

TO FORCE CLEVELAND.

A JOINT CAUCUS AGITATED.

Col. Cowles before the Virginia Association—Judge Bennett's Bill to Protect the Lives of Convicts—The Mixed Status of the Education Measure.

WASHINGTON, April 12.—There is a movement on foot today to secure party action adverse to the present course of the Administration. So far as I am informed, it originates with certain Senators, who, it is claimed, are regarded as friendly to the President.

Col. Cowles was prevented last week by sickness in his family from addressing the Virginia Democratic Association. Last night he complied with the very complimentary request which he had received.

While on the subject of old men of active habits, I am told that the snow-haired and bearded gentleman add venerable lady in the Congressional gallery on my left is Mr. Charles Jones, of New York, and his married daughter and grand-daughter.

Col. Cowles, after a few introductory remarks complimentary of the purposes of the association and the Simon-pure Democracy of Virginia congratulated them upon their emancipation from Mahomedism, and upon the brilliant historical record of the State, and alluding to the concurrent history of North Carolina, and the bond of sympathy which has always existed between the two Commonwealths, mental and drawn closer by mutual perils and the commingling of the blood of the best men of both, in the struggle for a common cause, upon the soil of Virginia.

Recent arrivals: S. H. Wiley, Salisbury; J. A. Gray, Winston; Mc Bryde Holt.

Col. Edward Jones has just returned from a three weeks visit to his home in Lenoir, Caldwell county.

PEACE REIGNS IN WARSAW.

The Presence of the Military has a Salutary Effect, and no Disturbances Reported Among the Strikers.

THE BOSS STRIKE.

School Boys Strike for Shorter Hours of Study—Scene in a New York Town.

TRV, N. Y., April 10.—About half of the boys in the Eleventh Ward school struck for shorter hours after school studies. They demanded only one session on a day, and that to be from 8 until 1 o'clock.

Another report today is that the Education committee will report adversely on the measure, not content with leaving it in the hands to which it was referred by the latest action of the House.

Later I am told that Mr. Willis saw how things were going and only asked that the committee should report without recommendation.

Secretary Lamar Coming South.

WASHINGTON, April 12.—Secretary Lamar will leave the city this evening or tomorrow morning for Memphis, Tennessee, Macon, Georgia, and his home at Oxford, Mississippi.

Deputy-Attorney General... The committee has sent for the Morrill (Senate) bill in order to gather the points of a framework. Although

the statement was made, apparently on the best authority, that the report of the Labor committee would come on Monday, it is stated this afternoon that the subject will not be taken up before next Friday. Yesterday it was decided that the provisions of the bill should be considered serially.

Among the gentlemen named as opponents of the measure in some or all of its features, are Messrs. Daniel, Forum, Lawler, Tarsney. It is believed by some gentlemen, but to my mind without sufficient evidence, that the President, the Speaker, Mr. Randall and other potent leaders have assisted in some way since the reference of the subject to the Labor committee to make the opinions of that committee adverse to the measure.

While the blind chaplain was uttering his fervid prayer on drunkenness and the attendant evils the weird figure of the demented ex-chaplain of the body, in a reserved gallery, attracted unusual attention. His face was raised to the skylight, and he held in his hand his constant companion, his faithful stick. This poor imbecile comes every day to one or the other chamber, and appears the closest listener present.

CONGRESS YESTERDAY.

THE SENATE RETURNS RE-NOMINATIONS.

To the President—Edmunds' Spoils-Work, Held in Check One Day—Proceedings in the House.

WASHINGTON, April 12.—In executive session, today, fifty-three messages, making as many re-nominations, were originally made to succeed officials whom it was proposed to suspend, or remove, but whose terms of office have since elapsed.

The President today nominated and the Senate unanimously confirmed Senator Howell E. Jackson, of Alabama, to be circuit Judge of the United States Court for the sixth judicial district vice John Baxter deceased.

The President has withdrawn the nomination of Orlando W. Gibson, of Michigan, to be Associate Justice of the Supreme Court of Utah.

Senator Chase today reported adversely from the committee on Post Offices and Post Roads, the bill to increase the rate of postage on first class matter to two cents per ounce.

At 1:45 p. m. on motion, the Senate went into executive session, presumably to act on the nomination of Senator Jackson to the United States Circuit Judge in place of John Baxter.

At 2:30 the Senate adjourned, the consideration of the bill to amend the act relating to the collection of revenue, referred to the committee of the whole.

Morrison presented the views of the minority committee. O'Neill, of Penn., asked unanimous consent to present in the open House instead of through the petition box a resolution to amend the act relating to the collection of revenue, referred to the committee of the whole.

WHAT IS GREATNESS?

A Washington correspondent of the Cleveland, Ohio, Leader, thus describes one of North Carolina's United States Senators.

CHICAGO, April 12.

The Illinois Commandery of the Military Order of the Loyal Legion received yesterday from Col. Fred Grant the saddle box required by the regulations.

MILWAUKEE LAGER BEER.

MILWAUKEE, Wis., April 12.—The distilleries of the school of total abstinence may perhaps be said to have been the first to be established in this city.

THE STATE AUTHORITIES OF VIRGINIA.

On motion of Hemphill, of South Carolina, the bill was passed authorizing the Secretary of the Treasury to deliver to the contents of the contents of certain boxes deposited in the Treasury Department.

Bills affecting the District of Columbia were then taken up. The Senate bill was passed authorizing the Attorney General to institute suit against all persons having, or pretending to have, a title to or interest in any part of the land or water affected by the improvements of the Potomac river or its tributaries.

The District of Columbia appropriation bill was then passed, without discussion or substantial amendment. House at 5:30 adjourned.

CONGRESSIONAL EXTRAVAGANCE.

This newspaper has had a good deal to say lately about Congressional extravagance. Possibly some of our readers may have thought we were digging a little too deep.

This Congress, instead of economizing, is expending money at an enormous and prodigious rate. There is really no treasury surplus of any vast proportions, but Senators and Representatives act as if there were no bottom to the national purse.

A resolution offered by Beck was agreed to, appointing Gibson, of La., to membership of the Senate committee on Commerce in place of Jones, of Florida, during the present temporary absence of the latter Senator from the Senate.

A WORLD-WIDE AXIOM.

A paragraph in Mr. Gladstone's recent speech outlining the true policy to pursue towards Ireland, contains a world-wide axiom which deserves to be extolled.
