GEN. GRANT'S GRAVE.

The Question of its Permanent Location Definitely Settled.

NEW YORK, October 30.—During several weeks past there has been a great deal of speculation in the minds of New Yorkers as to whether General Grant's body would remain here or be removed from the State. These doubts grew out of a recent statement by Hon. J. B. Chaffee, to the effect that the family of Gen. Grant did not wish the General's body to remain in this city, and that Congress, at its next session, would take action in the matter. Prof. R. T. Greener, Secretary of the Monument Association, stated tonight that the matter had been definitely settled, as following correspondence would show:

October 16th, 1885. My Dear Mrs. Grant:—The Executive Committee of the Grant Monument Association, to whom was entrusted the honor and patriotic task of soliciting funds for a suitable National monument to the memory of your distinguished husband, finds itself seriously hampered in its work, and to a great extent, embarrassed by utterances which appear from time to time in the daily press, often purporting to come from your family. Our committee is much concerned in reports quite industriously spread abroad and persistently reiterated, that on the assembling of Congress, preconcerted effort, with the consent and approval of your family, would be begun to have the body of General Grant removed to Washington for final sepulture. Our fund has already reached a generous sum (nearly \$90,000) and it will be \$100,000 soon. But it must be obvious that any doubt which the public may have as to the desire of the family in regard to Riverside Park as a permanent tomb and site of the proposed National memorial acts as a deterrent to those who would otherwise freely give. May I ask from you and your family, a clear and emphatic expression of your wish and preference. May I add, determination for the use of executive committee.

Very respectfully, yours, Wm. R. Grace, Vice President Grant Monument Association.

The following is Mrs. Grant's reply: NEW YORK, Oct. 29th, 1885. Dear Sir:—Your letter of the 16th came during my absence and was received on my return from Long Branch. Riverside was selected by myself and my family as the burial place of my husband, Gen. Grant. First, because I believed New York was his preference. Second, it is near the residence that I hope to occupy as long as I live and where I will be able to visit his resting place often. Third, I have believed, and am now convinced, that the tomb will be visited by as many of his countrymen here as it would be at any other place, and fourth, the offer of the Park in New York was the first which observed and unreservedly assented to the only condition imposed by Gen. Grant himself, namely: that I should have a place by his side. I am, Sir, Very respectfully, JULIA D. GRANT, To Wm. R. Grace, Mayor of the City of New York.

The Greatest of Diamonds.

An Amsterdam correspondent tells the story of the immense African diamond—weighing 457 carats in the rough—which is in process of being cut by Mr. Jacques Metz, one of the largest diamond cutters of that city. It is said that in June or July of last year one of the surveillance officers of the Central Mining Company in the Kimberly mine, found the stone, and being exempt from search carried it through the searching house unperceived and sold it to four irregular dealers for \$15,000. Before leaving the province, the new owners had a night of drinking and gambling, which ended in two of them becoming its owner instead of four. The two owners escaped the secret police and reached Cape Town, where they found a dealer who readily paid them \$95,000 for the stone. There is an export duty on diamonds shipped from Cape Colony of one quarter per cent., but it appears that this stone was smuggled out of the colony by a passenger on the mail steamer and brought to London, where its presentation at Hatton Garden created a great sensation. A former resident at the Cape mines managed to form a company of eight persons, who bought the stone between them for \$225,000 cash, on condition that the seller or sellers should receive a ninth share of the eventual profits. The real value of the stone has been estimated at London at about \$1,000,000. According to the rules of valuation of the famous Tavernier diamond its value would be \$4,166,980. The correspondent says that the art of diamond polishing existing in Amsterdam for more than three centuries has been brought to such perfection that it is expected that this stone weighing in the rough 457 carats (and said to be whiter and purer than any of its historical predecessors), will lose in working much less than other famous stones; that it will be more rapidly finished, and it has every chance of remaining the largest and finest diamond in the world.

Tow Boat Burned.

CINCINNATI, Ohio, October 30.—The tow boat, George S. Dana, owned by the Campbell Creek Coal Co., while on her way to Karawa with two empty barges, stopped after midnight last night at Waters Landing, seven miles up the river, for more barges. While there, fire was discovered near the aft bulkhead. It spread so rapidly that nothing could be done to check it. The officers tried to scuttle her but had no time. The crew had to rush to shore to save their lives. The boat was built less than a year ago, at a cost of forty thousand dollars.

A Foretaste of Winter.

WHITE HALL, N. Y., Oct. 30.—A severe storm accompanied by a high wind has prevailed in this section since last evening. It is snowing hard at all points in the Champlain Valley. The mercury stands at 31 degrees. Many steamers are wind-bound on the Lake.

All "Played Out."

"Don't know what ails me lately. Can't eat well, can't sleep well. Can't work, and don't enjoy doing anything. Ain't really sick, and I really ain't well. Feel all kind o' played out, somehow." That is what scores of men say every day. If they would take Dr. Pierce's "Golden Medical Discovery" they would soon have no occasion to say it. It purifies the blood, tones up the system and fortifies it against disease. It is a great anti-bilious remedy as well. oct25anthuraw.

No Mystery About It.

There is no mystery or secrets about the compounding of Brown's Iron Bitters. The preparation of iron is the only one that can be taken without injuring the teeth or stomach. It gives vigor and strength to the debilitated and restores the dyspeptic. You need not fear to give it to the most delicate child. Mrs. Emma Williams, of Starkweather, Miss., says: "I relieved my daughter of dyspepsia, and a result of general debility."

A New Iowa Merchant.

Having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child, and passed in the night and awoke in the morning, and the child was well. The father found the baby still worse, and while contemplating another sleepless night, his mother stepped from the room to attend to some domestic duties, and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said, "The child is all right, and is well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the sudden and wonderful change, and although she had continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother sold by all Druggists. 25 cents a bottle.

Oh, think what a world we would have if here, those with bad teeth or bad breath would go elsewhere, say to Saturn's comfortable sphere.

The Only Remedy.

Those who suffer from foul breath are open to the charge of carelessness. It is an offense that can be speedily abated, as a single bottle of the fragrant SOZODONT will unmistakably accomplish the work. No toilet table should be without it. It will preserve and keep the teeth white, and the breath pure and sweet.

GUINN'S PIONEER BLOOD RENEWER

Doctor's Certificate

Cancer, Malaria, Rheumatism.

Several years ago a cancerous ulcer made its appearance on my chin. Three years ago it sloughed out, but last Spring returned. Soon after the cancer appeared, my skin became diseased—any slight scratch or bruise would inflame, spread and make me ugly. Rough pieces and heavy black scales formed on my hands and face. Last October I was attacked with Rheumatism in my feet, ankles, knees and hips, which became stiff, swollen and sore and the muscles so much contracted that it was impossible for me to straighten myself. In this terrible condition, no medicine gave me any relief—my appetite and strength failed and I became completely helpless. In this almost hopeless condition I determined to try GUINN'S PIONEER BLOOD RENEWER. I procured a supply and began the use of it. I used it about one month, and I so much improved that I began to walk about with the aid of crutches. The cancer on my chin entirely disappeared. The black heavy scales that had formed on my face and hands fell off, and my skin became clear, smooth and healthy. I would also state that for several years I have used this Medicine in my practice in the treatment of glandular and skin diseases and I have never known it fail to cure any case where it has been used according to directions. I do, therefore, most cheerfully recommend it to all who may be afflicted with any of the diseases for which it is prescribed. Griffin, Ga. J. L. STEPHENSON, M. D.
