Electric Light as an Investment.

The electric lights will blaze forth in this city this week, and our peo ple are naturally interested in the enterprise from the standpoint of a business investment. The fact that no failure of an electric light company has yet been reported leads us to believe that the Charlotte company will share in the usual success. The Scientific American in its last 'issue gives some points on the electric lighting business that will be of interest to our citizens. That paper says: "With a view to put at rest the question whether local electric lighting companies are profitable investments. we have recently addressed a circus lar letter to the general managers of a number of such companies, both east and west, asking for their experience in the matter. We have directed our inquiry in this instance particularly to those operating the Thomson-Houston system. We have received answers from all parts of the country, and the general tenor of the replies is that many of their local companies are earning better dividends than are yielded by the majority of other new enterprises. The question of profit rests first with the locality, and then, if this be judiciously chosen, with the system employed and the ability displayed in the management. Of those who have stated the exact profits of their investments, we believe the highest returns came from Omaha, Nebraska, where a company operating four 30 light dynamos, had earned at the end of the first three months after incorporation 41 per cent on the investment, or at the rate of 18 per cent. per annum."

North Carolina at Washington.

The Richmond & Danville officials will shortly be installed in their new headquarters at Washington City, in the large five story (building, corner of 13th street and Pennsylvania Avenue, recently purchased by that company for \$127,000. Mr. Jordan Stone of the Asheville Citizen, who was in Washington last week, learned something in regard to this building that will be of general interest. He says that the building as large as it is, is not too large for the operation of a corporation controlling one of the main trunk lines of the south. The company with wise regard to the extension of its business has supplied a very important vehicle of information. It has allotted a large room on the basement floor for the purpose of an exhibit of North Carolina productions of all kinds, whether in the crude state or improved by art, woods, ores, minerals, grains, fruits, textile fabrics, as also maps, publications periodicals and whatever else will illustrate this State, all arranged systematically and presented intelligently, and to constitute a permanent fund of knowledge to be added to continuously. The whole will be under the charge of Prof. J. M. Tiernan, now of Asheville, whose intelligence and information is of

national repute. Survivors' Association.

On the 20th of next month, a sur vivors' association of Co., B. Thirteenth North Carolina Regiment, will be organized in this city. This company was known in the late war as the Randelsburg Riflemen, and W. W. Robinson was its captain. It entered the war with one hundred and fiffy men and came out with twentyfive. The company participated in the principal battles of the war, including Cold Harbor, Manassas, ment the company belenged, has been invited to attend the reunion, and will doubtless be here on that oc-

Indictment Under a New Law. The first indictment in this county under the law passed by the late Legislature, making seduction under promise of marriage a penitentiary offence, was made in this city yesterday, before Esquire D. G. Maxwell. Both parties to the affair were from Mallard Creek township, and are well connected. The condition of the young woman was painfully apparent, and after hearing the evidence as enarged in the indictment, the magistrate placed the young man under a bond of \$100 for his appearance for trial before Judge Meares at the August term of the Criminal court.

Personal. There is now quite a party of Charlotte people enjoying the sights in and around Victoria, British Columday brought to the city from Mallard | bia. The Colonist, of that place, Creek township by constable F. M. gives their names as follows: Col. John L. Browa, and wife, Capt. F. S. were tried before Esquire Maxwell, DeWolfe and wife and Miss L. De-Wolfe. Col. and Mrs. Brown are stopping at the Uriard House. This Messrs Scoville & Brockenbrough, party is on a visit to Victoria from of the Central, yesterday received a Seattle, W. Sale of the Methodist Advance.

The Methodist Advance, the weekly paper edited by Dr. W. M. Robey, of this city, was yesterday sold to Pev J. B. Bobbitt, who will move the presses and type to Goldsboro, from which place the paper will hereafter be issued. Dr. Robey founded the Advance, we believe, in Goldsboro, and it thus goes back to its old home. The sale of the paper was made principally because Dr. Robey desired to devote his entire attention to the interests of the church here, and he will hereafter be free from the cares of editorial life. Mr. Blakev. the manager of the Advance office. will, we understand, return to Goldsboro, though we would be glad to have him remain in Charlotte. We are not advised upon this point, but surpose that the Advance will make its last appearance in Charlotte next Wednesday. Gone to Warm Springs.

