE PERSON'S REMEDY!" "All means of procuring any more help or medicine had failed, and in this hour of deepest despair the poor mother went and asked her druggist to let her have one bottle and one package of the medicine, and was refused, because she did not have the money to pay for it. She pawned her wedding ring and raised \$1.50 to pay for the medicine. "When she gave the child the first dose, three weeks ago to-day, the little fellow was a mass of scaly sores from the hips to the knees and all over his face, and had never borne his weight on his feet. To-day, by the help of God and a faithful administration of the Remedy the child is well and strong in the legs, and last Sabbath morning while the mother was weeping at the necessity of drying up her breast, he took hold and nursed as strong and vigorous as ever. The administration of the Remedy is all that is needed to effect a complete cure. "Believing in its efficacy I have prevailed upon Mrs. — to take it for Inflammatory Rheumatism."

MOTHERS' FRIEND

MAKES CHILD-BIRTH EASY. The time has come at last when the terrible agony attendant to this very critical period in a woman's life can be avoided. A distinguished physician, who has passed the greatest portion of his life (forty-four years) in this branch of practice, left to child-bearing women this "precious legacy and life saving appliance," "MOTHERS' FRIEND." And today there are thousands of the best women in our land who, having used this wonderful remedy before confinement, rise up and call his name blessed.

We receive letters from every section of the country thanking us for placing this preparation in the reach of suffering women. One lady from North Carolina writes us that she would like to thank the proprietors on her knees for bringing it to her notice, as in a previous confinement she had two doctors, and they were compelled to use chloroform, instruments, etc., and she suffered almost death; but this time she used "MOTHERS' FRIEND," and her labor was short, quick and almost like magic. Now why should a woman suffer when she can avoid it? We can prove all we claim by living witnesses, and anyone interested can call, or have their husbands do so, at our office and see the original letters, which we cannot publish.

This remedy is one about which we cannot publish certificates, but it is a most wonderful medicine to be used after the first two or three months. Send for our Treatise on the "Health and Happiness of Woman," mailed free, which gives all particulars. BRADFORD REGULATOR CO. Box 28, Atlanta, Ga. Sold by all druggists.

GREGORY'S DYSPEPTIC MIXTURE

A Positive and Permanent Cure for Dyspepsia and Indigestion. SYMPTOMS OF DYSPEPSIA.—One of the most common ailments of all, is an uneasiness in the region of the stomach felt soon after taking food. This uneasiness is variously described as fullness, weight or oppression—a feeling as if the stomach was "revolved." The same feeling is sometimes felt after drinking water. Flatulency, or gaseous distension of the stomach and bowels. Eructation, or belching of the gas or "wind" from the stomach. Vomiting or spitting up of the food. Water-brash and heartburn, and frequently pain in the region of the heart, with palpitation or "fluttering," with quick, short or difficult breathing. Headache, with constipation of the bowels, dizziness, "swimming" or "lightness" of the head. Foul tongue, with a "bad," bitter, or unsual taste of the mouth. Torpid liver, with a sense of fullness in the right side and tenderness in the middle of the back in the region of the kidneys with dark colored urine. Gout which is often attributed to consumption, to which dyspepsia may lead if neglected. Asthma, which is often caused by dyspepsia, and often produced from other causes, is aggravated by dyspepsia. Indigestion, "acid eructations," "acid eructations," inability to sleep, and when it can be obtained it is often disturbed by indigestion, heartburn, etc. These are some of the most prominent symptoms of the disease, and a very few persons being entirely at all times free from it. One or more of these symptoms being present in all cases, depending upon individual peculiarity, length of time the patient has suffered from it, and the other diseases, complications, etc., to which this disease has given rise. Sold by all druggists.
