THANKS TO WHOM THANKS ARE DUE.

Under the head of "Honor to whom honor is due," the Salisbury Herald remarks:

There is no more enterprising journalist west of Raleigh than Col. Chas. B. Jones, of the Charlotte Observer. In fair weather and in foul, in fog and in sunshine, often doubted and misinterpreted, his voice has always sounded in the front rank of enterprises and improvements. Often people grumble about one thing or another, that does not suit them in the Observer, but when by some accident they are momentarily deprived of the Observer...

Why "west of Raleigh," Mr. Herald! There's nothing journalistic even in Raleigh that would make us take a back seat. It takes cheek to get through these days, and don't you fail to remember (to use a phrase) when we are forgotten, and as we shall be, and sleep in dull, cold marble, where no mention of us must more be heard—say Chas. B. Raleigh then; say Chas. R. that never trod the ways of glory, or sounded all the shoals and depths of honor, has found the life of an editor a hard one.

There are many trials and tribulations, not the least among which is that of the editor.

There are many disappointments, too, as for instance:

When the editor has prepared a regular half-weekly editorial on the tariff.

Or the Blair bill, Or the Presidential succession, Or the office-holders, Or the lawyers,

And a three-column telegram, being a pro-se speech of some Congressman on oleomargarine, comes in that must be printed.

And the editorial goes to the waste basket.

Here's time, thought, labor lost, and the country about to go to the demotion bow-wows.

It's a hard lot, Mr. Herald, But it is said that editors and printers are guaranteed a happier lot in the next world by a permanent residence at "Fiddler's Green."

We'll try and stand it a while longer any way.

Green & Co's. Cotton Report.

NEW YORK, June 17.—Green & Co. says: There has been nothing in the market except the ordinary local form of trading, and very light at that, opening a trifle off. Some of the shorts were induced to cover, and raises were restored to last evening's figures, but no new demand came in and the position is left almost wholly to the manipulation of the local traders. Foreign advices were lacking in encouragement and crop accounts continue cheerful.

REFUSING TO CONSIDER MORRISON'S TARIFF BILL BEFORE THE HOUSE.

A Motion to Take it Up Defeated—Detailed Vote—Passage of Several Appropriation Bills—Ashley's Public Building Bill Among Them.

WASHINGTON, June 17.—Senators Ingalls offered a resolution requesting the President, if in his opinion not incompatible with the public interest, to furnish to the Senate information as to the number of appointments and removals of clerks engaged in the civil service act of January 16th, 1885, also of chief clerks and chiefs of divisions. On the suggestion of Cockrell, who wanted to amend and enlarge the resolution, it was laid over one day. The Senate then proceeded to the consideration of bills on the calendar under the five-minute limitation of debate. Among the measures passed was a bill to pay to the representative of the government of Great Britain to enable that government to indemnify the owners of the British bark, Chance, for abandoning their whaling voyage in the Arctic Ocean in 1871 and rescuing the crew of the bark.

The House bill granting an annual leave of absence of two weeks, with pay, to employees of the government printing office, House bill authorizing the construction of a road to the National cemetery at Natchez, Miss. House bill authorizing the transfer of the United States barracks at Baton Rouge, La., to the Louisiana State University at that place.

The House bill appropriating \$150,000 for additional barracks at the Soldiers Homes, at Hampton, Milwaukee and Leavenworth, Mo.

A bill providing for the construction of a new wharf at Fort Monroe, Va.

A bill to authorize the construction of a road to the National Cemetery, at Washington, D. C.

Bills for public buildings, at Asheville, N. C., appropriation \$80,000, and Savannah, Ga., appropriation \$300,000.

A bill for the construction of a military telegraph line from Sanford, Fla., to Point Jupiter, Fla., and the establishment of a signal station.

A bill to promote the political program and commercial prosperity of Louisiana.

This is Fry's bill authorizing the President of the United States to invite, on behalf of the people of the United States, delegates from Mexico and Central and South America to meet in Washington on October 1st, 1887, to meet delegates on the part of the United States, to consider such questions as shall be of the mutual interest and common welfare of the American States. One hundred thousand dollars is appropriated for the incidental expenses of the conference.

The delegates of the United States are to be 24 in number and are to serve without compensation.

Fry said that Morgan and Everts, as well as Fry himself, had intended to address the senate with regard to this bill, but as the bill was advancing and the bill had received the unanimous support of the committee on foreign relations of the Senate, it was concluded that it would be as well to take up the bill and pass it without debate, if that course met the approval of the Senate. The bill was at once passed without debate.

The legislative, executive and judicial appropriation bill was re-considered and very light at that, opening a trifle off.

House.—In anticipation of the tariff bill coming to the surface of the House this morning, there was an unusually large number of members present when the House was called to order. The gentleman having charge of pairs on respective sides of the House were kept busy at work and the chief of the floor was engaged in conversation on the floor was the probable fate of the coming motion to consider the Morrison bill.

After the House had transacted some routine business, Hancock stated that there was an understanding that the motion be made today to go into committee of the whole on the tariff bill, inquired of Morrison at what hour he intended to make that motion.

Morrison replied that it was his intention to make the motion about 1:30 o'clock.

House then proceeded to the consideration of the tariff bill, and the bill, it being the desire of the committee on public lands to reach the bill for the forfeiture of certain lands granted to the State of Iowa in aid in the construction of railroads. But as bills on the calendar preceding this one had to be laid aside, and as Mr. Strait of Minnesota, Lafollette and Thomas of Wisconsin, demanded separate votes on each measure, much time was consumed in voting by tellers.

The lower bill was not reached at the hour of 1:30, and then Morrison moved that the House go into committee of the whole on revenue bills. On this motion he demanded yeas and nays and McKinley on behalf of the opponents of the bill, joined in the demand.

Morrison's motion to go into committee of the whole to consider the tariff bill was defeated; Yeas 140, nays 187. Hewitt, Adams, Belmont, Beach, Felix, Campbell, James and Mahoney of New York, democratic delegation, voted for consideration, and Arnot, Bliss, Tim, Campbell, Davanport, Downey, Merriman, Miller, New York; Clemens, Viole and Pindard voted in the negative.

The speaker voted for consideration. Great applause greeted this announcement.

Morrison gave notice that he would renew the motion on Tuesday next, and McKinley stated that the opponents of the bill would be on hand.

The following is the detailed vote on Morrison's motion:

Yeas—Carliase, Adams, New York; Allen, Mississippi; Anderson, Ohio; Balentine, Barbour, Barksdale, Barnes, Barry, Beach, B.
