

The Charlotte Observer.

PUBLISHED DAILY EXCEPT MONDAY

CHAS. R. JONES, Editor and Proprietor.

(ENTERED AT THE POSTOFFICE IN CHARLOTTE, N. C., AS SECOND CLASS MATTER.)

TO CITY SUBSCRIBERS WHO HAVE BEEN PAYING BY THE WEEK.

For eighteen months past we have been furnishing the DAILY OBSERVER to a number of subscribers in Charlotte for a subscription price payable by the week to the carriers. The system has proven unsatisfactory to both subscriber and proprietor, and will be discontinued. On and after July 31st the carriers will be instructed not to collect the weekly subscriptions as heretofore. The paper will still be sent by the week to those who desire to take it in that way, but only to those who call at the office and pay for it in advance.

SELECTING GRANT'S BURIAL PLACE.

Order of the Removal of the Remains from Mt. McGregor.

NEW YORK, July 27.—Col. Fred Grant and Jesse Grant, who arrived on an early train on the West Shore Railroad, got to the city hall at half past nine o'clock this morning for the purpose of conferring with Mayor Grace upon the arrangements for their father's funeral. The mayor did not arrive at his office until half an hour later, and the visitors were shown into his private room. In the meantime Gen. Ferry arrived at the city hall to represent Gen. Hancock in making arrangements for the obsequies. After the mayor's arrival the parties were closeted together for some time. It is said that during the day they will visit Central Park and inspect the different sites suggested for the place of sepulchre. Whether an agreement in this matter will be reached today or not the mayor was unable to say. At 11:40 a. m. Col. Fred Grant, Jesse Grant, Mayor Grace and President Sangor, of the board of aldermen, went to Central Park, where they were met by Park Commissioners Crinmans, Borden, Powers and Beekman. After viewing the sites the party will return to the city hall when a definite selection will be likely to be made.

MT. MCGREGOR, N. Y.—A few visitors were on the mountain this morning, and a guard detail and a private body guard are in charge of the cottage. The body will be taken from here to Saratoga in an open car known as an observation car. At Saratoga it will have to be transferred because the Mount McGregor road is of the narrow gauge style. The private cars of Wm. H. Vanderbilt and President Webb and one baggage car will await the mountain train at Saratoga upon the tracks of the Delaware & Hudson Canal Company's road. The remains will be placed in Vanderbilt's, in which the family will accompany them. The other car will be occupied by others of these closely interested in the obsequies. At Albany the ladies will be transferred to another special train in which they will be taken to New York, the funeral train waiting in Albany until Wednesday afternoon to continue the journey with the remains to New York.

NEW YORK.—Gen. Grant's two sons in company with Mayor Grace, visited Central Park and Riverside Park today to view various spots suggested for Grant's last resting place. The sons returned to Mt. McGregor to night to consult with their mother. Very many offers of military escort to Gen. Grant's body have been made to Gen. Hancock, and many suggestions have been received, but no conclusion has as yet been reached.

NEW YORK.—Gen. Grant's sister, Mrs. Mary Grant Cramer, accompanied by her husband, Dr. M. J. Cramer, recently United States Minister resident at Berne, Switzerland, and Jesse Grant, their seventeen year old son, arrived yesterday on the Steamer Wieland, from Hamburg. When the pilot went on board Mrs. Cramer asked: "How is my brother, Gen. Grant?" "The pilot had been at sea for some days, answered, "He is quite sick at Mt. McGregor in this State."

The lady's fears were allayed. But on her arrival at quarantine, Health Officer Smith boarded the vessel, and, in answer to a repetition of the above question, informed Mrs. Cramer as quietly as he could of the death of General Grant the day before. She was one day too late.

Those who were present say the grief of the sister of the great general was intense, and for a time she hid her face on her son's shoulder and sobbed aloud.

A Curious Express Package.

ELROY, Wis., July 26.—A box was shipped by express from Black River Falls to Chicago Saturday night. The messenger became suspicious of the contents, and telegraphed to the authorities here. On the arrival of the train at this place yesterday the box was opened, and inside was found a man armed with a thirty calibre revolver, a bludgeon, a razor, a bottle of chloroform and a bunch of cord. He refused to give his name. The box was shipped to Sydney L. Barnard, Chicago. Two more persons supposed to be confederates were arrested here and all three are in jail. It is supposed that they had planned to rob the mail and express car. Nothing is known here regarding the identity of the men.

A FATAL DISEASE.

That is Sweeping Off Large Numbers of Cattle and Horses in Louisiana.

A New Orleans dispatch says: From the Teche country, in Western Louisiana, reports are received of the terrible state of affairs prevailing in the sections infected by the cattle plague. A trustworthy citizen heard of one place today south of here where there are over fifty carcasses decomposing in about 25 acres. The stench at night is reported as being intolerable. The police jury have taken steps today to destroy these carcasses. Oil has been bought for the purpose. It is said that two gallons of oil judiciously used will consume a carcass. A serious difficulty in the way is to get parties to execute the work. A large hardware dealer in this place said today that he had sold a number of gimlets to people from the country. Upon inquiry he learned that they were used for boring holes through the skulls of sick horses to let, as they expressed it, the bad water off the brain. A large stock raiser near this place lost a very valuable blooded mare today.

The afflicted animals manifest the symptoms of blind staggers and die very shortly after taking the malady. Colts and calves are just as liable to take the disease as older stock. The number of carcasses on the prairie is too numerous to admit of burying. Mr. Joseph Jefferson lost a fine breed stallion this week. He proposes to dispose of all carcasses in his pastures by burning them, and has purchased a quantity of oil and tar for the purpose. A plague so general and fatal was never before known in this section.

