FROM THE CAPITAL.

OBDER CLOSING THE GOV. ERNMENTAL DEPART-

Appointments, Nominations and Dismissals --- No Power to Declare the Burial Day a National Holiday.

Washington, Aug 6.—The President today appointed Wm. S. Evans to be postmaster at La Grange, Ga., vice Jno. C. Beall, suspended; Richard Holmes at Natchez, Miss., vice Wm. McCary, suspended; Wm. W. Gay, at Wilson, N. C., vice Mrs. Virginia Sharpe, suspended.

ginia Sharpe, suspended. AUSTRIA REFUSES TO RECEIVE MR. KEILEY.

The Department of State is in recept of a cablegram from Mr. Lee. secretary of the American legation at Vienna, saying that the Austrian government has positively declined to receive Mr. Keiley as United States minister. The authorities of Austria give no reason for their action, and merely say they will not receive the official who has been appointed. Mr Keiley is now in Paris. where he has been for some veeks. He also has been informed of the decision of the Austrian authorities. Mr. Lee has been designated to act a charge d'affairs for the present

GIVING THE DEPARTMENT CLERKS A CHANCE TO GO TO THE FUNERAL.

The President today issued the fol lowing executive order: It is hereby ordered that the several Executive Departments, the Department of Agriculture and the Government Printing Office, be closed tomorrow, Friday, Aug. 7th, at 3 o'clock p. m., to enable such employes as may desire to attend the funeral of the late ex-President Grant in New York. A previous order provided for the sus-The District Commissioner today ed an order closing all offices under his jurisdiction on Saturday.

SURVEYORS OF CUSTOMS.

The President today appointed to be surveyors of customs: John T.

The Secretary of the Treasury to day promoted J. R. Lake, clerk of class 4, to be assistant chief of the customs division of the secretary's office. He also directed the dismissal of the following special inspectors of foreign steam vessels: Samuel F. Phillips, Michael Conklin and David Gillespie at New York; Fred Washington at New Orleans; Elisha Whitney, at Boston; Nelson Pierce at San Francisco, and John Laughlin, at Philadelphia. Lewis M. Preclock, clerk oboard of directors at New York was dismissed, as was also Thomas C. Taylor, a clerk of class 4 in the second auditor's office.

NO POWER TO MAKE IT A NATIONAL HOL- Trade Street.

The President is in receipt of a number of communications from difnumber of communications from different parts of the country suggesting and recommending that he declare next Saturday a national holiday, upon which day there shall be a suspension of both public and private business. The President is, however, not empowered to declare a national holiday, as his jurisdiction in that respect does not extend beyond the limits of the District of Columbia. His authority here is similar to that of Governors in their respective of Governors in their respective States. The advisability or propriety of directing the suspension of private business in Washington has proba-bly not occurred to the President, who felt that all the action necessary had been taken in his proclamation of July 23, in which he directed that all public business be suspended on the day of Care Care and C the day of Gen. Grant's funeral. The President cannot make Saturday a legal holiday throughout the country beyond directing the suspension of public business, and recommending the suspension of private business. he former he has already done, and recommendation for the latter uld not at all be compulsory.

COFFINED ALIVE.

Priest's Horrible Fate and

Death. London, August 5 —A terrible incident in the cholera epidemic is reported from Spain. A devoted priest, who had labored zealously among the tricken people, was himself finally prostrated by the scourge. The disase passed through all its regular tages and the prostrate in the stages and the stages are stages as a stage and the stages are stages and the stages are stages are stages as a stage are stages are stages as a stage are stages are stages as a stage are stages as a stag tages and the priest apparently died the frightened people who were bout him made only a hasty examiation of the body and placed it in a offin, screwed down the lid and left to the body and placed it in a offin, screwed down the lid and left to the body and placed it in a offin, screwed down the lid and left to the body and placed it in a offin, screwed down the lid and left to the body and placed it in a offin, screwed down the lid and left to the body and placed it in a offin, screwed down the lid and left to the body and placed it in a offin the body and below a offin the body over night to be buried in the orning. When the bearers came a the morning to remove the body a earful sight presented itself. The offin had been upset and had fallen om the table to the floor. The ody was twisted around and partial-doubled, showing that it had been rithing in mortal agony. The face as appalling in its expression of opeless horror. The hands were seding. It is feared that many ses of premature burial may have consequence of the great fright mong the people, which causes them get rid of the dead at the earliest

