In clubs of five and over \$1.50.

FEDERATION OF LABOR.

LETTER TO THE BOARD OF TRADE OF BALTIMORE.

The Relations of Capital and Labor—Wisdom of Workmen's Organizations—A Lecture to Merchants on their Indifference to Political and Social Affairs.

Baltimore Sun.

The Federation of Labor met last night at Rochambeau Hall, at which a letter was adopted to be sent to the Board of Trade of Baltimore, as follows:

To the Baltimore Board of Trade.

Gentlemen: Beholding with pleasure, through the papers, that your honorable body is inclined to devote some time to the discussion of the wide-spread industrial depression now upon the nation, the Federation of Labor sends you greeting, and begs to assure you of its cordial support and hearty co-operation in any measure for the relief of the present strained condition of affairs in the event that such assistance is acceptable.

The Federation is happy to see the business men of the community at last come to the realization of the fact that there is such a thing as a labor question, and whether bodies like yours incline to accept the responsibility and act upon it or not, the working people of the country have determined to agitate a full and final settlement of the vexed problem.

With the prospect of aid now seemingly held out by such honorable organizations as your own, a betterment of national affairs may become an established certainty in a much nearer future than is anticipated by the majority of our citizens today.

It is a settled axiom of philosophy that everything that is the result of some cause, and instead of being in the language of your majority labor reports, "contemplating with grave apprehension the inimical attitude of the labor strikers toward the industrial interests of the country, and deprecating the growth of organization," it would be, in our humble judgment, far better and much sounder policy to take more radical steps and apply remedial agencies to the cause of strikes and organizations.

It must be admitted that our social and political fabric is rotten to the shreds, for if this were not so, there would be as little need for organizations as for labor organizations to protect us from our misrepresentatives in the halls of legislation throughout the land, and our labor organizations are not organizations at all, but organisms springing into existence spontaneously, requiring no excuse for their being, and not being affected in the slightest degree by resolutions concerning their wisdom, folly or lawfulness at anybody's hands whatsoever.

As well might the farmer's family assemble and pass resolutions against the growth of weeds in the garden, instead of going to their roots with hoes, as to pass resolutions concerning the spontaneous protective societies of men who produce all the wealth of the world and are systematically expropriated thereof.

There was a period of unparalleled prosperity from the close of the war down to the year of 1870, during which the people of the country were individually out of debt; during which trade flourished and the people were well fed, well housed, and well clothed in an average of an hour, under four original indifference and ours, gentlemen of the Board of Trade, we permitted the politicians of the country to decide, to scotch, that we were suffering (1) from a false prosperity; we allowed them to reduce the circulation of the medium of exchange from nearly \$2,000,000,000 to about \$700,000,000. This terrible reduction of the medium of exchange, which the people was immediately checked, and the panic of 1873 followed as a natural consequence. They ensued an era, not yet expired, which established a true (1) prosperity that carries as its concomitant a packed almshouse, penitentiaries, houses of prostitution and filthy tenements. A prosperity which furnishes an esophageal door, with ears willing to be filled with the poison that flows from the lips of educated anarchists; and the day may yet come when there will be no doubt entertained by any member of the Board of Trade as to the wisdom and lawfulness of Knights of Labor, trades-unions and federations of labor, when such bodies stand as a barrier between an unreasoning, violent, desperate and wronged mob and our men of capital and affairs.

Your majority report speaks of the recognition by workingmen of their support. Gentlemen, the workingmen in organized labor recognize nothing as the means of support except their own labor exchanged for the results of the labor of others. It is true the capitalist is the director of all the production, or at least the controller of it, and the working people recognize his services and use will recognize the results of their work, but they do not grant him far better remuneration for them than they can hope to gain for themselves; hence they are the natural sources of his support. If this be not granted, they each one of them ask himself the questions: "Who made the hat, the coat and shoes I wear? Who built my residence? Who sowed the wheat in my bread? Who transported it to my door, who built the vessel of transportation, and who mined the coal that injected the life into the motive power by which the transportation was effected?" We fully recognize the fearful and baneful effects of strikes. Who, indeed, is in a position to feel them more keenly than we? But as reasoners and philosophers we must accept the facts as they exist. Man is a bundle of attributes. When certain things occur to him his attributes teach him to

THE ODD FELLOWS.

Annual Session of the Grand Lodge of North Carolina.

Gabon Messenger.

We have space in this issue for only a synopsis of the proceedings of the Grand Lodge of Independent Order of Odd Fellows, now in session in this city.

