

MRS. H. B. CHAMBERLAIN DEAD.

Durham Aldermen Make New Move in the Grading of Church Street—Injured Man Doing Well—Personal and News Notes.

Special to The Observer. Durham, Nov. 4.—The Durham Aldermen, Henry B. Chamberlain, 30 years of age, died suddenly at his home on Broadway last night. She left a babe but two days old. Up to 3 o'clock yesterday afternoon she was getting along nicely and then her heart failed and death followed last night between 9 and 10 o'clock.

Regarding the grading of Church street, from Main street to the new union depot, about which there has been so much said here, the aldermen have rescinded all orders of the past and will engineer, one not in touch with the city or the railroad, will be brought here and a survey made. His report will then be the basis for an order from the board. The question involved is this: From Church street to the new depot, one block there will be a seven per cent. grade if the requests of the railroad are carried out. This will raise the grade of the street so materially that the property owners are raising a row and threatening to sue the city if the grade is lowered so much below their buildings. An order was passed to grade the street and this latest move was decided upon. The engineer will be here in a day or so.

Contract will soon be given for the erection of a new Baptist church in Oak Grove township, this county. The new church will cost about \$1,200 and will take the place of one of the oldest churches in the county.

A. W. Tilley, who lives in the northern part of the county and lost a hand a few days ago by a stick of dynamite exploding in his hands is getting along very nicely. It is learned that the force of the explosion was so great that his pants and shirt were ripped across the abdomen and his face was burned. At the time he had a stick in either hand, but the one in his left hand did not explode. He is still at the home of the physician to which place he was taken after being hurt.

Capt. J. J. Lounsbury went over to Henderson this morning and this afternoon he attended the marriage of Mr. Wesley J. Adams and Miss Lizzie Bryan. They were married at 5 o'clock this afternoon.

The Seaboard road is working a considerable force of hands on the track between here and Henderson, replacing the present rails with heavier ones. The present rails are 50 pounds and the new ones are 60 pound rails. The force began work at Henderson and are now about five miles out from Henderson coming this way. After the completion of the work on the new rails, the track will be ballasted and faster schedule will be put on for trains on this road.

The recruiting station that has been open here for weeks is closed on Mr. Chief Machinist A. J. Frankie, who had charge of the station, left this morning. He sent away five new recruits for Uncle Sam. They are as follows: M. L. Brantley, of Raleigh; J. A. Turner, of Knoxville; T. J. Engram, of Rutherfordton; Fletcher Cates and J. C. Rogers, of this county. Four went to the navy yards at Norfolk, and one to the navy yards at Brooklyn. They all enlisted for four years each. Three went as landmen, one in the hospital service, and one as a coal passer.

**BIG TIMBER DEAL.**  
Hickory Lumber Dealers Purchase Lands in Burke County—A Woman's Serious Mistake.

Morganton, Nov. 3.—Messrs. Hutton and Bourbonnais, large lumber dealers with headquarters at Hickory, have, it is announced, purchased a tract of timber lands in the South Mountains in this county, containing about 15,000 acres. The land was purchased from A. G. Olmstead, of Condersport, Pa. The purchasers will cut the standing timber, of which there are many millions of feet, with portable saw mills, sending the timber to Morganton for shipment. A number of the mills are now being moved to the boundary line from Goldsboro to Chapel Hill for this game, and it is already estimated that from three to four thousand spectators will be on hand to witness this contest. The entire A. & M. battalion will be there to "root" for their team.

In Coach Kethholz, A. & M. has made a great find for he has developed a good team from what appeared to be poor material. He is a great coach and has been ably assisted by Dr. Joel Whitaker and "Bully" James, two old Carolina fans. This is one of our greatest games will be the Clemson game here Thanksgiving day. This team is very strong and a great game is expected. There is talk of an excursion being run from Charlotte for this game, and I hope it will materialize.

**SOUTH'S TRADE MOST ACTIVE.**  
Both Retail and Jobbing Sales Farther Smaller in the North and West.

New York, Nov. 4.—The cotton market will say: "Warm weather, activity in fall farm work and, to a lesser degree, anti-election interests have detracted from all trade during the past week. For like reasons, jobbing sales are rather smaller in volume. Against this, however, is to be cited increased activity in a number of industries, headed by iron and allied lines of manufacture. Resumption of work by ten thousand Eastern cotton mill hands is a feature, but the strike of Fall River tie-up continues and the strike of a comparatively small number of mine employes is responsible for the idleness of about 40,000 Indiana and Illinois coal miners at higher prices for bituminous coal. A very general advance in staple prices, covering a wide range of industry, is an event worthy of note. It was in the winter wheat crop of an immense, possibly a record, acreage in that cereal, but drought and Hessian fly damage retarded the crop. The report of an excellent prospect in the producing States of the West. The South gives relatively the best reports as to trade.

Business failures for the week ending November 3 number 200, against 216 in the like week in 1903.

**A GAME AT RALEIGH.**  
The A. & M. College to Play the South Carolina College Team—A Game With the University.

Correspondence of The Observer. West Raleigh, Nov. 3.—The A. & M. football team will play the team from South Carolina College here Saturday, and no doubt this will be a good game as the South Carolina team has picked up since their game with the University of North Carolina. They recently defeated the University of Georgia by a good score.

