The bill repealing the pre-emption and timber culture laws was then proceeded with, and after a short debate, passed, yeas 34, nays 20. On motion of Dolph, a commuttee of conference was ordered on the disagreeing votes of the House and Senate on the bill.

The Fitz John Porter bill was then laid before the Senate. Sewell said it was the same bill that had passed before. There was nothing to be said now that would throw any new light on its subject matter. A mere statement of facts would be sufficient. Sewell then recited the salient facts in the military history of General Porter.

After a long speech, going over much of the ground made familiar in which have been previously rejected after proper examination at the penformer debates, Sewell had the clerk sion office. It is within the knowledge to read a number of resolutions of grand army posts urging the passage of hundreds of citizens in almost of the bill. The people, he continued, had finally come to see that, instead every part of the Northern States that pensions are constantly obtained of being a criminal, Porter was a for persons who are undeserving, and martyr. "Oh, both wings will flop together after awhile," retorted Randall, amid

The motion having been agreed to, the House went into committee of the whole (Reagan in the chair) on the sundry civil bill, Reed remarking that a very sensible wing of the Democratic party had control today. COME TO GRIEF.

Railway Postal Clerks Organize Against the Administration-The Leaders of the Scheme Summarily Bounced.

Washington, June 24.—The following special notice was today issued by the general superintendent of the railway mail service: "By order of the Postmaster General, the clerks named below have been removed from the service for insubordination in conspiring to obstruct the regulation of the service by the department, and to injure its efficiency. They have secretly attempted to form an association with a view to dictate action to the department, and many of them have also been guilty of deception towards their fellow clerks by representing the purposes of such association to be merely benevolent, and thus entangling them. At the same time the Postmaster General directs me to express his gratification that so few, comparatively, could be found to engage in such a scheme, and his acknowledgments to those who have kept the department informed.

A list of 27 clerks in the railway mail service is appended, all of them located west of Pittsburg, north of the Ohio river, and east of Omaha, a majority of them in Ohio, Indiana and Illinois. The Postmaster General, in further explanation of the cause which resulted in the issuance of this notice in an interview this afternoon, said: "Several weeks ago information was received by the department that a few poscal clerks who were apparently conscious that there were reasons for their removal from service, were careavoring to enlist the co-operation of postal clerks generally in an association to be formed for the purpose of interposing their opinion on questions of removals by threatening to strike, or the combined resignation of many clerks at one time, so as to menace the department with embar. rassments. The attempt to enlist general cooperation failed, the greater number of the postal clerks who were approached on the subject refusing to entertain it. It was the plan of the originators, after the initiation of members, during which he was bound by an oath to secrecy and obedience, to secure his resignation in blank and to have all resignations in the hands of an executive committee to be filed simultaneously, and to
require clerks who were members of
the association to abandon their run
at a time to be fixed. Their object
was to maintain their own position

CHAS. R. JONES. in the hands of an executive commitwas to maintain their own position and tenure of office, The departement has waited until the principal

moved embrace all those who have been specially active. "In point of fact," continued the Postmaster General, "the scheme never secured general favor, and the department is not desirous of punishing, by removal, those who have been cheated into nominal co-operation, but does wait for resignations from any who have been active in the enterprise." "It is a curious commentary on the folly of men," said the speaker,

"that upon examining the files in ases of men who have been removed by this order, it appears that very many of them have been complained against for some reason and their removal sought before, but the department had refused to make removals and entry had been made in their cases for their retention. Their po-sition would have been quite secure had they not forfeited it by insubor dination.

"The headquarters of the move-ment has been in Indianapolis, Ind. Some little effort was made to organ-ize at Chicago and other places, but was of no success. I do not anticapate the least trouble or inconvenience to the business interests of the country," concluded the Postmaster-General, 'in consequence of these removals."

GUINN'S

RELIEF For Forty years a Sufferer from CATARRH. Wonderful to Relate!

"For FORTY YEARS I have been a victim to CATABRH—three fourths of the time a sufferer from Excountating Pains across my forestead and my notells. The discharges were so offensive that I hestiate to mention it, except for the good it may do some other sufferer. I have spent a young fortune from my hard earning during my forty years of suffering to obtain relief from the doctors. I have tried patent medicines—every one I could learn of—from the four corners of the earth, with no relief and at last [67 years of age) have met with a remedy that has cured me entirely—made me a new man. I weighed 128 pounds and now weigh 146. I used thirteen bottles of the medicine, and the only regret I have is that being in the humble walks of life, I may not have influence to prevail on all catarrh sufferers to use what has cured me—GUINN'S PIONEER BLOOD RENEW-ER.

Her skin is as clear as mine, and the doctors say it is a perfect cure, in their opinion. I am thankful for having tried the remedy.
