Westward. Red lights are glowing Through the trees; And the breeze.

O er spice fields blowing,
Brings a breath of tropics

Northward. Cloud banks lying, Low and gray, The winds are sighing For the sunny southland Far away.

Eastward. Wings of morning, Freshness bear; And the air, The valleys scorning, Brings from dewy hill tops Odors rare.

AT THE CENRE.

A POSTOFFICE MUDDLE.

Why an Inspector Will Visit Goldsboro -- The Assistant Distriet Attorneyship-Gen. Cox's Ability --- The November Elections --- Great Hopes of the Dem-

Correspondence of THE OBSERVER.

WASHINGTON, Oct. 30. - Democratic hopes are hung higher than they were last week as to both Virginia and New York. Visitors from both States give assurance, and news wired through or sent by post is to the same effect. The situation is not yet wholly free from danger, but the prospects of the victory Democrats have set their hearts upon are more flattering and grow more so hourly. The speeches of Sherman, McKinley and Foraker are solidifying the Virginians, and the effective work done recently in New York begins to show in the newly-inspired confidence of the astute city politicians, many of whom are well known here.

I wrote about a certain postoffice in North Carolina a good deal last gust at the fact that the leading could not today be elected constable Thrilling stories are told of combats same as a meal sack would a bean pole. I have on bondsman was a leading Republican of Cincinnati." politician of the State. Another fact and I have heard it from several at night, and are intended for those whi ch the track was cleared for Dr. time. The course of three years leads know nothing of the matter person- Yeates himself has a position in the Virginia City than he is approached ally and would not be supposed to Smithsonian Institution. It is said by a pale-faced, intellectual gentle know po sitively. But I do know that in the few days he has held the man, with downcast eyes, who ob that severa I months ago it was said professorship, Mr. Yeates has shown serves by several gentlemen that "Hill his scientific attainments to be conexamine into the present and former an, John W. Moore. complaints as to the inadequacy of phrey should not have as eral, and that as it was with difficulty that he prevailed on even Mr. Hatton to override his inspector's res Rocky Mount, is here, Another port there should be no trouble in es- North Carolinian in the city is Mr. tablishing the facts under Mr. Vilas and getting a decision in accordance therewith. Of course this implies that the retention of the office in the building was a wrong and that it took all the power of a prominet Republican leader interested in the result to perpetuate that wrong. This is the statement, for the precise correctness of which I am not prepared to vouch.

that I thereby serve the public or the Democratic party, I will state the Assistant District Attorneyship. A with occasional strong, heavy seas, thought Glenn ought to have the place, or at least the appointment should be given to some man who had not been an independent candidate, as it is understood Bason has been. He further remarked that he thought the position taken by some papers that because a few notable gentlemen, such as Messra, Merrimon and Ruffin, had been rewarded with

fore no point ought to be taken against Mr. Bason, was untenable. One, two, three, or a greater num-

ber of wrongs did not make a right.

Mr. Glenn's claims have been zealously urged. But it seems that the Attorney General will appoint the choice of District Attorney Jones, who is Mr. Bason, of Gaston.

I hear that Judge Bennett has found a place in the Interior Department for one of his constituents, Captain Lindsey, of Auson county. Judge Bennett left for home yesterday.

Gen. Cox is here, talking pretty freely on public affairs. He makes a mighty neat straddle in his Post interview, coming out in full force against the civil service law, but strongly endorsing Mr. Cleveland's administration. The trouble about New York convention set the example, are doing that identical thing. The President understands it.

