"Collar Work"

\*\*\*\*

There is no question about

it-our collar work is unap-proachable. We know that we

do the best collar work in the South. Hundreds of people

tell us so. Every collar that we launder is shaped by hand

and put through a steam-heated tube. Of course there are plenty of machines on the market to do this work in

one-fifth the time, but ma-chines do not give the results.

The hand process is much more expensive, but we pre-

fer it, for there is a great satisfaction in turning out perfect work. Let us have your work in the future. You will

be delighted with our service.
