BRYAN ON TRUST QUESTION

RADICALISM IS CONSERVATISM

Taking for His Text the Statement That He is Being Described as Conservative, Nebraska Declares That Radical Measures Against Private Monopolies Are Necessary to Save Legitimate Wealth From Oidium—As Absurd to Talk of Controlling Trusts as Controlling Burglary—Formerly Radicalism Now Conservatism.

Trondheim, Norway, June 21.—William J. Bryan has arrived here to attend the coronation of King Haakon. Mr. Bryan, taking for his text the statement that he was being described as conservative, said:

"I am not responsible for the phrases used in regard to me; but I am responsible for my position on public questions. That position ought to be well known. Take the trust question for instance, as it seems uppermost just now. My position is, that private monopoly is indefensible and intolerable. That was the Democratic platform in 1900 and the plank was incorporated in 1904 and it is the only plank that has remained."

"There is some talk of controlling the trusts—you might as well talk of controlling burglary. We do not say men shall only steal a little bit, or in some particular way, but that they shall not steal at all. It is so of private monopolies. It is not sufficient to control or regulate them—they must be absolutely and totally destroyed. Corporations should be controlled and regulated, but private monopolies must be exterminated, root and branch. Now you can call that a radical doctrine. Yet it is more conservative to apply this remedy now than to wait until predatory wealth has by its lawlessness brought odium on legitimate accumulations."

"What used to be called radicalism is now called conservatism, because people have been investigating. The doctrine has not changed, but public sentiment is making progress."

Mr. and Mrs. Bryan will spend a week in Norway and will then go to England.

TOWN OF 13,000 DESTROYED? Contradictory Cablegrams Received From New Orleans Firm Prof. F. C. Baker Representative.

New Orleans, June 21.—Cablegrams reporting the destruction of Sagua la Grande, a town of about 13,000 inhabitants in the province of Havana, were received here last night by Stauffer, Helman & Company. Two messages were received, the first announcing that the town had been flooded and the second saying that it had been entirely destroyed by fire. The messages came from the firm's representative at Havana. No additional information has been received to-day.

WAGES RAISED AT FALL RIVER. Mill Men Grant Increase of 14 Per Cent on Other New England Mill Centers Expected to Follow.

Fall River, Mass., June 21.—The cotton manufacturers of this city have granted their operatives a 14 per cent increase in wages. About 25,000 hands are benefited.

The new scale, which will take effect July 2, is practically the same as that prevailing previously to July 1, 1904.

As the other New England cotton manufacturing centers follow the lead of Fall River, as a rule, the change is expected ultimately to effect all cotton mill workers in this section.

STILL ANOTHER VERSION

Gen. James Madison Leach's Famous Replies to Inquirers as to the "Back Salary Grab" as Recently Quoted in The Observer, Corroborated by Eye Witness.

To the Editor of The Observer: In your issue of the 17th and 20th you recall the incident of the late General James Madison Leach and his connection with the "back salary grab" of the late '60's or early '70's, and his ready answer when once confronted with the charge. We have the story from an "eye witness," which varied but little from your version in the issue of the 17th.

The incident recalls the strenuous campaigns of the '70's, when mud-slinging, vituperation and abuse was the stock in trade of the average spellbinder. Not till Cleveland's famous message of '77, giving the Democrats the battle cry, were political campaigns in the South advanced to the higher plain of an intelligent discussion of a living issue, rather than personal abuse of opposing candidates—another debt, by the way, the country owes the Old Man. During the campaign succeeding the "back salary vote," Gen Leach was frequently called upon by his opponents for explanations. He was always ready. When, at the climax of an outburst, the question was asked, "How about the back salary grab, General?" Without a moment's hesitation and ignorant as to his inquisitor, he fired back—"Shut your mouth, you d—d fool, just last week I paid \$350.00 security money for your d—d old daddy." The crowd yelled "put him out," and everybody said "didn't Leach get him."

Upon another occasion, when twitted with the same query, he read with great fervor from an old record showing that Congress had once voted George Washington back pay for unremunerative service. With great dramatic effect, of which he was a past master, he turned upon his inquisitor and said, "You cuss George Washington, the Father of your country, and a streak of lightning will strike you in the mouth, run down your throat, down your back bone, bust you wide open, d—d you."

The tragic scene overshadowed the sophistry, and Leach was voted back to Congress.

\$150,000 Oil Mill Fire at Yazoo City, Miss. Jackson, Miss., June 21.—A special from Yazoo City, Miss., says the Paducah Cotton Oil Mill, of that place, was completely destroyed by fire this afternoon, entailing a loss of \$150,000.

Cooling Breezes. The ocean is not the only waters which make cooling breezes. The waters of the Catawba also make them, for here in Charlotte the breezes made by the Catawba have a surpassing advantage over those of the ocean. To get the cooling breezes of the ocean, we have to go to the ocean. The old Catawba sends us an electric current and we supply the fan.

We have in stock a large lot of fans and we can send out men at any time to hook them up, with juice from the Catawba Power Company, or from the 4 C's steam plant.