DALLAS, Tex., Aug. 5.—The comint to President Cleveland by is cattle men leasing lands in Indian territory that Texas was leady stocked to its utmost capacisounds strange in the face of the established fact that there are y millions, acres of school and ersity lands subject to sale and e in Texas.

DR. LESLIE'S

ASKINE.

A POSITIVE CURE FOR

Constipation, Biliousness,

YSPEPSIA

This medicine is a combination of pure vegetable matter which acts entirely on the digestive organs atting them in a perfectly healthy condition, and removing all matter contained in the stomach that sees not belong there. No malaria or other blood disease hangs around the system where KASKINE is

WHAT CAUSES DISEASE.

The accumulation of garbage about the premises, which ferments and decays, is acknowledged to be a prolific generator of disease likewise. The accumulation of undigested food in the stomach ferments and decays, the gases arising therefrom poisons the blood, and as a consequence diseases of various forms are generated. A few doses of KASKINE puts the digestive organs in order, cleans out the stomach, a perfect circulation of blood and perfect digestion is obtained, and all liability of disease removed.

PREVENTION OF DISEASE.

No person whose digestion is healthy need have any fear of cholera or other contagious disease, and nothing will put the digestive organs in a healthy condition as quickly as KASKINE. Be sure to keep your stomach in good order by using KASKINE, and you may laugh at contagion.

This valuable remedy is put up in a condensed form, and two to four bottles will cure the most obstinate case of habitual constipation. Price 50 cents and one dollar a bottle.

Mason & Hamlin O Packard Orchestral Bay State Organs, 15 days trial. Hamlin Organs, Orchestral Organs,

Facts are Stubborn Things

While visiting Tarboro, on July 8th, I was requested to vi-it Miss Mary E. Staton, seven mile from town, who for seven weeks had been suffering exeruciating agony from some blood poison, supposed to be poison oak. On last Tuesday, at her request, I went to see her, and expected to see great suffering, but was not prepared for the scene that met me. I found the patient broken out all over with an eruption which had occasioned such intense itching that during the paroxysms she was perfectly uncontrollable, and had scratched and torn herself to pieces until her agony was indescribable. During these paroxysms she would have to be held, and her screams could be heard a long distance. She would pray for death to come to her relief; her whole body was purple and raw, and exneded a yellow water which satuarted the bed through several thick quits—that day she had postessed herself of a thick gutta percha coarse comb and before she could be prevented, had raked herself with it with such force as to break out some of the teeth, thus adding to her agony. She was attended by as good phys clans as Tarboro and her neighborhood could afford, but their treatment afforded only occasional relief by outward applications, and no permanent benefit, as the paroxysms continued to return with increasing violence. Upon viewing the condition of the patient I called thefamily together and told them to bear witness that I promised hor requirement, as I had never even imagined such suffering, but it could do no harm and might do good. I then gave her a large dose of the Bitters, and as soon as the paroxysm was over, I sponged her whole body with the Wash, while doing so she would call out. "Oh, that does feel so good." I then gave her another dose of the was over, I sponged her whole body with the Wash, while doing so she would call out. "Oh. that does feel so good." I then gave her another dose of the Bitters, and she was soon in a sweet sleep. I continued this treatment, and whenever the itching would recur, I would sponge the body instantly with the Wash, which, in every instance allayed the irritation or itching, and warded off those violent paroxysms. She did not have an attack during the day, and by 4 o'clock on Wednesday afternoon, the disease was under perfect control. The itching would recur, but every time was allayed by the application of the Wash. I left her Wednesday easy and comfortable, with directions for the treatment to be continued during the night, and as long as was necessary. I came again to see her to-day, Saturday, the 12th, and found her up and dressed, and in the regular prosecution of her household duties. She is entirely relieved, although she will, of course, have to take the Bitters some time to completely eradicate the poison from her blood During Wednesday, she would frequently call for the Bitters, as she craved its soothing and quieting effects, and during the day I administered a whole bottle, with the above results, thus proving, what I

