

AN UNPRECEDENTED OFFER TO Consumers of Gas

This winter the cost of living has greatly advanced. Has your income increased correspondingly? If not stop the leaks. Reduce expenses. There is a wood famine on. Can you afford wood at \$4.50 per cord? Do you know what you would save with Fuel Gas at \$1.25? Place a range and heater in your kitchen. If it saves you money keep it; otherwise return it without expense to you. But, at least test the proposition and decide for yourself.
