with two small towers and a large gothic portico with rich stone carv-ings. The interior has the form of a cross, with a rose window throwing a soft light across the altar. There are few artistic treasures within, and the scant light from the musty stained glass windows makes the interior rather dark. Moreover, it is essen-tially a chapel rather than a magnificent cathedral, and it lacks that splendid perspective fitting a State ceremony. However, its dark walls are now hung with magnificent tapes-tries, while thousands of plants and flowers and burning candles give a setting worthy of this solemn act. San Jeronimo is the only church in Spain where mass can be celebrated after midday. This results from an induigence granted for a fortune bequeath-ed to the church a century ago by a rich dowager in favor of the soul of her maid servant. and contemptible creature we used to encounter, was the builty who played the tyrant towards the weak, but cringed before his strong companions. But still more intolerable is a builtying nation that pleks a quarrel with a feeble nation with the base intent of seising her possessions. This builtying power is playing toward a weaker neighbor the role which the impious King Achab seted toward Naboth. When the king demanded Naboth's vineyard, Naboth answered "The Lord forbid that I should give to thee the inheritance of my fathers." But there was no board of arbitration in those days; might was right with Achab. He robbed Naboth so the life.

Friends and advocates of international arbitration, let it be your mission to protect the weak against the strong, and then to the ruler of a feeble nation may be applied the words of the poet:

"Thrice is he armed with the consciousness of the sacred right of property.

2. He is armed with the conviction that his cause will be adjudicated by the equitable decision of a board of arbitration.

PARADE OF SPANISH PROVINCES.
One of the quaintest features of the wedding fetes is that in which representatives from all the great provinces of Spain gather in their typical costumes, with their native music and dances, and even with samples of their local fruits and arts. The plan of this pagade is to give the new Queen an insight of the Spanish people from all sections. Some of the notable features of the parade are as follows:

Old Castile is represented by a group of heralds of Burgos, in black velvet suits with white ruffs and pointed hats. Among the characters are the legendary Cid accompanied by kinghts, pages and soldiers. The prevince of Austria is represented by guards recalling the heroic deeds of Pelayo, and by groups of peasants and mountaineers singing their melancholy national song ending with a sharp war-cry "A-ju-ju."

Galicia forms a very pretty group. The fisherfolk are shown in a huge boat witti nets and all the devices of the fishing craft. Aragon sends groups of her robust peasants, with their picturesque colored turbans and sandals. A beautiful coach is adorned to show the sleeg of Saragossa. Twelve Aragon dancers are designated to dance the native Jota before the date of the control of the statute of the fishing craft. Aragon sends groups of hear the spirit of the mountain torrent, to carry terror before them and leaver unit and desolution and sandals. MALARIA INSIDIOUS FOE

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagment ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality commendation here for his zeal and is weak, the appetite poor, digestion deranged, the complexion grows skill.