There is much rejoicing in Raleigh over the arrangement of a fast ball game between the University of North Carolina and the A. & M. This is going to be a game and will witness the University wins or not, the A. & M. cadets hope that the game with them will add Carolina in defeating Virginia. This game will enable cadets to get a clear conception of the relative strength of the Carolina and Virginia teams, as Virginia defeated the A. & M. 5 to 0, with practically the same team that will play Carolina Thanksgiving day.

The A. & M. will find behind Carolina's line two of their old team mates, Robertson and Newton, which are the fastest backs on the Carolina eleven. There is talk of an excursion being run from Goldsboro to Chapel Hill for this game, and it is already estimated that from three to four thousand spectators will be on hand to witness this contest. The entire A. & M. battalion will be there to "root" for their team.

Winning candidates always say that it was a case of the office seeking the man. The man who drinks is sure to marry a woman with a delicate sense of smell.

**NOT A SICK DAY SINCE.**  
"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which did me any good. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon after was entirely cured, and have not seen a sick day since." Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility. This is what B. F. Bass, of Fremont, N. C., writes. TRINITY COLLEGE ITEMS.

Plans for the Bible and Mission Study Institute—Plans of the Historical Society—Personal.

Correspondence of The Observer. Trinity College, Durham, Nov. 3.—All arrangements for the Bible and Mission Study Institute which will be held under the auspices of the Y. M. C. A. of Trinity College, 4th-6th instant, have been completed. The members of the local association and other students are taking much interest in the institute and will do everything in their power to make it successful and the stay of the visiting students profitable and pleasant.

The executive committee of the Trinity Historical Society held a very important meeting Tuesday night, transacting business that will effect the work and good accomplished by the organization during the year. Dr. J. S. Bassett, president of the society, was chairman of the committee ex-officio and the organization of the committee was made complete by the election of Mr. A. G. Moore as secretary. The committee decided that the monthly meetings of the society shall hereafter take place the evenings of the first Thursday of each month and steps were decided upon for the enrollment of a number of resident members of the society. To give the proceedings of the society more publicity, especially the work accomplished in historical research it was decided to create the office of publication manager and Mr. J. P. Lucas, of Charlotte, was elected to that position. The society has a publication fund for the publishing, at the end of each year, the papers read during the season and last night Dr. Kligo was elected trustee of this fund. The Trinity Historical Society will hereafter pay more attention than formerly to the collection of historical documents, relics, etc., and will begin the acquisition of the portraits of the great Americans, especially of southerners.

The single court tournament arranged by the Trinity Tennis Club will be finished this evening and the winner and champion will receive a flower tennis racket as a prize. Much interest has been displayed in the tournament and the tennis courts have been full every afternoon since it was begun.

Mr. H. B. Adams, Jr., of Monroe, who was graduated from Trinity College last year and who has been taking law at the University, at Chapel Hill, has arrived at the park and will continue his studies in the law department of the University. Mr. Adams has returned to the park after a visit to his parents at Concord.

**PLANS FOR ROCK HILL.**  
Reported That the Southern R. Co. Made It a Half-Way Station—Personal and News Notes.

Correspondence of The Observer. Rock Hill, S. C., Nov. 3.—The report is being circulated that the Southern Railway authorities have decided to make Rock Hill the half-way station on the extension between Marion, N. C., and Camden, S. C. Blackburg has been this half-way station since the building of the railroad, the station being located near, and the train crews making that place their headquarters, but when the present plan goes into effect, this point will be the half-way station, which is seemingly a better arrangement as Rock Hill is more central than the present location.

Rev. J. C. John, who for some time past has been rector of the church of the Good Shepherd, at Yorkville, and Church of St. Andrew, at College, who has resigned the rectorship of the former and will devote his entire time to this charge. Rev. Mr. Johns is deservedly popular, and not only his people, but the entire city is delighted that he will spend all his time here, and are also glad that the charge has grown so as to warrant this change.

Miss Minnie McFeat, teacher of kindergarten at Wintrop College, who has been ill since the opening, has returned to the city and is again in charge of her work.

Fall River Cloth Market.

Fall River, Mass., Nov. 4.—Sales in the cloth market for the week are estimated at from 60,000 to 70,000 pieces. The market for the week has not been presented any new features. Buyers have shown but little desire to trade, which has resulted in a light bidding for all classes of goods. The prices are unchanged on a cent basis for regulars, but again a slight premium prevails throughout the market.

**SOME NEW PATTERNS.**  
We have just been making some new patterns for head shaft, lingers and head shaft pillow blocks. These patterns are of a design so far superior to anything that we have heretofore been able to get from other makers that we are not only satisfied but pleased with the results of our efforts. All our hangers are of very superior design. They are entirely new and we have put in them the best features of the hanger already on the market, and have put in them also some features which our long experience has brought to our knowledge. We find that in designing new patterns our contract with the erection of machinery puts us in position to introduce many new features. It is just as easy to make the hanger so that shafting may be easily put up and taken down as it is to so design them as to make them difficult. This is a valuable feature. Who would deny that it is better to put sufficient oil in a hollow base of a bearing to last six months and then not be bothered about it again, than to have the old way of squirting oil on it every two or three hours and besides the trouble, generally having a mess also? By careful oiling of our bearings once in three or six months, according to the work, we never have a sloppy mess of oil on the floor or on the machinery or on the cloth or whatever else we are making.