I wonder if it is true that the belief of so many Democrats here that the House will pass a bill rescinding the law and appeal to the country on the issue thus made up on the one side by the Democratic House and on the other by the President and the Republican Senate, -I say, I wonder if such belief is founded on more than the desire to bring things to extremities. There is no back down in the President. The observation was made in a conversation today that both the North Carolina Senators would be found, if the question of repeal came up in the Senate, voting civil service statute. An Ohioan, by marriage with Mr. Pendleton, the law. Said he: "There are not more than a thousand Democrats in else, would not vote to abolish the summer. I also stated a few days law. And Pendleton, the author of ago that there was Democratic dist the law, a strong friend of mine,

Mr. William S. Yeates, son of Hon. is that there is dissatisfaction and has Jesse J Yeates, ex member of Conbeen all along with the location of the gress from the 1st district, and now postoffice. The place is Goldsboro, a resident of this city, is professor of the bondsman Col. Scott W. Hum- mineralogy in the Corcoran Scientific phrey, and the new postmaster is School of the Columbian University. Dr. John H. Hill. They say here, The exercises of the school take place rsons, that the understanding by who have employment in the dayhas not been carried out. I up to the degree of B. S. Professor East and has the odor of wealth about would get the postmastership and siderable, and that he also knows Colorado Irrigation Company are Bonitz the posto ffice site." I know how to give instruction. It will be bound to advance 20 per cent inside further that opporition to Hill then remembered that about two years ceased. I hear now that an inspector ago Mr. Yeates married Miss Julia, will go out to Goldsboro at once and the talented daughter of the histori-

The Genesta Arrives in England. yacht Puritan in New York harbor, arrived at this port at 9 o'clock this morning, after a voyage across the Atlantic, She came into port flying three first prize flags won in her contest with American yachts. Great As it is my business to give news enthusiasm was manifested by the and not by suppressing it to suppose crowds on board the men of war and yachts in the harbor, and cheer after cheer greeted her as she sailed into pay port. It is believed that the time of following: Some North Carolinians the Genesta's trip across the Atlantic, express themselves freely about the 20 days and 10 hours, beats the best yacht record. The wind during the voyage was north-northeast to west, gentleman said to me today that he thought Glenn ought to have the place, or at least the appointment should be given to some man who had not been an independent candible to with occasional strong, heavy seas, which greatly retarded her progress. Twice the Genesia was, hove to and the whole trip was made under reefed trysails. The only mishaps were the breaking of the mate's ankle and a light disagreement of the steering.

office after their independency, there- A Northwest Passage to the Heart of the Continent.

The steamer Alert has returned to

stations in Hudson's bay and its ap-

proaches, in observing facts of temperature, ice movement, etc., with the object of ascertaining whether or not the Hudson's bay route is open a sufficient number of mouths in the year to justify the establishment of a ine of steamers to carry the grain of the American and Canadian northwest to Europe. The alert had great difficulty in reaching some of the stations on account of the thick ice that barred her way. Not until July it has never falled in a single instance to produce 27th was she able to enter Nachbak bay and relieve the men at the stations there. Two weeks later she as doing all it is claimed to do. The following cerattempting to enter Ash Inlet, and have done a large and successful practice for many drifted with the ice for a week. After August 21st, however, the steamer that is that a good many, since the got into Hudson's bay and saw no more ice, though she encountered heavy gales, accompanied by blinding sleet and snow. It should be added, as bearing on the question of the feasibility of this northernmost trans-Atlantic route. that vessels open water and entered the bay a in recommending it to the public. month earlier. The commander of the relieving vessel is of opinion, after consideration of the observations made at the various stations during the past year, that the whole route is built steamers four months in the year, from early in July to the end of October. The ice, it seems, lasted longer this season than usual. It is ascertained that the average temperature of the cold spells along the strait was about thirty degrees below together, and voting to repeal the zero. Discovery was made by the observing parties of vast mineral wealth who is candidate for the position of in the regions traversed by the pro-Public Printer, and who is connected jected route, gold, silver, copper, iron, lead, plumbago, mica, asbestos. pyrites for making sulphuric acid. tells me that the people of his State anthracite coal and a greater variety are almost unanimously opposed to of coarser mineral products and min erals of scientific interest only. The wealth of fur-bearing animals is said to be enormous, and the fisheries are Ohio who, on a ballet had inside the immensely productive. A very pleasparty and irrespective of everything ant feature of the experience of the observers in their lonesome stations during the year of their exile from civilization was the amusement to be with bears weighing from 1500 to 1700 pounds, and the capture of walruses weighing a ton each. Adventures of this kind, and cogitation upon "corroborative details designed to give verisimilitude" to the future relation of them, probably served well to while away the idle time of the observing scientists.

