Curious Replies.

An Arizona editor recently sent

postal cards to all the prominent cit

izens of the place requesting them to

give an answer to the question

of the replies which he publishes are

curious. One answers: "It must be

because of my durned cussedness,

always did like to be different from

other people." Another says he is

nonest because he never held any

public office. Another indignantly answers: "What d'ye take me for -

an angel ?" Another sarcastically

remarks, "I suppose you're going to

start a museum, and are looking for

freaks. Well, count me out-I'm

not one." Another, a professional

labor agitator, wrote in blood-red ink, on a postal card: "What are ye givin' us?" While the editor of the

opposition paper volunteered the an-

swer that he scorned to lay bare the

palpitating mainspring of a noble and honest soul at the request of a dis-

honest reptile and political parasite.

The editor is so well pleased with the

results of his inquiry that he intends

soon to ask for answers to the ques-

tion: What do you take for a cold

THE GENERAL ASSEMBLY DOWN ON EVOLUTION.

The Majority Report Adopted by the Assembly by the Overwhelming Vote of 137 to 13--The Day Consumed in the Dis-

After consinerable debate, Dr. Woodrow was given fifteen minutes to conclude—the time left by him in

Dr. Woodrow-I do not desire to

force myself upon the Assembly. I recognize the courtesy of the Assembly in allowing me the time they have. But I warn you that if there is wrong done now by the adoption of this majority report it is not brought about by me. It is not only an arraignment of myself but a condemnation on the charge of heresy, of half of the Synods of South Caro lina, a large portion of the Presbyteries in Georgia, Alabama and else-where, and these are condemned as unfit to teach or distribute the bounties of this church. With regard to the matter of deliverance and its ef fect, the supposed effect is that it would help to condemn as guilty a person now on trial in a lower court. It has been said that this Assembly can have no knowledge of a trial unless it comes properly before the court upon official record. This reminds me of that other claim, that it was not the church, but teachers of the church, erred in regard to science; and that this question of evo lution would have been settled long ago, but the opinions of the church had been disregarded. The opinion of the church has never been expressed so that it could be authorita-tively understood. You have been told that the will of the South Carolina Synod has been set aside

by me. This is a mistake. A resolution was brought in that would have deprived the person before you of his just rights, but though the majority were against bim, they refused to do that. Anything that comes from a self-constituted authority will never be bowed to by me. A deliverance such as that you now propose has no legal effect, and is not to be obeyed by any one who believes it is in opposition to prefect race unity.

That Adam's body was directly the word of God. To such it would be devoid of the semblance of au thority. So far as I have heard, I any natural animal parentage of any have not heard a fair or accurate kind, out of matter previously crea-

statement of my views.

Pr. Hollifield said: "Dr. Woodrow ays he had been for years in search therewith is a dangerous error, inagof something to tell him what Adam was made of." and added "here is a Bible that will tell him." Now, I knew all the Bible said before he was | tion it will involve, it will lead to the born, [laughter] and I believe it, too. I believe that Adam was made of dust, and Eve was made of a rib strong, R K Smoot, W F Junkin, G R from Adam's side. I believe all Strickler, L C Vass. A N Hollifield, that, and I know it. Anything in M Van Leon, R B Fulton, O N Kenthe B ble is not only a matter of nedy. faith but knowledge with me; and vet I am held up here as the butt of jokes and anecdotes. It has been my lot to be misrepresented always - unintentionally, of course. As to

evolution, it is a matter of absolute indifference. I care nothing for it. What is evolution? At best it is nothing but a hypothesis, a theory, conducted altogether outside of the Word of God. Like chemistry or astronomy, it is a science not in the Word of God, but if there is a single word of God that is contrary to it, that is enough to condemn it with me. If this Assembly should pro-pose to make any deliverance on evoiution, I should oppose it as strongly as any member of this body. The question before us is, shall this Assembly inject into the Word of God

something that is not there. You mising wherever he can in the most are asked to prescribe the time occu-pied by God in the creation of man, propriation bill from his committee he when God has not told you. The Bible says that God created man of dust, but it doesn't say how long he | be amended in the next edition was in doing it, and you are adding | thus: your own petty notions to His ever glorious and true word. You will be violating the sacred trust imposed in you. You will be saying what He has not authorized you to say, speaking in His name what He Himself has not spoken or authorized you to speak. I beseech you, therefore, not for my sake, but that you may be true servants of the High God, that you do not drive away those who

cannot subscribe to such a declaration. There is nothing in the Bible that will authorize you to say the creation was "immediate," and if you do so, you go in the face of the Word of God. DR. ARMSTRONG CONCLUDES.

