The county clerk of New York county has a fat take. He receives a salary of \$15,000 a year, and the estimates for clerical help are put at \$90,000. It is said that a business firm would contract to do all the work of the office for \$25,000.

The real and personal property assessed for taxes in the Sta e of New Jersey foots up \$565,500,687, an increase of \$10,673,235 over last. This is, however, but little over half the value of the real property of the State which is estimated at about a thousand millions.

Weston and O'Leary, the champion pedestrians, have arranged for a purse of \$3,000 and the net gate receipts The match will begin in the early part of December, and be contined at rinks in such cities as may be decided upon. They are to walk twelve hoursa day, Sunday excepted.

Philadelphia Record: The Tribune finds grave fault with the President and Secretary Manning for increasing the gold in the Treasury from \$118,000,000 to \$135,000,000, and for bringing about a steady appreciation of the 3 per cent, honds so that they are quoted at 1031, as against 101 in March. Before election the charge was that the success of Mr. Cleveland would mean the depletion of the Treasury and the collapse of the national credit.

President have just been held, but the quid nuces are are already casting nets for 1888. The Democratic Cthello by a Colored Company. victory is justly regarded as giving the Democrats the inside track for the next Presidency. This lends more interest to speculations. There is a clique here who make it their business to depreciate the administration on all occasions. Nothing the President does is right. The cost of the undertaking has been enormous and must subject the Canadian people to a heavy burden of taxation for years to come. The entire cost has been variously estimated at from \$200,000,000 to \$250. 000,000. The work was commenced by the government nearly fifteen years ago, but in 1881 was turned over to a syndicate of American capitalists. The latter was granted a subsidy in money of \$25,000,000 and 25,000,000 acres of prairie land, the land grant being made up of alternate sections of 640 acres each, extending twenty-four miles on either side of the road, the syndicate agreeing to have the work completed in 1891. made rapid progress, and then the syndicate got into financial difficulties. At the last session it obtained a second loan of \$11,000,000-making in all a subsidy of \$58,000,000 and 25,-000,000 acres of land which the company has received.
