STOCKS OVERCOME DEPRESSION Opening Was Wesk, Anthracite Car-riers Being Acutely Affected Be-cause of Unexpected Order to Miners to Quit but Later the Mar-ket Turned Aggressively Upward.

New York, March 30.—Prices recovered strongly from the weakness with which to-day's stock market opened and which was acute in the case of some of the coalers, in which opening losses ran from 2 to 3 points. The anthracite carriers were most affected, as to which the announcement from Indianapolis of orders to suspend mining in the anthracite region on pend mining in the anthracite region of Monday came as something of a surprise Monday came as something of a surprise. The rupture of relations in the soft coai trade was quite fully expected and it is doubtful if the action taken there had much effect on the opening break in prices. In fact, the recovery in the market was attended by professions of confidence that the soft coal strike would prove short-lived owing to the divided sentiment among the operations. Coupled with the depressing influence of the strike news was the early rise in the call loan rate to 8 per cent, and above. Til do my trading in Salisbury."

An Observer man reported this breat to an advocate of the new originaice, expecting him to feel aggrieved, but instead, the man said: "Yes, that is the way it is—any old excuse to get to Salisbury."

"Say, if a hen dies is there any aw to prevent a person from opening there and getting an egg?" asked a strike news was the early rise in the call loan rate to 8 per cent, and above, arousing fears that the rate might go much higher before the close of the day. As the day progressed, however, the call loan rate showed a tendency to recede and this was a notable influence towards the recovery. Loans made to-day at the stock exchange carry over until Monday. The upward movement became quite aggressive late in the day in the Harriman stocks and in a number of minor special-ties. The closing was steady and generally at net gains.

English Spinners May Visit Spartanburg.

Correspondence of The Observer.

Spartanburg, S. C., March 29 - A pasty of English spinners may visit Spartanburg and this section while on a tour of the South, which it is announced, will be made upon adjournment of the National Conference of Cotton Growers, which is to be held in Washington during the first part of the month of May, While the mill men in this county have received no official notification of the coming of the English spinners, they expect that they will come into this part of the country and if they do so it is not likely that Spartanburg will be given the go-by.

New York, March 30. The bulls were teinforced with several items this morning, one being reports of considerable tain in the belt and especially in Ala-tonia accompanied by numerous complaints of a gloomy feeling among planters. Next was a report from Heremen that we developments enabled the clique to push May up a points after a loss of 4 points. They subsequently advanced May to il.15 but at this point self-ing orders appeared, mainly from bull sources and the result was a fresh down start which did not cease until May had declined to 11 04 and July to 10 23, when the activity prevailed up to that time subsided. As the market showed weak-number of the coming the loss and wire houses were doing rather more fusiness, the trade being in fluenced by a statement from Mr. Prier, that he is still a buil, and expects a higher market. The result was a substantial advance, and broadening of speculation, Liverpool is due to come 7 higher in the morning.

The advent of sprink-like weather, accompanying the former development, is, however, favorable to improvement later on. There are reports that spring planting is interfered with West and South, but later advices point to west, and from the winter wheat belt uniformly favorable dispatches are received. Beneath the surface happenings of the week are to be discerned the steady advance of spring trade, the continuance of the immense activity in building, with collateral heavy dealings in all ing, with collateral heavy dealings in all kinds of lumber and material and the underlying confidence in a neavy year's turn-over in all lines. Money is strong and in active demand throughout the country. Bank cfearings show receding totals, this being mainly due to curtailed speculation. Hallway carnings continue excellent as heretofore.

Spartanburg to Have New Theatre.

Correspondence of The Observer. Spartanburg, S. C., March 29 .- Spartanburg will have a new and modern theatre, equal to any in towns of the size in the country. This is assured by the support that is being given the proposition by many business men when approached and asked to sub-scribe stock in the company that is pushing the matter. Those actively interested are J. T. Harris, and I. H. and M. Greenwald, who began work to-day. It was plainly to be seen that there is a demand for better accommodations in theatrical lines in Spartanburg and the promoters feel confident that they will be successful in disposing of the amount of stock necessary to erect a first-class opera house. It is hoped to have everything completed in time for next season.
