FORESTRY ON RESERVATIONS.

Government Will Apply Preservation Methods to Military Lands.

Waashington Post.

With a view to obtaining profitable returns from reservation forests and of establishing object lessons in forest management, the government has undertaken the application of forestry on military reservations. The Forest Service has been requested by the War Department to examine for this purpose the reservation at Fort Wingate, in New Mexico, and the Fort Assinniboine military reservation, both in Montana.

Christmas casualties point most painty and uncreingly to the manner in which the day had been spent, and the Christmas of 196 was a shocking demonstration of the existence of the dispensary in Union. For three or more days the dispensary had been crowded, and it was almost impossible to serve the crowd of purchasers, and late Saturday evening found the growd almost undiminished at the door of the dispensary. Sunday was Christmas day and it was less like Sunday than it has ever been. Monday morning the mayor's court was crowded with psienders, drunk and disorderly conduct, due to the overladulgence in dispensary liquors by the maddened crowd. On Friday and Saturday before Christmas last year the streets were thronged, and on Saturday the streets were a mass of living, moving human being, yet there was less money spent for nice things to give friends and for sood things to eat than for sood things to eat. While it is true that for several days before Christmas a large quantity of whiskey came to this place through the express office addressed to many people, yet there was large quantity of whiskey came to this place through the express office addressed to many people, yet there was not a man drunk on the streets Christmas day, and it was Monday. We must conclude that those who go' whiskey took it home and drank it more moderately, and the whiskey was of a better quality than the dispensary liquor and had a

An extensive vocabulary is desirable, but the accurate use of words is preferable. Better a fed tools and the knowledge to use them than an arsenal of rusty weapons.

WORK WEAKENS THE KIDNEYS

Doan's Kidney Pills Have Done Great Service for People Who Work in Charlotte.

Most Charlotte people work every day in some strained, unnatural posi-tion—bending constantly over a desk riding on jolting wagons or cars-doing laborious housework; lifting, reaching or pulling, or trying the back in a hundred and one other ways. All these strains tend to wear, weaken and injure the kidneys until they fall behind in their work of filtering the poisons from the blood. Doan's Kid-ney Pills cure sick kidneys, put new strength in bad backs. Charlotte cures prove it.
