An owance order was served on the ministen to-day from Justice own, of the Federal Court, granting the road permission to appeal from the State Supreme Court's recent mandamus order. The Federal Court order was secured just in time to ob-viate liability to fine from the State

"The Coast Line has for some time been assuming the attitude that it easily run the bull over us, eaid Commissioner Caughman to-day but that road will find out before this game is over that the commission is d or a local train to accommo date the public. It cannot be justly claimed that the commission has been arbitrary in this matter. We were willing to have the local train if the road did not see fit to stop the fast train. And in view of the fact that with one exception, the road has not eren fit to obey the orders of the commission in the past 12 months we think it should abide by the decision the State courts and not appeal this case to the Federal Court.

I happen to know," said a well-known railroad official to The Observer correspondent to-day, "that all the roads doing business in this State are watching this case with unusual interest. An interesting case argued in the Supreme Court to-day was that of W. T. Castles as administrator of the estate of John T.
