ANOTHER NEW HOSTELRY TRUCTURE WHAL COST \$150,000

Operative Company of Traveling ten, Together With Messrs, Julian B. Iattle, C. B. Bryant and O. D. Thoeler, Will Build and Run Osropean Plan Bouse—Will Consis 125 Rooms, Including Suites or Pumilics—More Than Half of fecessary Stock Already Subcrited by 100 Traveling Men—Vork to Begin Shortly. of Traveling

other new hotel for Charlotte is red. The lot has been secured, the clans for the structure prepared, and a company is being organized for the building of the hostelry. The promoters of the new hotel are Messrs. Julian H. Little, C. B. Bryant and O. D. Wheeler, who recently purchased the Fox property, at the corner of West Trade and Poplar streets, for the purpose. The new hotel, which will be on \$150,000 and will contain 125 rooms, including suites arranged for small

The new hotel will be built and run by a co-operative company of travel-ing men, together with the three promoters named above. Those interested have been quietly working upon the project for several weeks, ever since the lot was purchased. Already 100 traveling men who travel from Charlotte have subscribed stock, each person taking from 1 to 25 shares. The Observer learned last evening that considerably more than half the sum necessary for the construction of the hotel has been subscribed.

The hotel will be run by the company that builds it. It will be run on the European plan, the company employing an up-to-date hotel man as manager. It will be a commercial hotel and a good patronage will be prac-tically assured by the facts that a large number of traveling men pre-fer a European house and the stockholders, traveling men, will be on the alert in its interests all the time.

The building, the plans for which have been prepared by Wheeler, Runge & Dickey, will be a handsome steel frame structure, five stories high and perfectly fire proof. It will be of handsome design, as is shown in the accompanying cut, fronting 100 feet on Trade street and 130 feet on Poplar. The two fronts will be of light pressed brick. It will contain 125 rooms, cluding suites arranged for small fam-files, and about 30 rooms will have private baths. The part of the ho-tel containing the suites for family use will front on Poplar street. On the Birst fibor of the building will be the hotel office, sample rooms, writing rooms and toilet, and three store the latter fronting on Trade The kitchen, cafe and private dining rooms will be on the top floor. this arrangement having been to be an excellent one in the large cities. There will be two electric passenger elevators and one freight ele-vator in the hotel. The hotel will surround a court, which will be entered through an alley under the Poplar side of the building.

The new hotel is assured and it is also a fact that it will be one of the snost up-to-date hostelries in the South. Work upon the structure will begin as soon as the organization of the company can be perfected and the contract let, which will probably be two or three months.

WEEDS BY THE WAYSIDE

The book agent could not have run the gauntlet of the porters and got up-stairs if he hadn't looked just like other men. When the porters were rebuked for their carelessness, they stretched their eyes and said, "How'd we know he's a book agent?"

So up he came, and did not wait for a response to his tap on the door, but entered with a bland smile. The occupant of the room looked at him with that expression so common with with that expression so common with politicians, as much as to say: "Oh, of course! Glad you came in without ceremony. Aside. Who the thunder have we here?"

The book agent shook hands cordially, not seeing, as ordinary people see, that his unwilling host was busy, and, amid the confusion of the room he began to look about for a seat of van-tage. The other man kicked a lame rocker into place for him, and seated himself on a table, while he swung tried to ole. This legs and r uncomfortable. This was impress upon the caller that

the European plan, will cost about his host was not expecting a prolonged set-to. It was not clear to the local citizen what game, if any game, the other was up to. Chance might make it turn out that he was a bully fel-low, worthy of all acceptation.

The book agent did not take the proffered chair. From somewhere, where he had hidden it among his proffered clothes, he whipped out that oil-cloth contraption. Palms on table behind him, he raised himself to a seat by his victim and wriggled himself up close to the latter, until he had the latter leaning like a girl you are trying to kiss.

might worry a nervous woman into anything; but I don't want your stuff. You reflect upon my intelligence and education when you persist to tell me that I don't know what I want and that you are an angel come to tell me. If I wanted your stuff I'd buy it and be hack at my business. Don't let your employers make an infernal phonograph of you.

"But, if I can help you I will. This advice is free, but you needn't act on it in the quarter whither I'm about to send you. The man who lives right next door there is Mr. Ruffin, and I fancy he is amusing his mind with light literature. Hit him like a thousand brick, and don't let him put you off. Sometimes he may seem to you a little abrupt, but ignore that. Offer

"Ellot." "Offer him that, and be sure to explain that it's a woman. Hit him, also, with Sentimental Tommy: the title will catch him, and startle him by snatching out that long staircase of histories in his face."

