The commission new in session has completed what is known as the revenue bill, which is based on that adopted by the last Legislature. Among the plans it proposes, as stated by the News-Observer, is a provision for twelve district boards of assessors. Each of these elects a delegate a member of the State board of assessors. The district boards will first endeavor to equalize the values of real estate and live stock in their r spective districts. The State board will take up the calculations made by | tors here were willing to vote to give t is district boards and determine the amount at which real property in such county shall be assessed. That the United States, they had only to will be certified by the State auditor, be treacherous, when they should be and the county assessors will be re quired to bring the property in the county to that valuation. It is the simplest way of attaining the desired end, without changing long established laws to too great an extent.

Important Bailroad News.

RICHMOND, Va., June 25-The New port News and Mississippi Valley railway has been leased to the Chesapeake and Ohio railroad. This consolidation makes a grand trunk line under one management from Newport News to New Orleans, where it will connect with the Huntington system to the Pacific ocean. The consolidation will not affect the present management of the Chesapeake and Ohio, as the officers of that company occupy the same positions in the Newport News and Mississippi Val-ley railroad. President C. P. Hunt ington is reported as saying that in lass than two years there will be ten thousand miles of railroad tributary to Newport News. In a few days the name of the Chesapeake and Ohio will be dropped, and the road will be known as the Newport News and Mississippi Valley railway.
