The above is a fac-simile cut made from photo of the World's Fair medal which was awarded to us on our machinery exhibited at ft. Louis. We exhibited one cotton seed huller, one yarn reel, one cake cracker, models of our sand, boll and separating reels, one spinning frame, some hangers, pulleys, gears and other miscellaneous machinery.

We not only feel that we have won a big victory, but it is a compliment to the Piedmont region that one of its shops should get a medal at the biggest and latest world's fair.

Cooling Breezes

The ocean is not the only waters which make cooling breezes. The waters of the Catawba also make them, for here in Charlotte the breezes made by the Catawba have a surpassing advantage over those of the ocean. To get the cooling breezes of the ocean, we have to go to the ocean. The old Catawba sends us an electric current and we supply the fan.

We have in stock a large lot of fans and we can send out men at any time to hook them up with ju from the Catawba Power Company, or from the 4 Co steam plant. THE D. A. TOMPHING CO.,
