WEAK NERVOUS

HEALTH AND STRENGTH REGAINED.

AND DEBILITATED MEN seeking Health Strength and Energy should avoid Nostrums, Secret Medicines, etc., and send for "The Review, or "Health and Strength Regained," a large illustrated Journal published entirely for their benefit.

It treats on health, hygiene, physical culture and medical subjects and is a complete encyclopedia of information, for suffering humanity afflicted with long standing, chronic, nervous, exhausting and painful diseases.

YOUNG AND MIDDLE AGED MEN, and others who suffer from nervous and physical debility, exhausted vitality, premature decline, etc., are especially benefited by publishing its contents. Everything such sufferers wish to know is fully given in its pages. If in need of medical aid or counsel, read it before "doctoring" or investing in medicines or appliances of any description, and you will save time, money and disappointment. If using medicine or medical treatment of any kind, read it and learn the better way.

THE REVIEW exposes the frauds practised by quacks and medical impostors who profess to "practice medicine," and points out the only safe, simple and effective road to health, vigor and bodily energy.

Electric Belts and all curative appliances are treated upon; all about them—which are genuine, which are bogus. Belts on thirty day's trial (!) and other fallacies reviewed. Thousands of dollars saved nervous debility sufferers and others by the advice given. THE REVIEW is now in its ninth year of publication. Complete specimen copies mailed free. Address, naming this paper,
PUBLISHERS' REVIEW,
1161 Broadway, New York.

Charlotte, Saturday July 10—Convention to appoint delegates to the Wadesboro, Lincoln and Raleigh conventions. Mecklenburg primaries to be held on July 3rd.

LOCAL RIPPLES.

—Capt. Chas. Price was registered at the Central yesterday.

—Prof. T. J. Mitchell, who superintended the recent session of the Alabama Normal School, at Florence, arrived home yesterday.

—Several of our citizens will leave tonight for Winston to attend the dedication of the Methodist church at that place tomorrow.

—Capt. T. R. Robertson has visited Smithville to make arrangements for the encampment of the Hornets' Nest Riflemen, which begins on July 13.

—Yesterday was grass-killing day on the farms, and there were but few visitors in the city. The farmers nowadays take advantage of every hour of sunshine.

—The game of baseball between the Giraffes and the Jumbos, that was to have been played yesterday, was postponed, the weather proving too hot for the fat men.

—Mrs. R. D. Wilson, mother of Mrs. J. H. Hales, of this city, died at her home in Thomson, Ga., at 7 o'clock last Thursday morning. Mrs. Hales was in attendance at her mother's bedside.

—Mr. E. C. Hackney, editor of the Durham Recorder, is in the city, on his return from the press trip to Washington. Mr. Hackney is accompanied by his wife, and they are the guests of Mr. Wm. Treloar.

—The german last night was one of the most enjoyable ever given in Charlotte. It was the last of the season and the occasion was graced by the presence of an unusually large and brilliant assemblage of young ladies.

—At the Evangelical Lutheran General Synod, now in session at Roanoke, Va., Rev. F. W. E. Peschau, of Wilmington, was elected president. Capt. W. A. Barrier, of the Macon High School, this city, was re-elected treasurer.

—On the night of the 23rd a horse was stolen from Mr. N. P. Tredenick. On the morning of the 24th the fact was advertised in THE OBSERVER, and a description of the stolen horse was given. On the 25th the thief was caught in Lancaster, S. C. The moral is obvious.

—The train from Statesville, on the Atlantic, Tennessee and Ohio railroad, got into Charlotte safely yesterday, but in running through the depot yard the engine left the track and gave things a shaking up. A switch caused the trouble. No damage was done.

—The township conventions, to nominate delegates to the county convention, will be held at the various polling places in Mecklenburg one week from today. The county convention to nominate delegates to State Judicial and Congressional conventions is called to meet in Charlotte on July 10.

—Mr. Stebbins, of the Southern Newspaper Union, returned yesterday from Wilmington. He reports that there were 200 people on the Hornet fire company's excursion, and that all were having a fine time. Nearly all the excursionists went to Smithville on the Passport, but some were captured and held in durance by the hospitable firemen of Wilmington.