Dr. Armstrong, chairman of the committee making the majority report, now proceeded to close the discussion, it being determined that there should be no discussion by the members of the Assembty outside of

the committee. He began with a vindication of his friend, Dr. Hoge, whom Dr. Palmer had said agreed with Dr. Woodrow that the theory of evolution was not opposed to the teachings of the Bible. He had a letter from the Doctor read, in which he said: "I fully agree with you on all the grounds in your book," and, said Dr. Armstrong, I don't suppose anybody will strong, I don't suppose anybody will accuse me of arguing with Dr. Woodrow. There may be hay on somebody's horns, but it is not on mine. [Laughter.] He then read from Professor Huxley's New York lecture to show that the statement of the theory of evolution was not different from that entertained by the ferent from that entertained by the

In my first speech I prepared to sell at auction that evolute calf from the organic dust of that Jersey cow. It was to show that you could not reconcile the evolution of the man with the declarations of the Bi ble. Organic dust is partly decayed organic matter. Evolution out of organic dust is impossible. The live ing ape cannot be called organic dust. You must have life.

There has been no attack on our authority of this body to issue a deliverance, and that the interpretation of our standards must be in their historical sense and that in-terpreted in their historical sense they do controvert this system of evolution. The point on which you feel most difficulty is that the case is already before different courts of this church. But before this case was brought in lower courts it was in the different Presbyteries, and they sent their overtures to us first. There is a difference of opinion and they ask us to interpret our standards. We are perfectly competent to do so.
Suppose we wait till these Synods or
Presbyteries signify their rulings,
won't it have its moral effect upon

influence you to refuse a decision here. There are three papers before you The report of the minority is in substance that we give no anthe other minority report the first difference is that we send our views in the form of a pastoral letter. Second. It doesn't want an answer because it will prejudice the case below. This pastroral letter is to contain, 1. A recognition of the alarm and

yesterday a company was organized here for the purpose of lighting the city with gas We will probably give the names of the officers in another paragraph. The company is founded mainly on New York capl-tal, but a considerable number of shares are open to our citizens if they wish to take them.

Greensboro Patriot: Major Dun-can C. McRue, of Fayetteville, was tendered a car by the C. F. & Y. V. which I have convictions, I want to railroad last Thursday, and carried his children, grand children and great grand children on an excursion to Bennettsville. Four generations this Assembly to give an answer to these overtures. I deprecate this doctrine because it impugns the in-

After considerable debate as to the form in which this question was before the house, both minority reports were put to a vote and lost, and the erly of Shelby, is a member, have purchased the Huguenot Mill at Greenville, S C. The mill is a large two-story brick building and fully equipped with the finest machinery. It is lighted at night with electric lights. The mill will be started as majority report was adopted on a call of the yeas and nays by the over-whelming vote of 137 to 13. The 13 voting no, were Revs William Flinn, T Harrison, V H Henderson, James Woodrow, G H Mourning, F L Thompson, H Ginder, N J Holmes, J B Jennings, R H Wardlaw, T E Smith. R J Vidal, George A McCall. The majority report adopted is as fol-

To the several overtures on the subject of the evolution of man sent up by the Presbyteries the General Assembly returns answers as fol-The Church remains at this time sincerely convinced that the Scriptures, as truly and authoritatively expounded in our "Confession of Faith" and Catechisms, teach that Adam and Eve were created, body posed a heavy fine on him,

The Assembly then adjourned and the evening session was devoted to a discussion of foreign missions. of their esteem. Suggested Addition to the Next Edition of Webster's Dictionman's name will get into Webster's Dictionary, the Post says, if he doesn't look out. Many of the reckmember from Indiana is "Holmanising legislation." The fact is, that the charge is true. He keeps econo-
