

The Charlotte Observer. A QUARTET LYCHING.

The Murderers of the Finch and Gunter Families Swung from a Tree.

RALEIGH, N. C., Sept. 29.—Last night four negroes, Jerry Finch, his wife, Lee Tyson and John Pattishall, were lynched one mile from Pittsboro, Chatham county. They were taken from jail and their bodies were found this morning suspended to a tree near the public road. This is a terrible sequel to the murder of the Finch family on the night of the 4th of last July, and of the murder of the Gunter family near the same spot some 18 months ago. There were two of the Finch family, Edward, aged 79, and his sister aged 81. They were found on the morning of Sunday, July 5th, lying on the floor with their throats cut. Near them lay their servant, a negro boy aged 16. All had been knocked in the head with an axe. Suspicion early rested on the negro Jerry Finch, and he was arrested. It was a great task from the first to prevent the lynching of these parties. Lee Tyson was afterwards arrested, and some time later John Pattishall was taken on the charge of being concerned in the Gunter murder, and possibly in the Finch murder. He was said to have been seen near the spot where the Gunters were killed, and next morning was in another county and told the first news known there of the crime. Detectives from Richmond worked up the case. The verdict of the coroner's jury was long delayed, the feeling that if it was adverse to the prisoners they would be promptly lynched. The verdict, when rendered, was against the prisoners. A majority of the people appeared to be well satisfied that these people were guilty of both murders.

The Wheat Crop of the Pacific States.

San Francisco shippers have begun to figure on the quantity of Pacific coast wheat there will be for export. A statement was sent to England two weeks ago that the quantity would not exceed 450,000 tons, or say, 14,500,000 bushels. Conservative dealers unhesitatingly state that this estimate is entirely erroneous. They figure as follows: This year's crop, 23,000,000 bushels; carried over from last year, 10,000,000 bushels; total quantity of wheat in California and Oregon at the present time, 33,000,000 bushels. Deduct what is required for local uses and seeding, there will remain 800,000 tons or say 26,000,000 bushels available for export.

A Suicide Accounted For.

BOSTON, September 28.—It is stated that the bank examiner, who has been investigating the affairs of the Farmington Savings Bank, whose cashier, Coleman S. Adams, committed suicide in the bank building on the 24th of last August, has discovered that Adams was a defaulter to the extent of fully \$228,000. Adams' suicide was sudden and unexplainable at the time, and although there were suspicions of possible irregularities, no such extensive defalcation was looked for. The bank examiners have applied for an injunction, restraining the bank from doing any further business until the affairs can be fully straightened out.

End of a Brutal Negro.

CHARLESTON, S. C., Sept. 28.—Jake Flower a drunken negro, attempted to outrage three respectable white women, living about two miles from Summerville, yesterday morning, and failing in the attempt burned down the dwellings in which they lived. Two of the women, Mrs. Michael and her daughter, Hannah, about nineteen years of age, escaped through the back door of their house into the woods. Mary Bowers, the other woman, was caught and so terribly maltreated that she will inevitably die. Flower was pursued by a constable, and, resisting arrest, was shot. He fled for about half a mile in the woods, when he fell and expired.

Failure of New York Brokers.

NEW YORK, Sept. 29.—The well known banking and brokerage house of Soutter & Co., has made an assignment to Morris S. Miller with preference amounting to \$69,000. Mr. W. K. Soutter also make a personal assignment. The general impression is that the assignment grows out of the legal contest over the will of Mr. Soutter's father. But this is denied at the office of the firm, where, it is stated that the firm has no outstanding contracts on the exchange. A statement is now being prepared and will be given for publication in a short time. It is probable that the suspension will be only temporary.

Western Corn.

The Chicago Farmers' Review has reports from 1,400 correspondents giving the area and probable yield in every county of the ten leading corn producing States, and has compiled from these a close estimate of the crop of 1885. The yield of Ohio, Indiana, Illinois, Iowa, Missouri, Kansas, Nebraska, Minnesota, Wisconsin and Michigan in 1883 was 1,251,596,000 bushels; the probable yield for this year will be 1,436,236,000 bushels, an excess of 184,640,000 bushels. If the States and Territories outside of those named produce the same as last year it will make the total crop 1,979,636,000 bushels.

Opposed to Paying Taxes.

MADRID, Sept. 28.—A dispatch from Utrera says that an attempt to collect taxes created a riot there. The mob, mostly composed of women, stoned the police and attempted to set fire to the excise offices, but the opportune arrival of the military prevented their design being carried out.

HOUSE CLEANING

Made Cheap and Easy.

By the use of

LUSTRABO

It is the finest soap for cleaning fly spots, red ink marks, grease and other dirty spots on your doors, mantels, windows, furniture, or other painted work, that has ever been offered to the public. Take a wet cloth, sponge or brush, and rub the soap until you get a lather, then rub or wash the article being cleaned until the dirt is removed, wash off the soap with clear water and dry with a clean cloth. Apply it in the same manner to your mirrors, glassware, looking-glasses, window-glass, tinware, show cases, or any other bright metal that is easily damaged by scratching. Machinists and engineers use it to clean the black grease off their hands. It is a very excellent and economical soap for washing dishes and other table ware when used as directed. We guarantee that it will not scratch or otherwise damage your wares or furniture, and will pay for all the damage that it does when properly used. In the language of an estimable lady of this community: "It fills a long felt need in the household that is not supplied by 'Sapolio,' or any of the kitchen soaps; while most of them are good in their place, all of them scratch and damage the fine wares in a greater or less degree, while LUSTRABO does neither." With this kind of testimony before us, we can hardly say that LUSTRABO excels all others of its kind, and is destined in the near future to find its way into every household where such an article is needed. A trial is all that is necessary to convince the most skeptical. It is a Southern enterprise, will you give it a trial? Most truly, &c.,

C. W. ALEXANDER, Charlotte, N. C.