The lodge was called to order Tuesday evening at eight o'clock. Grand Master Julius Stouckin in the chair.

The following officers answered the roll call:

CB Edwards, D G M J W A Bobbit, G W B H Woodell, G S R S Jones, G T James T Cobb, O J S Cherry, G M F Ritzke, G H, Rav J H Corde, G C.

The Grand Marshal being absent, the Grand Master appointed P G Marshal appointed T W Blake to supply the place.

Reports of Grand Master, Grand Secretary and Grand Treasurer were presented.

Respectful Lodges were represented in the following order:

The following committees were appointed.

On Credentials—Oscar Pearsall, W W Hargrave, W T West.

On the case of Orestes C M Busebe, J E Woodard, N M Journey.

On Petitions—W H Hargrave, H E Dillon, M Protzfelder.

On Decisions—Ed Garrock J O Lodge, W T Woodell.

On Legislation—R D Kerker Jonathan White, C D Hunt.

On Supervisions—N F Stansell J N Fuller S D Phillips.

On Appeals—S A Craig, M T Mabry, J H Hatton.

On Constitution and By-Laws—L W Remy, W P Wemyss, G D Brown, S D DeLam, H O Hill, B A Batis, S D DeLam.

On Unfinished Business—N R Richardson, T J Duke, J B Deans.

On Correspondence—J F Rogers, William Woodcock, J E Bradford.

On Mileage and For Duty—J M Sprague, T L Love, S R Morgan.

From the Grand Secretary's report we gather the following statistics:

Members December 31st, 1,208; total amount paid for relief, \$1,802.90; widow and orphan fund, \$7,588.86; value of real estate owned by the lodge, \$28,000 cash and invested funds, \$4,482.76.

A number of invitations have been received for the next session but the place had not been selected at the time of closing our columns.

The Grand Lodge will probably adjourn today.

A Sledge Journey to the Pole.

Baltimore Sun.

An attempt to reach the pole is about to be undertaken by Colonel Gilder, who was the champion of Schwatka in their remarkable sledge journey from Depot Island, north of Hudson's Bay, to King William Land, at which time a sledge running northwest about a hundred miles was discovered by Col. Gilder. The experience gained on that occasion has led to the belief that the high may be reached, not by the means heretofore adopted by active navigators, whereby so many vessels have been wrecked and so many lives lost, but by the use of sledges, and a party of men, with only a few white men to form the scientific part of the expedition. Col. Gilder has laid his plans before Lieutenant Schwatka and Judge Charles P. Daly, president of the American Geographical Society, who are said to thoroughly and cordially approve of them. He has also been furnished with valuable information from the personal experience of Lieut. Greely, who, while he thinks that Gilder may find the route from Cape Sabine to Fort Conger—Greely's station on Lady Franklin Bay—more practicable than the route proposed by active navigators, he believes that the pole can be reached, if it ever can be reached at all, by the proposed route. He is of the opinion that the route from Cape Sabine to Fort Conger, and on to the pole, is the most practicable, and that it will be reached, not by the means heretofore adopted by active navigators, whereby so many vessels have been wrecked and so many lives lost, but by the use of sledges, and a party of men, with only a few white men to form the scientific part of the expedition. Col. Gilder has laid his plans before Lieutenant Schwatka and Judge Charles P. Daly, president of the American Geographical Society, who are said to thoroughly and cordially approve of them. He has also been furnished with valuable information from the personal experience of Lieut. Greely, who, while he thinks that Gilder may find the route from Cape Sabine to Fort Conger—Greely's station on Lady Franklin Bay—more practicable than the route proposed by active navigators, he believes that the pole can be reached, if it ever can be reached at all, by the proposed route. He is of the opinion that the route from Cape Sabine to Fort Conger, and on to the pole, is the most practicable, and that it will be reached, not by the means heretofore adopted by active navigators, whereby so many vessels have been wrecked and so many lives lost, but by the use of sledges, and a party of men, with only a few white men to form the scientific part of the expedition.

LOCKED OUT.

Thirty Thousand Men and Women Discharged by the Chicago Clothing Manufacturers.

Chicago, May 14.—At six o'clock last evening in accordance with a decision of the Chicago Clothing Manufacturers' Association of Chicago, all the manufacturers notified their cutters that for the present no further work would be given out. By this action nearly thirty thousand men and women, a majority of whom were already on a strike have been out off from employment.