THE SKIN

and will do to swearby.

ITS DISPASES AND CURE.

This class of troublesome complaints embraces a large list, some of which embraces every family in the land. Heretofore the treatment of nearly all these diseases has been very unsatisfactory and unsuccessful, and the people have been very much deceived by pretended remedies. A majority are caused by an impune, vitiated condition of the blood, and as most of the blood remedies of the day require 50 to 100 bottles before you discover that they will not effect a cure, we offer B. B. B., which makes positive cures by the use of only a

The mest common of the skine diseases which are cured by the use of B. B., the only quick Blood Puriner, are as follows:

Old Ulcers. Eczema, Impetigo, Abscesses. Erysipelas, Dry Tetter, Ringworm, Carbuncles, Scaldhead, Itching Humors, Praritus, Blotches, Old Sores, Herpes, Boils. Pimples, Splotches,

Beautiful Complexion

is sought by the use of cosmetics and all sorts of external applications, some of them being pois-

All females love to look pretty (which gentlemen do not object to) and a smooth, soft, clear complexion adds greatly to female charms.

The use of B. B. B. will purify your blood, will remove blotches, splotches and bumps that appeaf upon the face and neck, ane will tinge the pale cheeks with the roseate hues of nature. One

Rheumatism.

One author says: "Rheumatism is due to the presence in the blood of a vegetable organism of Another says: "It is due to the presence of a

poison in the blood which is of the nature of a

The disease having its origion in the blood, it ts reasonable to suppose that it must be cured by remedies directed to the blood. A successful remedy must produce certain

changes in the composition of the blood and when this has been accomplished, all pain, swelling and stiffuess of the joints subside.

This accounts for the reason why external applications fail to produce permanent relief. But we now have the remedy which acts like

To the people of this county we would say we magic in giving relief to all forms of rheumatism, and heart. It also cures syphilitic and mercurial pains and rheumatism in an incredible short time. The fact cannot be denied that B. B. B. (Botanic Blood Balm) has proven itself to be the most speedy and wonderful remedy for all forms of rheu, matism ever before known. Those who were pres trated in bed and could not get about, have been cured. Men with two crutches, and hobbling along with stiffened and painful joints, withered flesh, loss of sleep and appetite, are cured by the use of B. B. B. Cast aside all other remedies, use B. B. and you will soon have no use for crutches

Many who read this will refuse to be cured by the use of B. B., but we advise all such to drop us a postal card for our Book of Wonders, free, which is filled with startling proof of cures made here at home. It also contains full information about blood and skin diseases, which everybody should

RHEUMATISM AND TONIC. CHARLOTTE, N. C., Dec. 10, 1884.

I have used Mrs. Joe Person's Remedy, and it is the finest medicine I ever used for Rheumatism. For more than twenty years I have been afflicted with muscular Rheumatism, and had tried every known remedy, but without avail. I was often so bad off and suffered so much that I could not lie down, but had to be propped up in bed. I had been subject to these severe attacks for twenty years. I tried Mrs. Person's Remedy last spring, and am perfectly cured. It is the best medicine in the world, I think. No words of mine can express the benefit I have derived from its use. I suffered from palpitation of the heart upon the least exertion. Of that I am perfectly relieved. My health is now perfect, and it is all owing to Mrs. Joe Person's Remedy am strong and well, and can take extended exercise without fatigue. I advise all who need a Tonic, or are suffering with Rheumatism or Eczema, to take it. I was induced to try it by it having cured my little grandson of Economic MRS. S. M. HOWELL.