CURE FOR PILES.

Piles are frequently preceded by a sense of weight in the back, loins and lower part of abdomen, causing the patient to suppose he has some affection of the kidneys or neighboring organs. At times, symptoms of indigestion are present, flatulency, uneasiness of the stomach, etc. A moisture like perspiration, producing a very disagreeable itchings after getting warm, is a common attendant. Blind, Bleeding and Itching Piles yield at once to the application of Dr. Rosanko's Pile Remedy, which acts directly upon the parts affected, absorbing the Tumors, allaying the intense itching, and effecting a permanent cure. Price 50 cents. Address The Dr. Rosanko Medicine Co., Plqua, O. Sold by L. H. Wilson.

Mrs. Joe Person's Remedy

Is still the best Blood Purifier in the market.
JOHN MOLDEN, Wholesale Druggist.

Rev. Mason Pressley.

We are glad to see that this promising young divine, who is so well known in this section of the State, is making his mark in Philadelphia, to which place he was recently called as pastor of the North United Presbyterian church. On Sunday last he preached from the subject, "The Nation's Safeguard," and took his text from Joshua 1st, VIII. The Philadelphia Bulletin gives a long report of the sermon, from which we take this extract, for the benefit of Mr. Pressley's friends here: "The Bible," said the reverend speaker, "is the palladium of our success. The word of God used to be bound with chains, but a glorious era dawned when we could read the Bible with none to molest us. Social, political and moral freedom then sprang to light. In this book we have a Christian Catholicism, of which Jesus Christ is the centre. The Bible is the only book that tells us caste is not religion; it gave new force to the struggle against tyranny, and wherever its light is not disseminated there is darkness and gloom. The Word of God has been, is and must be the law of the land. In a country like our own it is the duty of those who come to our shores to submit quietly to the government regulating national and State affairs. If foreign-born citizens are permitted to offer serious objections to the laws for the preservation of our sacred institutions, a foul blot will be placed on the escutcheon of our liberty, and impede, arrest and destroy our Christian civilization. This country, although to a great extent ungodly and wicked, is looked on by the nations of Europe as one of moral grandeur and unparalleled prowess. Today in our Christian land are tolerated those who breathe threatenings of murder and fire. The foreign flood brings with it the teachers of the pestilent heresy of Communism. Nihilism boldly proceeds upon the assumption that the laws and property are not sacred. The Word of God is the only absolute safeguard of private rights and public privileges. It is the only remedy for the multiplied social evils which now threaten us. The government is just like the church; it is nothing more than a mere piece of machinery. The only hope of our country is in the religion of the Bible. Our government will be invincible so long as it continues to be Christian."

New and Finer Equipments.

The Richmond & Danville road has just received a number of new and elegant passenger coaches, the finest yet seen on this road. The first-class cars are fitted up in the finest style and each one has a toilet room for the benefit of all passengers holding first-class tickets, the toilet apartment being fitted up in style similar to that of the Pullman sleepers. The Richmond & Danville has always been equipped with handsome passenger coaches, but these new ones beat anything south of Philadelphia. In addition to these new cars, the Richmond & Danville company has just had turned out from the Baldwin Locomotive Works, sixteen large, powerful and swift passenger engines. All the old engines of this company have been sent to the round house and retired from service as it were. The equipment of this road challenges that of any road in the South. The old engines are for sale. [Wilmington Star and Review copy.]

A Dangerous Place to Loaf.

The engine and dynamo rooms of the Electric Light Company were yesterday crowded with people curious to know all about everything, and but for a fortunate circumstance some of them would undoubtedly have been killed. This fortunate circumstance was that though the engine was running, no connection was made with the dynamo. Scarcely five persons out of ten were aware of this fact, yet they went about the room inspecting everything, the dynamo in particular. It might interest these persons to know that when the dynamo is running, and they want to get shattered as if by a stroke of lightning, all they've got to do is to go around to the electric light house and touch a wire, a piece of brass or anything else that holds electricity. It is a dangerous place to loaf, and idle fellows had better be cautious.

