 the streets, which being secured, the horse cars will be run in Charlotte. Both these enterprises will bring money to Charlotte and add to the city's prosperity and progressiveness.

ELECTRIC LIGHT.
 During the past year one electric light plant has been established in the city at a cost to the purchasers of \$8,000. The light was placed in the cotton seed oil mill of Oliver Brothers, and has been giving satisfaction, the lamps during the milling season, having been lighted from dark to dawn, uninterruptedly save on Sunday nights. The contract for another electric light plant has been given out by Oates Bros, proprietors of the Charlotte cotton mills. Mr. D. A. Tompkins, to whom the contract was awarded, is now engaged in the work and will shortly have the mills lighted by one hundred arcs. An electric light plant was purchased during the past year for use at the Rudisill gold mine, but has not yet been put in working order. Several propositions to light the city by electricity have been made to and considered by the board of aldermen, but no definite action has been taken.

BUILDING AND LOAN ASSOCIATIONS.
 Charlotte's three Building and Loan Associations have done a flourishing business during the past year, and the close of business September 1st found them all in a prosperous condition. The Mutual Building and Loan was organized April 1881, and its present paid up cash capital is \$109,995.68 invested in 109 real estate mortgages and 18 stock notes being loans with the stock as collateral. The loans average a little less, therefore, than \$800. Rate of interest charged 8 per cent, reduced to 7½ to borrower by profits from shares redeemed and compound interest. There are now outstanding 14,111 shares first class, 298, second class and 442 third class. Value of shares to date first class \$70,300, second class \$19,822, and third class \$5,777. This association is what is called the permanent, or perpetual, having adopted the plan of opening a new series every year.

The Mechanics Perpetual Building & Loan, yesterday opened its sixth series of stock. This association has outstanding in loans \$43,458.10; cash \$397.32; stock \$43,355.42. Its stock is at present worth, first series, \$37.21 per share; second series \$29.06; third series \$21.25; fourth series \$13.61, and fifth series \$6.65.

The Peoples Building and Loan is the oldest organization of the kind in the city, being now in its fourth year. The report of the secretary just made out, shows a net gain for the past twelve months of \$6.25 per share. This association has outstanding in loans \$23,509.85; cash \$1,500. The premium per share has grown to \$13.

New York Bank Statement.
 The bank statement for the past week shows: Loans, increase, \$4,743,300; specie decrease, \$1,351,500; legal tenders, decrease, \$3,743,100; deposits, decrease, \$336,800; circulation, increase, \$23,100; reserved increase, \$50,110. The banks now hold \$518,897,748 in excess of the 5 per cent rule.

A Kentucky Assassination.
 LOUISVILLE, KY., Sept. 4.—Lindsay Buckner walked up behind A. L. Snyder last night and shot him dead. Buckner escaped.

Fatal Gas Explosion.
 DECATUR, ILL., Sept. 4.—An explosion of gas in the mine of the Decatur Coal Company severely burned four miners, two fatally.

It is said that the development of the phosphate industry in North Carolina has brought \$50,000,000 into the State since 1868.

It is estimated that that it will require \$19,055,555.52 to run the city of Philadelphia during the next fiscal year.

How few understand what a perfect fit is! That painful period of "breaking in" is deemed essential to every new outfit. This is positively unnecessary. The scientific principles applied to the numerous shapes and sizes of the "Hanan" shoe, insure perfect fit, and their flexibility, absolute freedom from the tortures of "breaking in," as they are easy and comfortable from the first day. Ask everywhere. Ask your shoe dealer for them.