NICE PULPIT TALK.

How an Indiana Preacher Raised a Commotion at a Campmeeting.

LAFAYETTE, Ind., July 27.—Quite a flurry was created at the Battle Ground campmeeting yesterday by Rev. W. H. Hickman, a Methodist preacher from South Bend. The reverend gentleman, in an address on the subject, "What shall we do with the negro?" took broad grounds in favor of miscegenation or amalgamation. He denied that colonization was possible, as was also the theory advocated by President Madison of establishing the blacks as a separate nation. Nothing but the intermarriage of the races could solve the problem. As a matter of course, the "brethren and sisters" who listened to the discourse were horrified, and the feeling is very intense against Brother Hickman for disseminating such heterodox views within the sacred precincts of the camp ground.

Shot an Alleged Corn Thief.

MACON, Ga., July 27.—Yesterday afternoon Wash Roberts, white, shot and instantly killed Tobe Rivers, colored, on the plantation of Mrs. McWilliams, fourteen miles from here, in Twiggs county. Roberts is overseer and Rivers a tenant. The former accused the latter of stealing corn from the field and carried him to the spot to identify his track. The negro ran and was fired at by Roberts and killed. Roberts afterwards escaped, and has not since been found. No inquest was held.

Shot by a Detective.

QUEBEC, July 27.—Robert Kerr, of Minneapolis, was arrested today on the International express, going east, by Detective Kehoe, of Chicago. Kerr was asked to grant a few minutes conversation, and the two entered a postal car. Kehoe rushed out the car immediately afterwards exclaiming that Kerr attempted to shoot him. Upon investigation Kerr was found lying dead in the car. Kehoe was arrested and brought here with the corpse.

Geronimo Heard From.

SAN FRANCISCO, July 26.—A special to the Call from Wilcox, Arizona, says: "Geronimo and his band are reported to be in Dragoon mountains. They ran off a quantity of stock near Charleston on Friday, and committed several depredations, but no particulars are obtainable. Two companies of troops have been ordered from Camp Grant to go to the Dragoon mountains to capture them."

Red Hot Washington.

WASHINGTON, July 26.—Three fatal cases of sunstroke were reported at police headquarters here today, making a total of seven cases from sunstroke within the past ten days. The figures of the signal service office show that the average temperature in this city during the last ten days was 94.27-100. This average is in excess of any other city in the United States.

Weather Indications.

South Atlantic States, occasional local rains except in southern portion, southerly winds, fair weather, nearly stationary temperature.

SOUTHERN COTTON MILLS.

Small Meeting of Mill Men at Augusta--Resolutions Adopted.

AUGUSTA, Ga., July 27.—The meeting of the Southern mills is rather a failure in point of number, and at 12 o'clock had not been called to order, though the time of meeting was set for 11 o'clock. Little interest is manifested, and half of the mills in this city are not represented. The representatives are assembled in the Commercial club rooms and are chatting among themselves, but no steps towards an organization have been taken. The following mill men are present: President H. H. Hickman, Graniteville mills; President Jas. B. Verdery, Enterprise manufacturing company; President W. E. McCrery, Riverside mills, all of Augusta; President R. B. Bullock, of Atlanta mills; President (athron, Stone mills, Enterprise, Miss.; D. R. Wagner, secretary of Yoatna mills, Water Valley, Miss.; E. L. Dennard, of Houston factory; Frank L. Emery, of the J. M. Worth manufacturing company, Worthville, N. C.; A. E. Hutchinson, of Rock Hill, S. C.; and President Brock-er, of the Pioneer mills, Memphis.

At 12:30 President Brock-er, of Memphis read the call for a meeting. The convention was organized by calling President Baker to the chair, and President McCoy to act as secretary. President Cathron offered the following resolutions which were unanimously adopted: Resolved, That this convention of Southern mill managers recommend that each mill in the South at its own convenience suspend operations for at least thirty days, between the first day of August and the first day of November next ensuing.

FOREIGN NOTES.

The Plague in Spain--Khartoum Must be Retaken--The Munster Bank Services in Memory of Gen. Grant.

MADRID, July 27.—Incomplete returns of the progress of the Cholera in Spain yesterday give the number of new cases at 2488, and of deaths at 879. Returns from all but 5 of the cholera infected districts in Spain place the number of new cases of the disease yesterday at 2542, and of deaths at 919. The contagion has spread to the province of Logrono, where several cases have already occurred. The troops stationed in the city of Saragossa, where disease is now raging have been supplied with guitars to keep up their spirits, and the music of these instruments can be heard day and night.

Encampment and Enchantment.

To the Editor of THE OBSERVER.

ASHEVILLE, N. C., July 26.—Everything is moving along excellently at Camp Seales. A delightful shower of rain yesterday laid the dust and refreshed the vegetation. This morning at 3 o'clock an unexpected drum beat called the whole State Guard from slumber, and in two and a half minutes the three regiments were in ranks, and volley after volley from their guns in the still night air made many a one think of the days of '61. On Wednesday His Excellency the Governor will review the troops, and a grand street parade will be given through the principal thoroughfares of the city. At night a reception and ball will be given at the Swannanoa Hotel complimentary to the Governor and the State Guard. This will be a grand affair. The spacious ball room is 150x50 feet, and the band is an elegant one. Under the management of Rawles Brothers it will certainly be a brilliant affair. At the Swannanoa are stopping Gen. Drum, U. S. Army, Judge Stanley Matthews, and other distinguished men. It is really gay at this superb establishment.