Had to Nail Up His Doors.

Instead of locking the front door to his saloon on College street last Thursday night, Mr. J. W. McWhirter found it necessary to nail up the door. The explanation of this unusual way of closing up was found in the fact that somebody had stolen Mr. McWhirter's coat, and his store keys were in the pockets of the coat. The coat had been left hanging on the screen just inside the saloon door, and some one had quietly lifted the coat and walked off with it. Yesterday the coat was found in a yard near the Trade street depot, and in the pockets were the keys. The police had pressed the thief the previous night, but lost him in the vicinity where the coat was found.

The Cost of the Change of Gauge.

It has at last been figured out that the net cost of the change of gauge on the 13,818 miles of lines is $1,350 - 120. While this is a large sum of money, it is small in comparison with the benefits which will result from the expenditure. This amount would build and equip only fifty-four miles of new road, at an average cost of $25,000 per mile, and yet many times this sum has been squandered in building parallel roads which the country did not need, and whose construction resulted in permanent loss to existing roads. The establishment of a practically uniform gauge throughout the country will be worth many millions, particularly to the South, and will be paid for in a comparatively short time.

Passenger Agents in Convention.

A large number of railroad men, representing the passenger agents of the South, met at Asheville this week to arrange rates for summer travel, and to consider other railroad matters. Yesterday they were given an excursion to Round Knob by Capt. McBee, of the Western North Carolina road, and after a few hours stay at that famous point, they returned to Asheville. The only part of the proceedings yet given to the public is the following resolution, which was unanimously passed:

Resolved, That the rate of one cent per mile for the distance traveled, arbitraries added to be named, for members and their families coming to and returning from said encampment, using circuitous routes if preferred, going one way and returning another.

The committee also authorized one cent per mile on excursions to old battlefield points.

Dr. Bidez's Successor.

Dr. A. Bidez, who has accepted a position elsewhere, will be succeeded as director of the music department at the Charlotte Female Institute, by Prof. Albert Rowse, of New York. Prof. Rowse has had twenty-five years of most successful experience in teaching, in Florence, (Italy) where he also pursued his studies in music, in Boston and Lowell, Mass., and in Brooklyn and New York City. The testimonials received from the principals of well known institutions North warrant the principal of this Institute in assuring the patrons that no institute in the South will sustain a higher standard of excellence, thoroughness and good taste than will be sustained here.

They Don't Like the Looks of It.

Travelers on the Atlantic, Tennessee & Ohio railroad report that the crossing at Kerr's Creek, where the recent washout occurred, is a bad looking place, as it still remains as it was hastily and temporarily fixed up just after the freshet, cross-ties being the principal material used in the construction of the bridge. The railroad men probably know whether or not the place is safe, but passengers predict that there will be more trouble at Kerr's branch one of these days if that crossing remains as it is.

Men and Women

Who are constantly nervous are, in nineteen cases out of twenty, dyspeptic. The twentieth case will be found, upon investigation, to be that of a person who is troubled with symptoms of indigestion. Thinness, unnatural anxiety, peevishness, buzzing in the ears, a disposition to start on the sudden closing of a door, tremulousness of the hands—more particularly of the right—show that the nerves are weak and unsteady. Hostetter's Stomach Bitters strengthens and quiets the nerves. This effect is a speedy consequence of its invigorating and regulating action upon the organs of digestion and assimilation. It enriches the blood, conquers a chronic tendency to biliousness, relieves sick and nervous headache, and regulates the bowels without griping them. A more trustworthy defense against fever and ague does not exist, and it subdues a tendency to rheumatism, kidney and bladder derangement. Taken before retiring, it induces sound repose.

DIED.

Bennie, infant son of J. S. and Alice R. Hall, died yesterday afternoon at five o'clock. Funeral this evening at five o'clock from the residence of John L. Rimer, Smith street between Eighth and Ninth. Friends and acquaintances invited to attend.