Rev. L. McKinnon, president of Davidson College, arrived at the Bel mont Hotel in this city yesterday morning, accompanied by his wife and children, and left in the afternoon for Warm Springs. Mr. Me-Kinnon has been a great sufferer from rheumatism for some months past and his emaciated face gives evidence to the severity of his sufferings. His many friends in this section will join in the hope that his visit to the Warm Springs will be beneficial.

Democratic Caucus. Washington, June 24.—The House Democrats held a largely attended caucus this evening to determine upon the order of business for the emainder of the session. The hightariff Democrats were all present, and the proceedings were entirely harmonious. The idea which ran through all the discussions was that an adjournment should be effected not later than July 15. Mr. Morrison said the appropriation bills would take until July 2, which would leave but ten days for other measures. Various members spoke suggesting different measures as proper to be brought up, and minor resolutions were offered. Finally the following was adopted. That the Speaker, Mr. Morrison and Mr. Randall be appointed a committee of three, with power to designate the measures which shall have priority during the remainder of the session. Mr. Randall asked to be excused, as he said he had too much to do now, but the caucus declined to accede to his repower to recommend any measure reducing taxation, when it was announced that it would be understood

that the committee was not to be restricted in its action.

LEMON ELIXER

An Old Citizen of Atlanta, Ga. By the recommendation of Rev. C. C. Davis, I used Dr. Mozley's Lemon Elixir for a severe chronic case of indigestion, palpitation and irregular action of the heart, with constipation and irregular action of the heart, with constipation and irregular action of the heart, with constipation and prest palms in the back and kidners, much of the time is able to stand alone. I was treated by many physic'ans and used many remedies, but got no relief Dr Mozley's Lemon Elixir alone has made a perfect ture of all these diseases. I am now a well man. My wife has for many years suffered greatly with constipation and six headaches from which she could get no relief. The Lemon Elixir has permanently cured her.

Who are constantly nervous are, in nineteen cases out of twenty, dyspeptic. The twentieth case will be found, upon investigation, to be that of a person who is troubled with symptoms of indigestion. Thinness, unnatural anxiety, peevishness, buzzing in the ears, a disposition to start on the sodden closing of a door, tremulousness of the handsmore particularly of the right—show that the nerves are weak and unsteady. Hostetter's Stomach Bitters strengthens and quiets the nerves. This effect is a speedy consequence of its invigorating and regulating action upon the organs of digestion and assimilation. It enriches the blood, conquers a chronic tendency to biliousness, relieves sick and nervous headach's, and regulates the bowels without griping them. A more trustworthy defense against fever and ague does not exist, and it subdues a tendency to rheumatism, k'doey and bla ider derangement. Taken before retiring, it induces sound repose. SOUTHERN

This new variety of Turnip is rapidly growing in popular favor wherever it has born tried and is destined to supercede all other varieties in Southern culture. Certainly no variety jet introduced has proven so well adapted to our climate or produced larger crops. The testimony in its favor as given by some of the best farmers is of the strongest character; leaving no room to doubt the points of excellence claimed for it. In fact, it is affirmed that it is a better turnip even than it has been represented.—N C. Farmer.

FOR SEVERAL YEARS, The following points of excellence are claimed for . viz: It has no equal for root or salad. It stands extreme heat and cold. It is superior to the Northern turnip. They do not pith or become spongy as other tur-

ips,
It produces salad two weeks earlier than any
ther turnip.
Insects do not injure this as they do other varie ties.

It produces more salad than any other turnip.

It produces a larger root than any other turnip.

It is the best turnip for winter use in the market. For general farm market purposes it has no equal in the South.

All of which is fully confirmed by the testimony of many of our best farmers.

In addition to the above we have in stock a full supply of all other varieties of turnip seed.