The strike in the lumber yards has apparently ended. Reports from about forty yards show that the old men were straggling back to work today. In some yards nearly the full force are at work. The strikers' committee, however, involved in a full force, and failed to meet the lumbermen as arranged, but it is said that it was finally agreed to report to the lumbermen that the men would go back to work on other terms, if all were taken back. It seems probable that a large majority of the men will go back into the yards today, and resume work. The strikers' committee announces that it will call upon the lumbermen's committee today.

Canteloupes.

Vick's Magazine says melons were first called canteloupes from being cultivated at Canteloupe, a villa near Rome, where they had been introduced from Armenia by missionaries. The name is said to be still in use in some parts of Europe for a class of deeply ribbed, yellow-fleshed melons. In this country it is applied to different kinds of melons in different localities, and the significance of the word cannot be well defined as now used.

Scott's Emulsion of Pure Cod Liver Oil with Hypophosphites.

It is remarkable as a Food Restorer. The increase of flesh and strength, is perceptible immediately after commencing to use the Emulsion. The Old Liver Oil emulsified with the Hypophosphites is most remarkable for its healing, strengthening, and flesh producing qualities.

Mr. Joe Person's Remedy is still the best Blood Purifier in the market.

BROWN'S IRON BITTERS CURED MR. R. L. FORTNELL'S BRUISE, N. C. of Liver and Bowel Trouble. He says it benefited him more than any thing he has ever taken. He recommends it to others.

ROYAL BAKING POWDER

Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the inferior. Sold only in cans. Wholesale and Retail.

ROBERTS' IRON BITTERS CURED MR. R. L. FORTNELL'S BRUISE, N. C. of Liver and Bowel Trouble. He says it benefited him more than any thing he has ever taken. He recommends it to others.

NERVOUS DEBILITATED MEN.

You are allowed a Free Trial of thirty days of the use of Dr. J. C. Ayer's Nervous and Debilitated Men's Remedy. It is a most valuable medicine for the cure of all cases of Nervous Debility, Headache, Dizziness, and all kinds of Nervous Disorders. It is sold by all Druggists and Dealers in Medicines.

DEAFNESS.

DEAFNESS IS CAUSED BY INFLAMMATION OF THE MIDDLE EAR, AND IS THE MOST COMMON OF ALL DEAFNESSES. IT IS CAUSED BY THE DESTRUCTION OF THE HEARING NERVE, OR BY THE DESTRUCTION OF THE MIDDLE EAR. IT IS CAUSED BY THE DESTRUCTION OF THE HEARING NERVE, OR BY THE DESTRUCTION OF THE MIDDLE EAR. IT IS CAUSED BY THE DESTRUCTION OF THE HEARING NERVE, OR BY THE DESTRUCTION OF THE MIDDLE EAR.

CURE FITS!

When I say cure I do not mean merely to stop them, but to cure them. I have made the disease of FITS, STIPES, and all kinds of Nervous Disorders, a specialty. I have cured many cases of FITS, STIPES, and all kinds of Nervous Disorders, and I have cured many cases of FITS, STIPES, and all kinds of Nervous Disorders.

CONSUMPTION.

I have a positive remedy for the above disease. I have cured many cases of CONSUMPTION, and I have cured many cases of CONSUMPTION, and I have cured many cases of CONSUMPTION.

PENNYROYAL PILLS

"CHESTER'S ENGLISH" The Original and Only Genuine. It is a most valuable medicine for the cure of all cases of Nervous Debility, Headache, Dizziness, and all kinds of Nervous Disorders. It is sold by all Druggists and Dealers in Medicines.

MANILLA ROOFING!

Manilla Roofing is the best and most durable of all roofings. It is made of the finest Manilla, and is sold by all Druggists and Dealers in Medicines.

CURE FOR DEAF

DEAFNESS IS CAUSED BY INFLAMMATION OF THE MIDDLE EAR, AND IS THE MOST COMMON OF ALL DEAFNESSES. IT IS CAUSED BY THE DESTRUCTION OF THE HEARING NERVE, OR BY THE DESTRUCTION OF THE MIDDLE EAR. IT IS CAUSED BY THE DESTRUCTION OF THE HEARING NERVE, OR BY THE DESTRUCTION OF THE MIDDLE EAR.

WANTED—LADY

WANTED—LADY to work for us at our own homes, \$7 to \$10 per week. Can be quickly made. No experience required. Permanent position and good salary. Apply to CHESTER ART COMPANY, 19 Central Street, Boston, Mass. Box 57.

BURNHAM'S IMPROVED TURBINE

It is the best constructed and most efficient Turbine in the world. It is made of the finest materials, and is sold by all Druggists and Dealers in Medicines.