bottle, with the above results. thus proving, what I have always claimed, that my Remedy is an Infallible antidote for all blood impurity. I am,

A WILLING "GOD BLES

An Extraordinary Case of Cure by the Mrs Joe Person Rem-

The following letter, dated January 14, 1885, has ust been received, and will be shown to any person who is interested in the subject Names and dates are withheld for obvious reasons: MRS. JOE PERSON:

"Madam-On the 29th of last May a boy child well developed in every respect was born in this city, but the "King of Terrors" began to chisel about its little heart, and notwithstanding its plump and vigorous constitution the poison in the blood soon began to manifest itself in what the medical men term 'Eczema,' 'Pupura,' or 'Hereditary Taint.' Some old 'mothers concluded the child had the 'yellow thrash.' Yet whatever the disease it was certainly a stubborn master for the

The mother took the little sufferer to the country, hoping that the pure fresh air might be beneficial, and Dr. ---, of Lumberton, was called to treat the case. He pronounced it Eczema, and did all he could for it, but to no purpose, any more than to check the fever to which the disease sub-

"At the first frost the victim was again removed to the city, and immediately Dr. -- was called and he pronounced the disease 'Pupura,' and prescribed accordingly, feeding up the disease on iron and other minerals until the babe's mouth became so sore that for two weeks it did not nurse, A friend suggested as a last hope and resort

'MRS. JOS PERSON'S PEMELY.' "All means of procuring any more help or medicine had failed, and in this hour of deepest despair the poor mother went and asked her druggist to let her have one bottle and one package of the Remedy, and was refused, because she did not have the money to pay for it. She pawned her wedding ring and raised \$1.50 to pay for the medi-

"When she gave the child the first dose, three weeks ago to-day, the litrie fellow was a mass of scaly sores from the hips to the knees, and at seven months old had never borne his weight on his feet. To-day, by the help of God and a faithful administration of the Remedy the child is well and strong in the legs, and last Sabbath morning while the mother was weeping at the necessity of drying up her breast, he took hold and nursed as strong and vigorous as ever. The administration of the Remedy is still kep up to effect a complete cure.

"Belleving in its efficacy I have prevalled upon Mrs.— to take it for Infiammatory Rheumatism."

AND READ EVERY WORD OF IT THIS IS FOR OHABLOTTE PEOPLE.

> -:0:-RHEUMATISM AND TONIC.

CHARLOTTE, N C., Dec. 10, 1884. I have used Mrs. Joe Person's Remedy, and it is the finest medicine I ever used for Rheumatism. For more than twenty years I have been afflicted with muscular Rheumatism, and had tried every known remedy, but without avail. I was often so bad off and suffered so much that I could not lie down, but had to be propped up in bed. I had been subject to these severe attacks for twenty years. I tried Mrs. Person's Remedy last spring, and am perfectly cured. It is the best medicine in the world, I think. No words of mine can express the benefit I have derived from its use I suffered from palpitation of the heart upon the least exertion. Of that I am perfectly relieved. My health is now perfect, and it is all owing to Mrs Joe Person's Remedy. I am strong and well, and can take extended exercise without fatigue. I advise all who need a Tonic, or are suffering with Rheumatism or Eczema, to take it. I was induced to try it by it having cured my little grandson of MRS. S. M. HOWELL.