The newspaper man did not follow further, but heard the agent tap and go in at the next door. The incident suggests an anecdote in the May Smart Set. Bismark went to see the Pope at the Vatican. He thrust the porter aside, saying, "I am Prince Bismark." "That," responded the porter, "explains your conduct, but does not excuse it." J. C. M.

Contracts for Boilers.

The Greensboro Boller & Machine Company, of Greensboro, representing the Atlas Engine Works, of Indianapolis, Ind., have closed a contract with the Selwyn Hotel, which is fire-"Now, sir," said the book agent, giv-ing his wrist movement to a little thing that looked like the back of a book, which under his impulse unfolded it-

WILL MAKE OWNERS RICH PROMISING MINE IN ROWAN

Vall Street Daily News Quotes I gineer of National Reputation Saying That Gold Hill Mine is C of the Best Paging in the Com—A Bit of Real Tragedy in Row—Ketth D. Lloyd Dring in W Virginia—Making Pichs for Set Tank—\$100 for Earthquake tims—The News of Salisbury. Special to The Observer.

Salisbury, April 21.—Burton Craige, Esq., left this afternoon for Gold Hill where he confers with W. G. Newman, president of the Gold Hill Copper Company, upon the work of the mine. Mr. Craige is local comman for the company and yesterday Charles Richmond, of New York, and an eminent lawyer of that city was here on legal business. Mr. Newman has a mining engineer of national repute here and they are preparing to work this mine, upon a greater scale than ever. The Wall Street Daily News pays a high tribute to the promise of this mine to excel its record of pass years and quotes an engineers as say ing he knows no property with such a fair opportunity to make its owners rich men in so short a time as this does. The men will be here until to-morrow night when they will return to New York.

O. F. Lewis, one of the High Point men locked out in the recent unpleasantness, was here this morning on his way home. Mr. Lewis says his men have promise of an abundance of help from the Asheville and other unions and that they will who out, al-though they have not been able to save much from their warm with which to carry on the war warms; the This Coupon

Will Bring You the Help That Millions Have Employed

It is so sasy to learn what Liquisone does; why does any sick one want? Shriply send us this coupon, and we will gladly buy you a bottle, as we have for millions of others.

Scores of diseases have now been traced to germ attacks. A few years ago most of them were attributed to other causes. This new cause of disease calls for new treatment, and that treatment is Liquisone. Won't you let us show you—at our cost—what this germicide does in a germ trouble?

WHAT LIQUOZONE 18.

this germicide does in a germ trouble?

WHAT LIQUOZONE IS.

The virtues of Liquozone are derived solely from gases, by a process requiring large apparatus, and from 8 to 14 days' time. No alcohol, no narcotics are in it. Chemists of the highest class direct the making. The result is to obtain from these harmless gases a powerful tonic-germicide. The great value of Liquozone lies in the fact that it is deadly to germs, yet harmless to you. Germs are of vegetable origin; and this gas-made product when absorbed by them, stops their activities. We publish an offer of \$11,000 for a disease germ that it cannot kill. But to the body Liquozone is exhilirating, vitalizing, purifying. It is helpful in the extreme. That is its main distinction. Common germicides are poisons when taken internally. That is why medicine proves so nearly helpless in a germ disease. Liquozone is a tonic.

disease. Liquozone is a tonic. WE PAID \$100,000 For the American rights to Liquo-

some, after hundreds of test had been made with it. After its power had been demonstrated, again and again in the most difficult germ diseases. Then we spent, in two years, more than ten times that sum to let others test it a our expense. The result is that millions of people, scattered everywhere, have shared in the benefits of this invention.

We make the same offer to you. We asy you to prove, at our cost, how

any you to prove, at our cost, how show you much this product means to you. Let to yoursel Liquosone itself show how wrong it is to suffer from a trouble that it cures whatever. GERM DISEASES.

Most of our sickness has, in late years, been traced to berm attacks, The list of known germ diseases now number about 100.

Some germs—as in skin troubles—directly attack the tissues. Some create toxins, causing such troubles as Rheumatism, Blood Poison, Kidney Disease and nerve weakness. Some de-stroy vital organs, as in Consumption. Some-like the germs of Catarrh-create inflammation; some cause indi gestion. Directly or indirectly, nearly every serious aliment is a germ result. Such diseases call for Liquozo drugs, which can't kill germs.

Every germ attack, no matter what its symptoms, calls for a germicide. The mildness of Liquozone makes some of its results seem almost incredible. But in that mildness lies the power that germ diseases need. And diseases plied for a test.

tle, and will pay the druggist ourselve for it. This is our free gift, made t convince you to let the product itself show you what it can do. In justice to yourself, please accept it to-day, for it places you under no obligations

Liquozone costs 50c and \$1.00.

CUT OUT THIS COUPON.
