Mrs. Winslow's Southing Syrup, for children testining, is the prescription of one of the best female physicians and nurses in the United States, and has been used for forty years with never failing success by millions of mothers for their children. It relieves the child from pain, cures dysentery and diarrhoea, griping in the bowels and wind coile. By giving health to the child it rests the mother. We would say to every mother who has a child suffering from any of the foregoing complaints: Do not let your prejudices, nor the prejudices of others, stand between your suffering shild and the relief that will be sure—yes, absolutely sure—to follow the use of this medicine. CITY AFFAIRS.

Meeting of the Aldermen and School Commissioners Yesterday---The Colored Graded School-Site Ordered to be Purchased.

An interesting joint meeting of the board of aldermen and board of school commissioners was held at the city hall yesterday morning, a full attendance of the members of each board being present. The principal object of this joint meeting was the discussion of the proposition to buy land and erect a new school building for the colored graded school of Charlotte. A report bearing on this subject was read to the meeting by Col. Chas. R. Jones, chairman of a special committee of school commissioners. and was adopted. A general and prolonged discussion then ensued as to the necessary amount of money to be expended to secure the erection of a suitable building, some of the gentlemen present expressing the opinion that \$2,500 would be ample, while others suggested a larger amount. After a lengthy debate, a committee was instructed to purchase the lot on Myers street, as a site for the new school building. The lots fronts 200 feet on Myers street, and runs back on Stonewall street, to Boundary street. The price to be paid for it is at the rate of \$200 per acre.

The same committee was further instructed to consult contractors as to designs for the proposed building, and to secure estimates on the construction of the same, estimates to be made for frame and for brick structures, separately. This committee was also directed to inspect the white graded school building, and to report upon the repairs or alterations deemed necessary for comfort and conveni-

The school matters being disposed of, the commissioners withdrew, and the board of aldermen continued in session for the consideration of various matters. The committee on gas was directed to confer with Mr. Robin son, of the electric light company, in the matter of propositions for street

The committee on sewerage was in structed to examine into the matter of securing sewerage for the central section of the city. After discussing various unimportant subjects, the board adjourned.

At the All Healing Springs.

The visitor to the All Healing min ecal springs, near King's Mountain, in Gaston county, this season, pleasantly surprised at the improvements that have been made and that ture of the improvements at the All permanent character, the old time temporary and cheap work so prevalent at the average summer resort being entirely discarded. The All Healing buildings are neatly painted and plastered, comfortably and handsomely furnished, with large verandahs and halls, easy stairways, spacious and well-ventilated rooms, possessing the appearance and comforts of a home with the conveniences of a metropolitan hotel. The buildings are surrounded by beautiful scenery, overlooking the springs and immediately in front is Crowder's mountain, where one can breathe pure mountain air and mix with it as much pure mineral water as wished. Too much praise and support cannot be placed to the credit of the proprietors, Messra Cozzens & Thomas, who came from the Northwest as atrangers, with a settled purpose to remain, and who have had, in the face of their misfortunes by fire, the pluck and energy to erect such costly, permanent and comfortable improvements for the health and pleasure of all their guests. By an informal talk with the proprietors, we find that it is their ultimate intention to make this not only the first and leading health and pleasure regort in the State, but in time to make it a point for education, starting it out on a basis that will surely make a success of it. Their plan is to first erect at a date as early as practicable, a building so arranged that a graded school can be established to accommodate two hundred pupils who will be placed under the control of a thorough disciplinarian, assisted by competent teachers. The price to be fixed for board is to include tuition, fuel, lights and expenses, This will cer-

A Passenger Car Built in, and

Shipped from Charlotte. Those of our citizens who reside along east Trade street, between Liddell's machine shops and the Carolina Central depot, were yesterday morally sure that Charlotte had secured the street cars at last, when they saw a dainty little car being drawn along the street by two horses. Instead of a street car however, it proved to have been a passenger coach for Mr. McAden's railroad, from Lowell, on the Air Line to Mcthe buggy, and the vehicle came to Aden's factory, and the horses were the ground with great force. Mr. drawing it from Liddell's shops to the depot for shipment. The car was made complete at the machine fortunate, as he sustained some se- shops of Liddell & Co., and is doubtless the first passenger car ever made in Charlotte. It is designed for a narrow gauge road, Mr. McAden's railroad not yet having been changed to the standard gauge, and is patterned after the style of a street car, terned after the style of a street car, The finish of the wood work is firstclass and reflects credit upon the skill of our home workmen. Salem Female Academy Commencement.

THE OBSERVER has received an intation to attend the commence ment exercises of the Salem Female Academy, to be held on June 13th to 17th, and takes pleasure in acknowledging the same. The commencement at this popular institution, will be unusually interesting this tyear. The commencement sermon will be preached on Sunday, June 13th, at 10:30 a. m., by Rev. Edward Roudthaler, D. D. It is expected that Rev. Robert De Schweinitz, of Bethehem, Pa., will assist in the service. On Tuesday evening, June 15th, at 7:45 o'clock, the Senior Essays' will be read. The class is the largest ever graduated from the Academy, there being 26 graduates.

On Wednesday, from 2 to 4 p. m., the Art and Embroidery exhibit will be made. At 7:45 p. m., the concert will be given under the direction of Prof. Frederic Agthe. Among the musical features of the commencement season will be the rendering of extensive selections in solo and chorus from Gounod's "Gallia," and Helier's Sacred Cantata. "The Song of Victory." These famous compositions are quite recent and have but seldom, as vet, been heard in America.

The commencement will take place Thursday, June 17th, at 9 a. m. The Literary Address will be delivered by Hon. W. C. Breckenridge, member of Congress from the seventh Kentucky district. Mr. Breckenridge is one of the foremost orators of our country. He comes to grace this occasion at the special solicitation of Senator Vance and Representative Reid, who have likewise signified their intention to be present, if public engagements permit.

The diplomas will be presented by the venerable and beloved former principal of the Academy, Rev. Robert De Schweinitz. He has consented once more to visit us from his distant home, in the hope of meeting as many as possible of his old pupils. Reduced rates have been secured on the railroads.

A Railroad Disaster.

Mr. J. S. Price, of this city, yester? day forenoon received a telegram from Charleston, S. C., informing him that his brother, Mr. C. A. Price, an express messenger on the Atlantic Coast Line, had been very seriously injured in a railroad accident near Charleston, Mr. Price left on the evening train for Charless ton for the scene of the wreck.
