IN THE CITY POLICE COURT.

George McClure, a Night Rounder, to the Roads for 30 Days-The Difference Between an Old and

The feature of the city police court George McClure, a colored citizen who, three sheets to the wind, had made a round in Ward 2 Friday night in search of the wherewithal to make another sheet. According to the evidence in the case George was gloriously full, being in a most exuberant and bilarious frame of mind. His chief offense was in going to residences, knocking on the doors and inquiring if there was a booze shop in the vicinity.

Recorder Shannonhouse, even though it was St. Patrick's Day and the sham-rock on his coat tended to make him fean to the side of mercy, could do no less than send the defendant to the roads for 30 days.

Jim Mack, of a dusky hue, was charged with being drunk. Mack was new to the ways of the court and for that reason the recorder let him off upon payment of the costs.

"Yes, sir, I fully believe that Judge Parker, David B. Hill and other able Eastern Democrats have studied the situation and come to the conclusion that the best thing to do is to appeal to the South. They believe that the South, where the Democracy is conservative, can be counted on to stem the tide, and save the party."
