

More Evidence of the Effectiveness of Dr. McKanna's Liquor Cure

Demonstration last week in Greensboro successful from every standpoint. Subjects had used liquor continuously for a number of years. Read the story of their present condition as told by themselves and the verification of their stories by the Chief of Police, of Greensboro, N. C.

Greensboro, N. C., July 13, 1906.

I want the good people of Greensboro and North Carolina to know what a wonderful cure the McKanna Three-Day Liquor Cure is.

I have been a slave to strong drink for thirty years and was disagreeable to all around me.

My wife was miserable when I came home at nights.

Chief of Police Neelley came to me and advised me to go to Dr. J. J. McKanna, who had rooms in the McAdoo Hotel, and try his treatment.

After three days of this wonderful discovery I am a well man and feel better than ever.

I can go home now and be a comfort to my wife and family.

I take my hat off to Dr. McKanna and wish him success always.

H. T. PROCTOR.

Greensboro, N. C., July 13, 1906.

I have been drinking for twelve years, getting on big sprées about once or twice a month, neglecting my work and family.

I was advised by a friend that Dr. J. J. McKanna, of Reidsville, was in Greensboro and I went at once to see him.

I began the treatment about 8:30 a. m., Wednesday, July 10th, for the drink habit, and to-day I feel better than I have for twelve years, after three days' treatment, which has cured me.

Would advise all who wish to get the dreadful disease out of their system to go at once to Dr. J. J. McKanna and be cured.

Your business would only be neglected three days.

W. R. CURTIS.

Greensboro, N. C., July 13, 1906.

I have known H. T. Proctor and W. R. Curtis for about fifteen years and have known them to be men who work long enough to get a little money on hand and then engage in drinking whiskey for several days, abusing themselves and families. They have taken a three-day treatment under Dr. J. J. McKanna and now say they have no desire for whiskey and don't expect to ever drink again.

C. F. NEELLEY,
Chief Police.
