

CLEVELAND'S CAUTION.

HOW HE GETS AT THE BOTTOM

Of All the Measures Submitted to Him—Bennett's Opinion on the Tariff Bill Prospects—Personal Notes.

WASHINGTON, May 7.—There is one thing President Cleveland has never had full credit for even his special admirers. It is his systematic, patient and thorough investigation into the merits of measures submitted to him.

WASHINGTON, May 7.—There is one thing President Cleveland has never had full credit for even his special admirers. It is his systematic, patient and thorough investigation into the merits of measures submitted to him.

What the country now especially needs to be protected against is the Senate, and its main reliance is the effort to defeat jobs and extravagance plainly lies in the House.

And about half of this will go to the Pacific Mail Company, which has lately been paid over a million dollars by the railroad companies to abstain from doing business at rates as low as it could afford to.

The willingness of the Senate to grant the Pacific railroads pretty much everything they ask is well understood, and it stands ready to tack on additions to the River and Harbor bill, which will make it a still more prominent candidate for the Presidential veto than it will be when it leaves the House.

The members of Congress at present who are principally acting as a governmental balance wheels are Carlisle, Randall, Howitt, Morrison, Holman and Bosch.

When the issue of extravagance and care of public money and property is broached in the fall campaign it will be in order to compare the position of the Senate, which the Republicans control, with that of the House, which the Democrats control.

In the meantime it is incumbent on the Democrats to keep their House in as good a condition as it is now, to say the least.

It observed closely our weather reports by telegraph are valuable to everybody. There has recently been a very decided change for the better.

Instead of announcing what the weather is likely to be in the different geological divisions of the country, as the New England States, the South Atlantic States, etc., the predictions are now to be made for each State, grouping together, from day to day, such States as are likely to have the same weather.

Whenever necessary, predictions will be made for different portions of the same State. The signal service officers say that the average man will more readily understand and appreciate a prediction applied to his State than one concerning a group of States, and the new plan will, therefore, they think, meet with general favor.

DEMOCRACY IN OHIO. New York World: Nineteen Democratic members of the Ohio State Senate ran away from the Capital on Wednesday morning last and left the State entirely in order to avoid action in the Hamilton county contested election cases.

New York, May 1.—The weekly bank statement shows: Loans decrease, \$639,000; specie decrease, \$2,037,800; legal tender increase, \$1,020,800; deposits decrease, \$478,700; circulation decrease, \$27,800; reserve hold \$11,113,225 in excess of the 25 per cent. rule.

The Cotton Market. New York, May 8.—Greene & Co. says: The bears have retained the advantage under continued easy Liverpool accounts with prices showing a further shading of 5 to 6 points closing fractionally steadier.

RAILROAD MEETING. AUGUSTA, Ga., May 8.—The annual meeting of the directors of the Augusta & Chatahoga Railroad will be held in Augusta on May the 12th, at which time arrangements will be made for a general meeting of the delegates from 30 counties in Georgia along the line of the road.

THE ANARCHISTS.

PARSONS WRITES A SHARP LETTER.

A Sensational Scene in Court—Mrs. Holmes Released—The Printer Charged with Bomb Throwing.

CHICAGO, May 8.—The rumored capture last night of Anarchist Parsons proved unfounded, but that he is still in the vicinity of Chicago and quite as vindictive as ever, is shown by the following letter dated Chicago, May 7th, seven p. m., and published in the Daily News this morning:

To the Editor of the Daily News, DEAR SIR: I want to speak a word through you to my fellow workers, just to let them know how I stand in the land of the living, and looking out for their interests, and further, to give a few hints to some of the fellows who desire to live on Anarchists, that may be for their welfare.

Watching my wife and her kind friends is of no use. I am dead to them already. I count my life already forfeited for daring to stand between tyrants and slaves. To show you how well I am plotted I know who was sent to LaGrange for me to-day. I know who put you on the track of Glasgow and just where to find him, and I know that man for me that his day of reckoning will come soon.

When visited last night Mrs. Parsons was reticent and defiant. She insisted that her husband was not in the city and that he was beyond the reach of the detective. The petition in the cases of Mrs. L. Holmes, Adolph Fischer and a man named Liegier, employees of the Arbeiter Zeitung, for release on habeas corpus was called on by Judge Rogers in the Circuit Court this morning.

Wilmington Review: The last set prices were paid today to the remains of the late Col. J. J. F. Remond. The remains arrived here last night at 8 o'clock and were met at the depot by a number of friends, among them the Vestry of St. John's Church, and were conveyed to that church, where they were placed in the church vault.

LEMONT ELIXIR. Mrs. M. A. Mahoney writes from Surfing Beach: For many years I have been a great sufferer from rheumatism, sciatica, neuralgia, and nervous prostration, caused from over-exhaustion, and I have tried many remedies, but no permanent relief was obtained until I used your Elixir. I am now in perfect health and can do any kind of labor in better health than for many years.
