A Visitor.

AMUSEMENTS

One of the greatest singing masters of modern times, possibly the best that Europe affords to-day, will visit Charlotte Thursday when Alice Nell-sen appears at the Academy of Music, Mr. Henry Russell, who is touring this country principally on a vacation and incidentially directing the inter-ents of his famous pupil, Miss Nell-sen, has - the distinction of being recognized as the leading authority on all operatic questions that concern the Oid World, which of course may be, considered the world of music. Originally halling from the English metropolis, and now holding the posi-tion of chief professor of the chief con-servatoire of music in Italy, Mr. Rus-sell's visit will be of interest to all sell's visit will be of interest to all local students. A confrere of Caruso, the famous tenor, and erstwhile the impresairio of Covent Garden opera when Meiba, Calve and Alice Neilsen abared equal honors in London, it will be seen that Mr. Russell's influence in the highest musical circles abroad is paramount. Some of the finest singers in grand opera to-day owe their discovery to Mr. Russell and who knows what new voice he may find in this city likely to win fame. IFor that is one of the pleasures of Mr. Russell's tour of the United States—to search for talent for the presairio of Covent Garden opera to search for talent for the operatic stage.

Shepard's Moving Pictures are posi-tively faultless, there being absolutely no flicker whatever. The pictures stand out life-like and life-size and made realistic by mechanical effects, accurately reproducing every sound, both vocal and mechanical, indicaded during the action of the pic-tures. A staff of skilled stage employes accompany the exhibition to inis replete with thrilling dramatic incidents and comic situations, together with scenes of travel and in-cursions into the realm of fancy, all of which provide a unique entertainment lasting over two hours. The attraction comes with the highest enforsements and promises an evening of unalloyed enjoyment, that will appeal to every taste, and in which no sense of fastidious propriety is offend-
